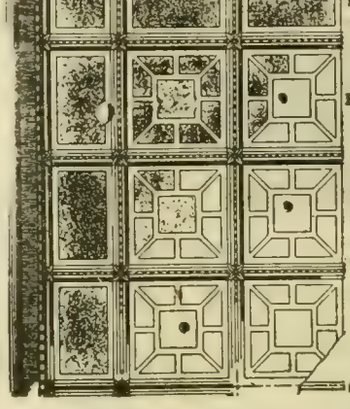
LUMBER.



Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXIII. MARCH 18, 1899. No. 1,618.

WE may put aside the sensational movements of a few securities on the Stock Market as being unaffective of the general situation. It is allowable to express surprise that anyone should be so reckless as to go short of Sugar with its history. This is a stock very satisfactory to handle in a certain way; but, as no outside speculative move can be made in it unobserved of the insiders, who have shown themselves always ready to turn a penny on one side or the other, it ought to be shunned by the independent outside operator. After giving us this surprise on the bull side insiders are just as likely to treat us to a sight of the big slump the outside bear operator has been working for as anything else. As to the market generally, it is gradually becoming apparent that the late advance discounted a long way ahead everything that was good in the situation, even when it is admitted that the times are very exceptional. Any thinking person will hesitate to base an opinion on known precedents afforded by our commercial history as soon as he realizes something of the change that has been produced in the condition of the world in a comparatively short period. We of the generation of steam have become accustomed to rapid developments, but even with this education we have to rub our eyes, when we read of peaceful communities having been formed in the regions where Livingston was lost, and the camera presents to our eyes the picture of the engineer at work with locomotives and steel truss bridges along the trail made by Stanley and his human pack train. Correlatively this means later a development that will ultimately test the ability of the manufacturing nations to meet the demand for manufactured goods. The brilliance of this prospect is dimmed, however, by the fact that we are a good way from its realization and also by the fact that prosperity does not reach its climax by a straight, level road, but by one in which there are many ups and downs. For instance, in our own case, we have benefited by large harvests accompanied by crop failures elsewhere, and by being able to harbor our resources through not having to buy abroad. Now we are buying more abroad; crops promise to be good elsewhere and our own are subject to uncertainties which are already creating anxiety in some places. Consequently, the immediate outlook does not look as rosy as it did a month or two back, and this fact will certainly reflect itself in security prices.

JUDGING by the vote in the German Reichstag this week, public opinion is turning more than ever to the necessity for a reduction of military burdens. This is proved, not so much by the adverse vote on the bill to increase the effective strength of the army, because the Reichstag has more than once rejected similar proposals of the government, as by the willingness of the latter to accept a compromise, rather than appeal to the country from the Reichstag, as was done in former similar occasions. Evidently the government was not so sure of the public as before and would not risk an appeal to it. No people have faced the sacrifices involved in universal military service more cheerfully than the Germans, so that it is quite significant of a period having been reached when the government is defeated in the Reichstag and dare not appeal to the people on a question of military preparation for defence. The Italians have long been sick of the onerous military burdens falling to them as members of the Triple Alliance. The Russian people, we are told, are not informed of the Czar's peace proposals for fear the news should cause them to agitate for relief from military duty; and while the French apparently have lost none of their devotion to the army, it must diminish as the hope on which that devotion is based, the recovery of Alsace and Lorraine, fades out of sight. The Peace Conference has now more reason for gathering than it had when the mere expression of the wish of an individual, ruler though he be of a hundred millions of people. It only needs that the British House of Commons should refuse the increased naval vote asked for by the government to show that all civilized peoples are sincere and united in their desire to put an end to a state of things that bears within it all the elements of danger to their most cherished and lofty aspirations. Economically considered, the great armaments of the present day are absurd. As their practical use has degenerated into a mere show of strength behind diplomacy, they would be just as efficacious if a half or even a quarter of their present size. What Europe is paying for is not military defence, but the gratification of the military pride of their rulers. When the Kaiser expressed jealousy of the size of the Bremen and Hamburg commercial fleets as compared with his own no one seems to have seen its absurdity, and the Reichstag voted him more ships with which to make a bigger splurge among his fellow potentates and spread abroad the gospel of his sacred person which already was so thoroughly accepted at home that his wish was law. A change in European public opinion that would prevent any further enlargement of the military establishments, even if it did not at once cause their reduction, would, besides its higher and worthier consequences, relieve the business situation of a fear that has been only too prevailing and embarrassing in the past ten years.

ANOTHER suggestion comes from the President of the Borough of Manhattan for the improvement of the Borough, which, though in a way practical, does not commend itself so readily to the judgment as the proposed extension of 6th avenue from Carmine street to Canal street. This suggestion is the widening of Pell street, from the Bowery to Mott street, and its extension west to Mulberry street and the Park of that name; also the extension of Elizabeth street south to Chatham square. The avowed object of this improvement is not so much to benefit the traffic of the city by easing communication, as to break up what is known as Chinatown in New York City, and to suppress the awful state of things that is said to exist there. If no other reason can be brought forward to support this suggestion we are inclined to think it had better be dropped. The good intentions and energy of the Borough President and those who are with him in this work are not to be questioned for a moment, but it seems that they have overlooked the fact that wickedness belongs to people and not to buildings. If Chinatown were razed to the ground, its people would still exist, and probably under the necessity of securing new housing spread themselves and their abominations in many directions. The police and the reformers of this city do not agree upon many points, but they may be said to agree on one, namely, the advisability of centralizing vice so that it can be brought under restrictive or reforming influences. If that is putting it a little too strongly, it can be certainly said that both police and the religious and philanthropic workers among the slums are opposed to scattering any known vicious body of people through the city at large. Without something more practical than has yet been urged in favor of the work there is no more reason for widening Pell street than for widening any other extremely narrow street. As regards the moral question, if Chinatown is what it is reported to be and is to be suppressed, it should be insisted on that the human elements that compose it be carefully gathered together and put where they will do the minimum of harm, and not be allowed to spread the contagion of moral disease through the community. The proposition is one that involves such serious consequences that it ought to be weighed very carefully, indeed, before final action is taken.

THE Citizens' Committee who are fighting the Amsterdam avenue grab ought not to allow themselves to be induced to change their base of operations by any compromise offered by the offending railroad company. On the contrary, they should stand more firmly than ever behind the Ford bill and their own demands. To make concessions now means defeat, while there is a chance that firmness may be rewarded by victory in the Legislature, and failing that in the courts, if the committee only continue to fight faithfully for their rights. The amendment proposed by the counsel to the Third Avenue Railroad Company is only a ruse to bring them out of a strong position in order that they may expose themselves, or their arguments and principles, which amount to the same thing, to slaughter. The leading counsel for the people, a very able constitutional lawyer, has assured them of the safety of their legal position and of their ability to maintain it in the higher courts, as they have already done in the lower, and they should leave it to the members of the Legislature to decide for themselves whether they will accept the onus of denying a popular demand which at the same time can be gratified elsewhere. This would be a very profitless position to take, especially for those who come from this city and desire re-election.

AN attempt to check the growth of department stores in Chicago has just been defeated by the State courts. Nearly two years ago the Common Council of Chicago, at the request of retailers in particular lines, passed an ordinance forbidding, under penalty of fine, the carrying on of a provision business and a general merchandise business in the same store. Under this ordinance the proprietor of a department store was fined by one of the justices of the peace. An appeal was taken to the Superior Court, and, as might have been expected, the decision of the justice of the peace was overruled on the ground that the Common Council had exceeded its powers in passing the ordinance. If municipal government could be employed to discourage one class of tradesmen for the benefit of another, a very undesirable state of things would surely come to pass, and it would not be the large aggregations of capital represented by the department stores that would be the sufferers in the end.

OUR ALBANY LETTER

Albany, March 16.—New York's greatest measure, the Rapid Transit bill, was reported favorably by the Assembly Committee on Cities this week, and went upon the calendar of that body. It was already on the calendar of the Senate, and some kind of action may be expected upon it the coming week in both the Senate and the Assembly. Alexander E. Orr, President of the Rapid Transit Commission, appeared before the Assembly Committee on Cities in favor of the bill, and made the argument that Boston's success with a subway system of transit ought to inspire New York to enter the same path of progress. Mr. Orr suggested an amendment to the bill taking away from the Corporation Counsel of New York the power of vetoing any franchise granted by the Rapid Transit Commission. This amendment was adopted. The city authorities of New York did not appear in opposition to the bill, but the Tammany Hall Senators and Assemblymen voted against the favorable report of the bill from the Committee on Cities. This probably indicates their hostility to the bill, and since the Republican majority in the Senate is small it is possible the measure may be defeated.

Another great New York measure, the bill authorizing the Astoria Light, Heat and Power Company to build gas plants in Astoria and manufacture gas there for the Consolidated Gas Company of New York, was passed in the Assembly by a large majority. If this bill becomes a law the Consolidated Gas Company will remove all its gas plants in New York to Astoria; which will be quite a benefit to many neighborhoods in the City of New York. The chief argument of the opposition to the bill is that the Consolidated Company ought to pay something for the privilege of building a tunnel beneath the East River.

The Senate Committee on Cities has reported favorably Senator Marshall's bill permitting the Long Island Railroad Company to build a tunnel beneath the East River, through which to run trains to Cortlandt street, in New York. This bill is one of the greatest schemes before the Legislature. Whether it will be approved of by the Senate and Assembly cannot be determined.

The Assembly passed to-day Mr. Brennan's East River Bridge bill. It provides that the Governor may appoint a commission of six members to construct a bridge over the East River, about a quarter of a mile north of the present bridge. The bridge is desired chiefly by Brooklyn people. It was opposed by Tammany Hall.

The Senate has passed the following bills of interest:

Senator Stranahan's bill (Intro. No. 485), to legalize existing 4-inch wall extensions on the public way.

Senator Brackett's (Intro. No. 618), providing that the State of New York may be made a party defendant to an action for the foreclosure of a mortgage.

Assemblyman McKeown's (Intro. No. 145), amending Section 422 of Chapter 378 of the Laws of 1897 so as to provide that the words "local improvements" used in the section "shall be construed to mean any work, the payment of which was prior to the passage of this act provided for by the laws in force in the territory formerly known as the Mayor, Aldermen and Commonalty of the City of New York." Also, providing that "unless it shall be petitioned for by a majority of the owners of property (who shall also be the owners of a majority of the front feet) on the line of the proposed improvement, no assessment shall be imposed for the paving of any street which has been once paved, and the expense thereof paid by the owners of the adjoining property." The part in parentheses is omitted.

Senator Ford's (Intro. No. 482), altering the map of New York of the lands lying between Amsterdam avenue, Fort George avenue, 11th avenue and 119th street.

The Assembly has passed the following bills:

Assemblyman Guider's bill prescribing construction for elevator shafts in any building three stories high or more hereafter built, and requiring elevators and stairways in buildings already built to conform to the requirements for the same in new buildings.

Assemblyman Miles's, reducing the legal rate of interest to five per cent.

Assemblyman Doughty's, amending the law requiring a municipal corporation which diverts the waters of a stream flowing into a tide-water creek or estuary, to keep the navigable waters of the creek or estuary deepened to the depth of at least 3 feet at low water mark; to provide that in Nassau County the depth need not be maintained to a greater depth than 50 feet.

Assemblyman Brennan's, creating a commission to provide for a system of public docks and terminals in the State, and to supervise their construction and maintenance.

Assemblyman McKeown called up Mr. Farrell's dock bill for reconsideration in the Assembly to-day, it having been lost when the first attempt was made to pass it, and secured its approval. The bill sets aside piers 3 to 8 in the East River, inclusive, for the use of canal boats. It was amended, however, to provide that the present occupants of the piers (the N. Y. Central Railroad) need not vacate them.

The bills presented this week are given below, with the names of their movers and their introductory numbers:

Senator McCarren (Intro. No. 823), providing that in 1900, and subsequently, the expenses of maintenance and distribution connected with the public water system in the Borough of Brooklyn shall be provided for in the budgets for said years by appropriations, as in the case of other departments of the city government. The annual income from the water system in Brooklyn is to be applied to the payment of interest on all outstanding bonds issued by the city for the extension and repair of the water system.

Senator Elsberg (Intro. No. 818), to vacate an assessment for paving, curbing, guttering and flagging 145th street, from 7th avenue to the Boulevard, as far as the same remains unpaid.

Senator Ford (Intro. No. 822), giving the control of the new speedway in New York to the Department of Public Parks, with power to determine what manner of driving of horses and carriages and other vehicles may be practiced, and that during certain portions of the day carts and other vehicles for the transportation of merchandise or freight may be excluded therefrom.

Senator Mitchell (Intro. No. 821), authorizing the City of New York to assess upon such portions of the property abutting upon Lind avenue, from Wolf street to Aqueduct avenue, in the Borough of the Bronx, for the cost and expense of regulating, grading, and otherwise improving it, but none of the cost is to be assessed on abutting property which the Board of Assessors do not deem to have been benefited by the work.

Senator Munzinger (Intro. No. 808), laying out Hamilton Park, in the 16th Ward, Borough of Manhattan.

Senator Grady (Intro. No. 835), allowing the commissioner of street cleaning of New York to make contracts for the removal of snow and ice in New York City.

Senator Grady (Intro. No. 836), requiring owners of houses in New York to build suitable sidewalks after the curb is laid. In case of failure to do so, the city shall do the work. The commissioner of highways need not advertise for bids nor award the same to the lowest bidder.

Senator Grady (Intro. No. 837), authorizing the Commissioner of Street Cleaning to organize a bureau for the removal of snow and ice; and providing that when the work is not performed by the owner or tenant of any premises the work may be performed by the city and charged up against the property, the same as arrears of taxes.

Senator Mitchell (Intro. No. 841), repealing Chapter 294 of the Laws of 1891, which permits the elevated railways of New York to abandon any part of their route.

Assemblyman Bedell (Intro. No. 1218), providing that all street surface railroad companies incorporated prior to May 6, 1884, and all which since that date have become the owners of the property of such companies, to the extent thereof, shall not be required to pay any portion of the expense of any new pavement.

Assemblyman Egan (Intro. No. 1247), providing that no naturalized citizen be employed in the construction of public works by the State, or municipality or by their contractors, unless he shall provide a naturalization paper, or a certified copy thereof, and a memorandum of the same is to be filed in the office of the clerk of the municipality, or with the Superintendent of Public Works for inspection by the public.

Assemblyman Ware (Intro. No. 1305), to vacate an assessment for paving, guttering and flagging 145th street, from 7th av to the Boulevard. Also introduced in the Senate by Senator Elsberg (Intro. N. 818).

Assemblyman Hitchcock (Intro. No. 1284), appropriating $200,000 for building four floating grain elevators of the latest improved style, and of capacity capable of elevating and transferring not less than 8,000 bushels of grain an hour. They are to be built under the direction of the Supt. of Public Works, who is authorized to employ as many clerks and laborers as is necessary to facilitate the elevation and transfer of grain from boats to vessels, and from boats to warehouses.

Assemblyman Meister (Intro. No. 1286), authorizing the board of docks to set apart the pier at or near the foot of East 13th street, on the East River, for recreative purposes, the upper part to be for the use of the people, and the lower for business purposes.

Assemblyman Green (Intro. No. 1281), exempting a duly licensed engineer of steam boilers, actually employed as such, from jury duty.

Assemblyman Collier (Intro. No. 1277), providing that bonds taxable as personal property in the City of New York, which are secured in whole or in part by mortgage on real property situated in the State, shall be exempt from taxation for city or county purposes in 1899, but the exemption is not to include corporate bonds secured by a deed of trust or a trust mortgage.

Assemblyman Ware (Intro. No. 1304), making it an offense to affix an advertisement to another's land, or to any chattel thereupon.

Assemblyman Egan (Intro. No. 1247), amending the labor law to require naturalized citizens to register their certificates of citizenship before they accept employment on public works.

Assemblyman Gale (Intro. No. 1246), making it a misdemeanor for a person other than a farmer or market gardener to use Gansevoort Market.

Assemblyman Davis's tax bill, which has passed the Assembly, is for the purpose of applying to all cities of the first class the principle, which has worked excellently in Buffalo, namely: of putting a time limitation to the lien of taxes. It is not the intention to cut off any just claims of the cities, nor to foreclose the right to collect taxes. The claim that it will favor tax-dodging, Mr. Davis says, is not sound, for unless officials connive at such dodging, under a law such as Mr. Davis suggests, the taxes will be promptly collected. No amendments were offered in or out of committee, and on second reading only the principle was attacked. But this the Legislature approved many years ago as applied to Buffalo. It does not appear, Mr. Davis says, how the City of New York will lose anything under such a law. If there are any valid objections to the method of applying the Buffalo principle to New York, they were not stated; but if they exist, no doubt the bill can be amended to meet them.

PROPOSED LEGISLATION FOR OWNERS AND BUILDERS.

A look over the bills that have been introduced into the Legislature does not reveal so many relating to building interests as is usual, nor are the objects of those that are found as objectionable as has been the case in other years. At the same time there are some that require examination and watching by real estate and building interests. One thing quite noticeable is the way labor interests continue to press their demands upon the Legislature. Having been defeated for several years successively in amending the building laws to suit their wishes in certain respects, they are now endeavoring to secure the same ends through the labor laws. Mr. Costello's Assembly bill (Intro. No. 740), and Mr. Coggeshall's Senate bill (Intro. No. 445), may be quoted as an instance of this. This bill proposes to give the factory inspector power to inspect and license annually, for a fee of $5 each, all hanging scaffoldings or stagings with their accompaniments; and also power to enforce a proposed provision of the law to protect workmen, that iron work in buildings shall not be constructed more than three tiers ahead of flooring or filling in. The last-mentioned provision is also sought to be obtained by an amendment to the labor law, introduced by Mr. Fallows (Intro. No. 1185), by the insertion of the words: "but at no time shall the said iron work be set up more than three tiers ahead of said flooring or filling-in." There exists in Chapter 936 of the Laws of 1896, a requirement that filling-in, or flooring, shall be completed within three tiers as the iron work progresses, but the amendments now proposed would obstruct the execution of the iron contract if the fireproofers or carpenters for any reason failed on theirs. Other bills of like character are those of Assemblyman Adler (Intro. No. 618), to increase the protection to workmen employed on swinging staging by requiring that there shall be a lifeline or stout rope pending from above for each man working thereon; and Assemblyman Egan (Intro. No. 669), requiring that scaffoldings and stagings should have attached, proper and suitable mechanical contrivances adapted to prevent falling; in case of failure of ordinary means of suspension, "such contrivances to consist of ropes, hooks, loops and pulleys, permanent and adjustable, in such manner as to best secure the desired result." Another renewal of an old attempt to obstruct building operations is the following amendment to the labor law, proposed by Mr. O'Connell (Intro. No. 872), "If elevating machines or hoisting apparatus are used in a building in the course of construction, for the purpose of lifting materials to be used in such construction, the contractors or owners shall cause the shafts or openings in each floor to be inclosed or fenced in on all sides by a barrier at least eight feet in height. If a building in course of construction is five stories or more in height, no lumber or timber needed for such construction shall be hoisted or lifted on the outside of such building."

Of the bills which directly affect construction, that of Assemblyman Guider (Intro. No. 244), is probably the most arbitrary, and does not appear to have received the attention it deserves. It first prescribes that all elevator shafts hereafter constructed in any hotel or other building of three stories in height or more shall be of a specified form of fireproof construction, and surrounded by iron stairways, and that the elevators used in them "shall be wholly constructed of iron and steel, and that no wood or other inflammable material shall be used in the construction of either the shaft or elevator; and, further, requires that within ninety days after the passing of the bill, all elevators and stairways in buildings of the character specified shall conform to the requirements prescribed in the first section for construction of elevator shafts and elevators. Failure to comply with these provisions would render the offender liable to imprisonment or fine or both. Assemblyman Collier has a bill (Intro. No. 718), to secure positive and uniform ventilation for every schoolhouse and building of public resort by requiring that the ventilating apparatus shall be so constructed that the vitiated air dispelled and the quantity of fresh air admitted shall be not less than twenty cubic feet per minute for each person that such building or schoolhouse can accommodate. Senator Sullivan proposes (Intro. No. 181) to legalize the use of cement concrete fireproofing, or any other fireproof materials or combination thereof approved by the board of examiners. Finally, there is under this head Senator Grady's bill (Intro. No. 388), and Assemblyman Bulkley's (Intro. No. 996), repealing Chapter 672 of the Laws of 1897, requiring iron or steel guards to be placed in windows of tenement houses, which there is good reason to believe will soon become law.

Two Assembly bills which might naturally be presumed to be for the annoyance of householders and owners of buildings are: Mr. Phillip's (Intro. No. 84), making it a misdemeanor for any occupant, owner, tenant, lessee, manager, superintendent or person in charge of any building in the State to allow any other person to stand, sit or occupy any position on the sill or outside part of any window in such "house, building or edifice," to clean, polish, paint or perform any operation upon such window, without providing suitable and effective apparatus or appliance for the saving of life and prevention of accident to the person so employed. Or, in other words, that no householder shall allow his housemaid to clean the windows of his house without first supplying her with the patented safety appliance manufactured by the promoters of this bill. Mr. Murphy's (Intro. No. 789), which is the revival of an old attempt to require engineers in charge of steam boilers or engines to be citizens of the United States and licensed, only this time it excepts, along with engineers holding a Federal license, those in charge of boilers of not exceeding 150 square feet of heating surface, and operated at not over 10 lbs. pressure for house-heating and kindred purposes.

No list of the important building bills now before the Legislature would be complete without making mention of Senator Ford's (Intro. No. 363), and Assemblyman Adler's (Intro. No. 703), legislating out of office the commission on new building code appointed by the Municipal Assembly, and repealing any code that might be established by the Municipal Assembly, and the same Senator's (Intro. No. 364), and the same Assemblyman's (Intro. No. 704), empowering the Governor to appoint a commission on building code, though all of which we are assured are now defunct.

The Slater bill, to repeal the Tobin Act, requiring that all stone used on public buildings in this State shall be dressed and cut there, of which both contractors and workmen seem to be about equally tired, is also a measure deserving of attention. A delegation from the Builders' League of New York went to Albany on Wednesday last to support the repealing measure, and there are good prospects that it will be successful.

Finally, a measure that interests a good many builders and property-owners, is Senator Stranahan's (Intro. No. 485), to legalize four-inch wall encroachments on the public streets, etc., in New York County, unless suit is begun by or on behalf of the City of New York within one year from the passage of the bill for their removal.

This article should be read with our Albany Letter, which reports the progress made on several of the measures described.

INTEREST ON DAMAGE AWARDS.

The Bureau of Street Openings has an interest account of something like $1,000,000 a year, which, unless it can be included in the assessments for benefits, must fall upon the city at large. The question was submitted to the Supreme Court, Special Term, by the City, in the matter of opening East 169th street, and an adverse decision rendered by Justice Russell; Counsel for the City, however, are confident of a reversal at Appellate Division. This point was raised, among others, as an objection by the City to the confirmation of report of the Commission of Estimate and Assessment in the proceeding named, and Justice Russell, in overruling these objections, laid down the rule that interest is the compensation awarded for the use of the property taken from the owner and thereafter enjoyed by the city. It is a fixed sum, and, under the theory of the Consolidation Act, follows as an incident from vesting the title. He further said: "The theory of assessment for local improvements of this character is that, in the eye of the law, from the moment a city owns the property certain lot owners are benefited, although the actual improvement may be delayed by the work to be performed in rendering that benefit available. The question is, therefore, how much an owner of a lot is benefited or injured at the time the city takes the property. From that moment it becomes in the law the property of the city for street purposes, and, as the use of it belongs to the city for public purposes, the imposition of the expense of that use as an equivalent for the deprivation to the owner is a public expense. Without controlling language in the statute the property owner should not pay for the public use of a street. The commissioners were, therefore, right in not including in their awards and assessment for benefit any interest upon the awards made by them."

THE BAR ASSOCIATION AND AUCTION SALES.

At a regular meeting of the Bar Association on Tuesday evening last, Hamilton Odell, Vice-President, in the chair, the following resolution was passed, on the motion of Joseph C. Levi:

"Resolved, That the Committee on the Amendment of the Law consider whether any changes are advisable in the method of con-

ducting judicial sales in this county, and especially whether it is desirable and practicable to prevent two or more such sales being held at the same time, and that the Committee report hereon, together with any proposed legislation on the subject, at a future meeting of the Association."

To a representative of the Record and Guide the mover of the resolution said:

"The resolution looks to the abolition of the system that has been so long in vogue in this county of having all judicial sales of real estate held at 12 o'clock. It is not so material that the sales should be held at a particular hour, as that they be held consecutively and separately instead of simultaneously. It is as if five or six or eight causes should be tried at the same time and in the same court room. While the argument applies with the same reason to all auction sales of realty, of course the Association of the Bar, and the Bar at large can only take cognizance of the subject of judicial sales, and there certainly is nothing judicial in the methods of the modern real estate auction room, where any number, from two to ten, auctioneers are all selling at the same time. There is probably among laymen an impression that the law requires that real estate should be sold always at noon time, but this is an erroneous idea. It was suggested by some member of the Association the other evening that it would be necessary to go to the Legislature in order to change the present system, but that is not so, as the Judges of the Appellate Division are authorized to regulate the whole general conduct of judicial sales. I think also that there can be a judicious pruning of the Terms of Sale."

Mr. Levi was asked if he had any practical plan by which he thought this change could be effected, to which he replied that he had, but that he felt it would be improper for him to state it until the matter has been reported by the Standing Committee to the Bar Association.

THE WEST END ASSOCIATION.

The usual monthly meeting of the West End Association was held on 6th inst., with Cyrus Clark, President, in the chair, when Alexander J. Howell, No. 49 West 89th street, and Gardiner Stewart, No. 134 West 91st street, were elected members, and the resignations of S. T. Cannon, F. C. Eberlin and W. H. McCord were accepted. Mr. Coleman reported the granting of the temporary injunction asker for in matter of Amsterdam avenue.

A letter from Richard Croker, opposing four tracks, was read, and another from Gardiner Stewart, relative to burglaries in the neighborhood of 91st street, was referred to the Grievance Committee.

A resolution was adopted asking the Commissioner of Highways to pave Broadway (the Boulevard), on the east side from 119th street, and on the west side from 110th street to Manhattan street, and referred to the Committee on Local Improvements for action.

A resolution was also adopted instructing the Committee on Grievances to take immediate action to procure drip-pans at street crossings beneath the elevated road structure, better sanitary conditions on that road, and additional stairways at 72d, 93d and 104th streets.

On motion, Messrs. Doyle, Phelan, Harnett, Houghton and Leaycraft were appointed a special committee to appear before the Municipal Assembly and request the passage of an ordinance providing that drivers of delivery wagons must be at least eighteen years of age, and must in driving turn corners at a walk.

There were other resolutions relating to the Albany demonstration against the four tracks on Amsterdam avenue, which it is not now necessary to report.

AN APARTMENT HOUSE A "FAMILY RESIDEDCE."

The Supreme Court—Appellate Division—has held in the case of Hyman Sonn and Henry Sonn v. Herman Heilberg, in which the defendant was sought to be restrained in the erection of a six-story apartment house for the residence of families, upon 78th street, between Amsterdam avenue and the Boulevard, because of an alleged violation of a restriction: "Not to erect any building or buildings * * * * not less than three stories in height, and the same to be in every way adapted for use as a family residence," that an apartment house is a family residence.

In the opinion rendered by the Court, of which Erdman, Levy & Mayer, attorneys for the defendant, send us a copy, it is stated: The use of the word family in no sound sense qualifies the purpose to which the building should be put. It could scarcely be claimed that if a single gentleman erected a house upon these premises, three stories in height, that he could not be permitted to occupy it, although he had no family, in the ordinary sense of that term. And so we conceive that he might let the apartments in the house to other single gentlemen without it being supposed that he had violated the covenant restricting the use to a family residence. Or suppose that a family in literal sense did in fact erect and occupy a house answering to the requirements of the covenant, would they be held to have violated the terms of the covenant, if they let rooms in the house to other families or boarded them therein? We think not; and if not, how does the existence of a structure for the use of several families contravene its provisions? The structure does not cease to be a family residence, although more than one family resides therein, and there is no limitation or restriction upon the use of the property save that it shall be used for the residence of a family, and that business shall not be carried on thereon. The proposed structure is in every way adapted to family use, and will be used by families as a residence; and this being so, the proposed structure is in literal compliance with the covenant. If the parties had in mind the exclusion of a building for the use of more than one family, they should have so stated it in their covenant; not having done so, the Court should not be called upon to interpolate it.

OBITUARY.

MICHAEL HARRISON, SR.

Michael Harrison, Senior, member of the firm of M. Harrison & Son, died at his home, No. 161 East 61st street, on March 15th, after a short illness, from pneumonia. He was born in Ireland in 1822, and came to this country with his parents when he was seven years old; at an early age he learned the trade of a tin roofer, and in 1844 he started in the tin roofing business in Bayard street, between Forsyth and Chrystie streets, where he continued to do business until 1889, after which he removed to the building which he erected for the purposes of his business, at Nos. 214 and 216 East 52d street, where he was actively engaged until the time of his death. He was a resident of the Sixth Ward during his early life, and a member of the Volunteer Fire Department, having been connected with Hose Co. No. 3. During the past 40 years he has been a resident of the 19th Ward. He leaves two sons and four daughters.

JOHN R. DOWNEY.

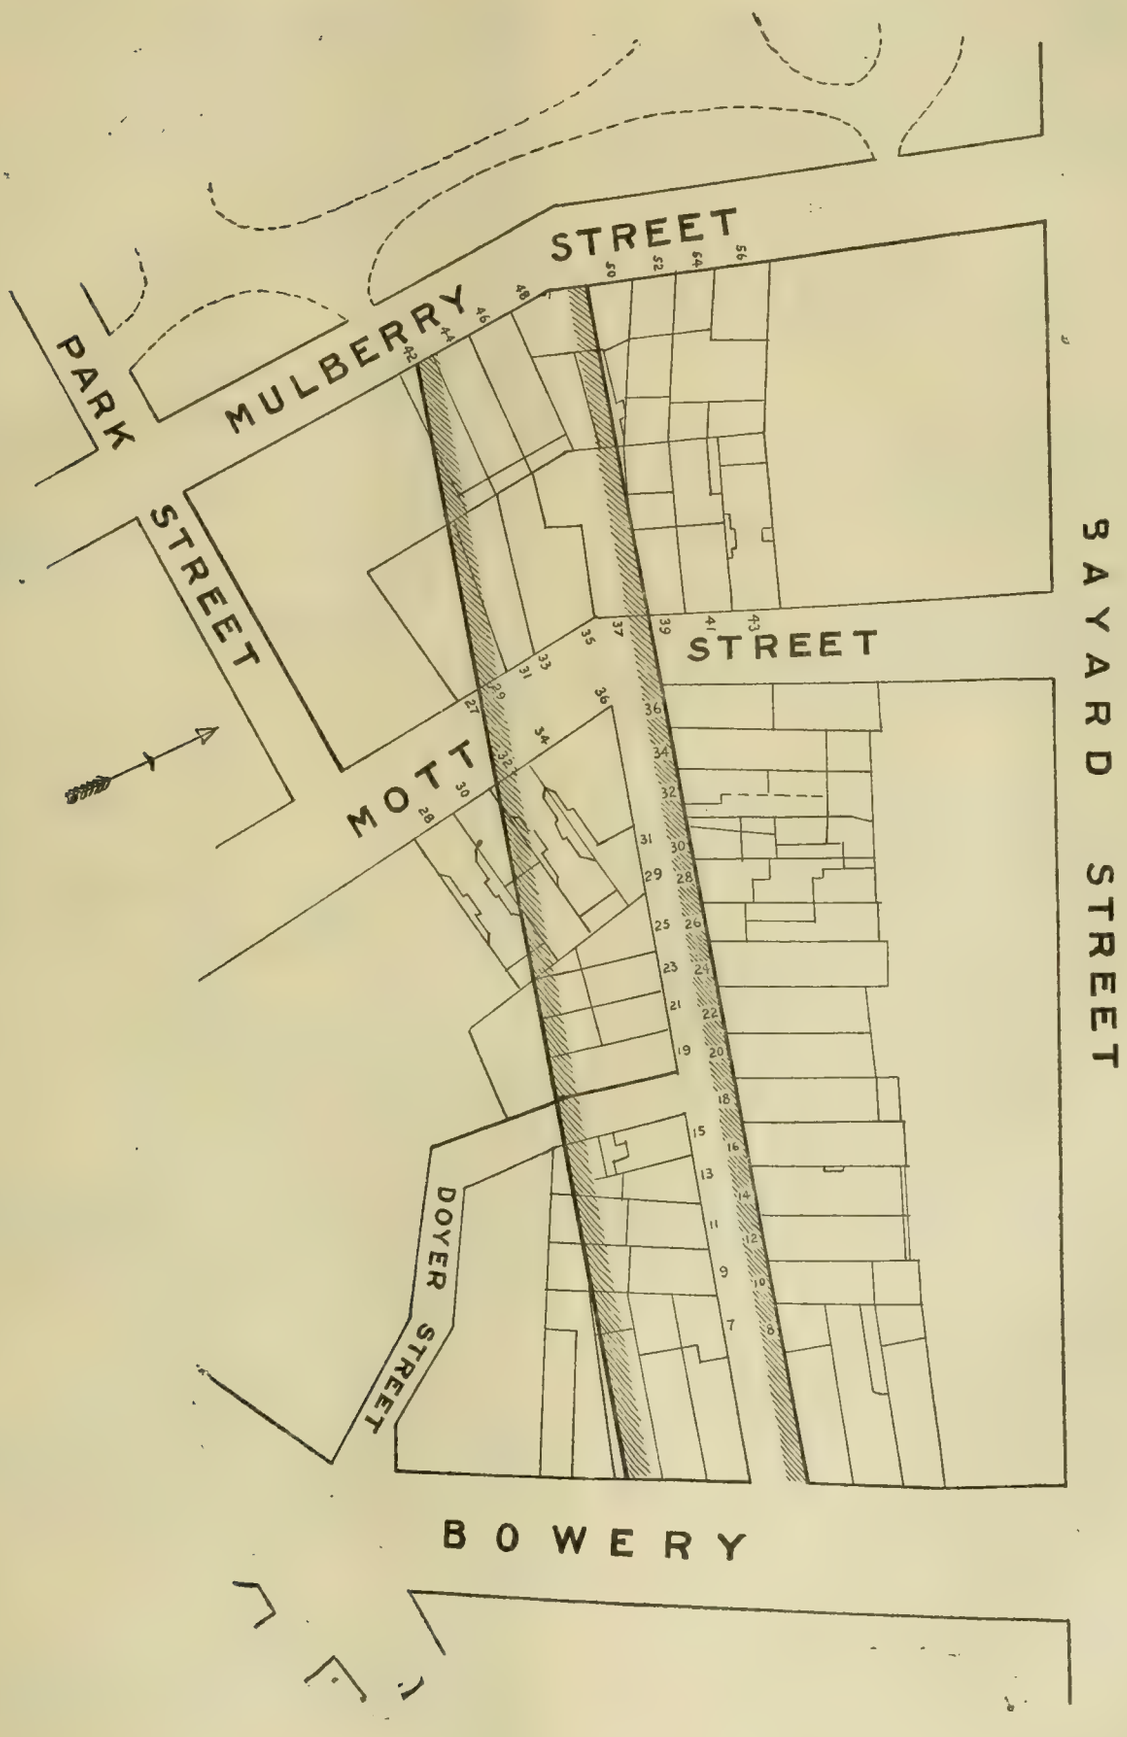
John R. Downey, whose death occurred on Wednesday morning at his home, No. 19 West 45th street, was a member of the well-known building firm of John Downey. Mr. Downey started in the building business in 1870 in his father's office. Shortly afterward he was taken into partnership. Among the more important structures which the firm has erected are the Waldorf-Astoria Hotel, New Netherland Hotel, Park Row Syndicate Building, Home Life Insurance Building, and American Tract Society Building. Mr. Downey was a member of a number of clubs and associations, including the Building Trades Club. He leaves a widow and five children. The Board of Directors of the Real Estate Exchange appointed Douglas Robinson, H. H. Cammann and E. A. Cruikshank a committee to represent them at the funeral.

THE STUDY OF REAL ESTATE.

To the Editor of THE RECORD AND GUIDE:

Will you kindly inform me through your paper, what books would be the most useful for me to study to enable me to acquire a thorough knowledge of the Real Estate and Brokerage business? GEO. DIERST.

March 13, 1899.



Answer.—We would recommend you to purchase: (1) "Guide to Buyers and Sellers of Real Estate"; (2) "Bearings of the Charter upon Real Estate," both of which are by Mr. George W. Van Siclen; (3) "Laws Relating to Building in New York City," by Mr. Wm. J. Fryer; (4) "A History of Architecture, Building and Real Estate." The Record and Guide publishes these books. There are also, of course, a number of strictly legal works on real estate.

PROPOSED DISPERSION OF CHINATOWN.

The Board of Local Improvements of the Tenth District met on Thursday, under the direction of President of the Borough Coogan, and passed the following: "Resolved, That the Board of Local Improvements of the Tenth District of the Borough of Manhattan, recommends to the Board of Public Improvements that Pell street be widened from the Bowery to Mott street, and extended through Mott street to Mulberry Bend Park, according to the lines laid down in the map attached hereto." The map mentioned is reproduced herewith, and below will be found a list of the owners of the property affected and the amounts at which the several parcels are assessed for tax purposes. The object of this improvement is to eradicate Chinatown, and to more effectually secure which an extension of Elizabeth street, from Bayard street to Chatham Square, cutting Doyers street in two on the way, is proposed. At the hearing that preceded the passing of the resolution the Rev. Dr. McLoughlin, rector of the Roman Catholic Church of the Transfiguration, and Commodore Gerry, of the Society for the Prevention of Cruelty to Children, favored the improvement in the interest of the morality of the community, and Job E. Hedges and Michael E. Mulqueen, representing property owners, opposed it.

The names of the owners of the several parcels it is proposed to take for the Pell street widening, with the assessed valuations of the latter, are: John S. Voss, No. 15 Pell street, $6,000; J. N. Biggie, No. 13 Pell street, $8,000; C. L. Spencer, No. 11 Pell street, $12,000; L. B. Reed, No. 9 Pell street, $11,000; William McKeon, No. 18 Bowery, $27,000; G. L. Specino, Nos. 34 and 36 Mott street, $35,000; A. Barbieri, No. 31 Pell street, $9,000; E. Lodiam, No. 25 Pell street, $8,000; Sam. Weeks, No. 23 Pell street, $6,500; E. H. King, No. 21 Pell street, $6,000; J. Lay-

Perhaps the most interesting transaction in the private sales' market this week was the purchase of 55 lots located in 156th street, St. Ann's, Eagle and Cauldwell avenues, by the builders, Louis and John Brandt, from George Clausen. Some of these lots have already been resold for improvement, and the announcement is made that the Brandts will undertake extensive building operations on their own account. Of course, the projections are three and four-story flats. The 55 lots in question originally formed part of the estate of John M. Beck, who in his time conducted a real estate business in the 23d Ward. The entire estate, consisting of 155 lots, was transferred by Mr. Beck and his wife to Chas. A. Stadler, in March, 1887, for an expressed consideration of $145,000, Mr. Stadler acting for a syndicate in which Mr. Clausen was interested. For this syndicate the property was put up at auction two months later by James L. Wells. The sale, however, was not successful, the land being regarded by builders as not yet ripe for improvement. Title passed for very few of the lots, although all were knocked down. The lots sold by Mr. Clausen this week were part of those which remained on the hands of the syndicate. The price paid by the Brandts is not known. But the price of inside lots in this part of St. Ann's avenue to-day ranges from $4,500 to $5,000; in Eagle and Cauldwell avenues from $2,250 to $2,500. The average price at the sale of 1887, including the lots bid in, was about $1,000. That the lots are now ripe for improvement can hardly be open to question. During the past few years, particularly since part of the Dater estate was put upon the market three years ago for disposal in lots at private sale, the neighborhood has become the scene of considerable building activity, an activity which has, of course, been stimulated by recent public street improvements. This week's purchase by the Brandt brothers emphasizes the fact pointed out on several occasions in these columns that the chief seat of activity in the speculative construction of cheap residential housing has been transferred from Manhattan to Bronx Borough—to a section extending about half a mile on either side of the Third Avenue Elevated Railway, from the Harlem River to Tremont. During the past three years, one firm of building loan operators alone has sold 300 lots in this district to builders. The population of the district is said to have increased fourfold since 1895.

The other notable features of the private sales' market were the sale of flats and dwellings to small investors, the purchase of expensive sites in good residential districts below 125th street for improvement with great apartments, and the acquisition of adjoining property by owners desirous of enlarging their business. Thus, James J. Belden, owner of the Manhattan Hotel, bought the southwest corner of Madison avenue and 43d street, in order to build a 14-story addition which will make the front elevation of his hostelry cover the entire block front. The New York Telephone & Telegraph Co. bought No. 14 Cortlandt street, on which to erect a 12-story addition to its present building. The Seaboard Realty Co., the purchaser of Nos. 49 to 55 West 44th street, will put up a 12-story bachelor apartment house. It was only last week that two lots almost directly opposite were sold as a site for a similar apartment.

Among the notable transactions which have served to impart distinctive character to a long list of commonplace, but prosperous, business may be mentioned those affecting the plot at Nos. 49 and 47 East 27th street, part of the Stephenson car works; a 5th avenue lot near 82d street; and several 6 and 7-story apartment houses in different parts of the city.

The number of transactions reported below is 65, with considerations given in 20 amounting to $1,890,500. Corresponding figures for last week were 65, 11 and $150,200, respectively.

The general result of the public sales this week discloses an interesting condition as regards the demand for realty. The auctions for the estates of David Stevenson and John H. Wilson, conducted by Richard V. Harnett and Bryan L. Kennelly, respectively, elicited a competition, and prices which made a distinctly favorable impression on observers of the market; and the same remark applies to several minor executors', trustees', and voluntary sales. On the other hand, the sale for the estate of Henry A. Cram, by Peter F. Meyer, was a flat failure, terminating in the withdrawal of the entire property. Besides, eleven smaller parcels offered by executors and owners were bid in or withdrawn. In every instance, however, the property which failed of a purchaser presented no genuine inducements, either to the speculator or the investor. The investor, being to-day in a position to pick and choose, has no stomach for flats and dwellings in retrogressive or overbuilt localities, and the speculator, who looks to quick profits, will not go outside active neighborhoods. These facts, of course, are recognized by real estate men. Nevertheless, property is constantly being offered on which neither the auctioneer nor the owner has the slightest expectation of receiving a public bid acceptable to the latter. The formal auction is held as a means of notifying operators who frequent the salesroom that the owner is ready for a trade. This, however, was evidently not the object of the Cram sale. The parcels here offered consisted, with one exception of 18 lots in 5th and Madison avenues, 150th, 156th, 157th and 158th streets. It is true, as the auctioneer said, that travel in the upper end of Madison avenue is rapidly increasing. Indeed, the time may not be far distant when the avenue lots in question can be profitably improved with stores and tenements. But industrial conditions in the adjacent Harlem water-front, though undergoing substantial improvement, do not justify expectations of an immediate augmentation of the local working population, without which a material increase of neither stores nor tenements is required. In other words, the lots, whatever their prospects, are not ripe for immediate improvement, and the bidding, by representatives of the estate, on the two lots put up clearly demonstrated that the property would not be allowed to go at prices which would justify purchasing for a distant rise. The result of the Cram sale, viewed in connection with the favorable outcome of the Stevenson and Wilson sales, emphasizes the fact that no property stands much show in the Auction Room at the present time unless it possesses undoubted investment qualities or is ripe for speculative improvement. For both these classes the demand is all that can be desired, and at a higher range of prices than has obtained in the Auction Room for years. During the period of depression prices naturally settled down to rock bottom. In the meantime, great public improvements, growth of population and the fall in the interest rate on money, the influence of which was little felt during the dull time, combined to send up prices on the return of general business prosperity. As yet, however, this upward tendency is only just beginning to make itself felt, and, as in the case of stocks and bonds, is felt first in gilt-edge property. It is only when values in this class have reached a point permitting no more than the least return compatible with permanent investment, that speculation will descend to inferior real estate. At the present time real estate activity is confined practically to high class property. The offerings of the Stevenson estate comprised holdings, mostly unimproved, in 10th and 11th avenues, between 19th and 46th streets, besides the residence at No. 7 East 26th street, and some out-of-town property, including a country seat at Narragansett Pier, R. I., which was bought by Cornelius O'Reilly. The city house is a 4-story brownstone structure, 30 feet front on a lot 98.9 feet. Directly in the rear, at No. 2 East 27th street, is the private stable, 30.6x98.9 feet, attached to the residence. Mr. Stevenson bought this property at an auction sale

conducted by Mr. Harnett on Feb. 24, 1887, for $165,000. This week when Mr. Harnett offered the residence and stable together the initial bid was $100,000. This was gradually increased to $170,000, when A. P. W. Kinnan, a broker, acting for a client, was declared the buyer.

The sum realized at the Stevenson sale was $600,200. The appraisements made by Mr. Harnett before the sale aggregated $605,000. This must be regarded as a satisfactory agreement between preliminary appraisement and selling price; it is especially so in view of the fact that the deficit resulted entirely from the Narragansett Pier property, which sold for $43,000, although it represented an investment by the late Mr. Stevenson of about $83,000. The Wilson estate, consisting chiefly of tenements in and near 8th and 9th avenues, between 26th and 40th streets, brought $70,550, and, with one exception, was evidently bought by small local investors.

Attention is called to the extensive and varied list of properties which Richard V. Harnett & Co. will sell at auction, on Tuesday, Wednesday and Thursday, of the coming week, to be found in our business pages. The parcels to be sold include tenements, apartment houses, dwellings, business and unimproved properties, and should make agreeable and profitable study to parties looking for suitable realty investments. Details are given in each instance, and what further information is wanted will be supplied by the auctioneers on application to their office at Nos. 71-73 Liberty street.

William Kennelly will sell, in partition, on Tuesday next, the well-known premises No. 5 Thames street, on the northwest corner of Thames and Temple streets, Manhattan, and a plot 142.4x100, on Howard place, and another, 71.4x100, on Fuller's place, Brooklyn. Other details will be found in our advertising pages, and the auctioneer will supply maps, etc., at his office, No. 111 Broadway.

William M. Ryan announces in our business pages for Wednesday next, 22d inst., the sale, in partition, of the valuable investment property, Nos. 557-559 Broadway, running through to Nos. 128-130 Mercer street. Dimensions of the plot and the character of the improvements thereon are given, and maps and further particulars will be supplied on applicaation to the auctioneer at No. 111 Broadway.

Peter F. Meyer will sell at auction on Thursday next, 23d inst., No. 71 Mercer street, No. 11 Thompson street, and Nos. 225-227 East 43d street, by order of the trustees of the Lorillard-Spencer estate. The formal announcement of this sale will be found in our business pages, and the auctioneer will furnish maps, etc., at No. 111 Broadway.

Offices, large and small, "en suite" or single, also the entire 7th floor of eight connecting rooms, in the well-located Williamsburg City Fire Insurance Co.'s Building, No. 150 Broadway, corner of Liberty street, are offered at moderate rents, by Mr. O. G. Bennett, the agent, whose offices are in the building. All modern improvements are provided, including rapid elevators, mail chute, electric lighting, heating, janitor's services, etc.; no extras.

THE FOUGERA SALE.

An important auction sale is scheduled for Wednesday of next week at the Real Estate Exchange, No. 189 Montague street, Brooklyn, to partition the Fougera estate. The chief property that will be offered is "The Fougera" apartment house, situated on the west side of Clinton street, and extending from Atlantic avenue to State street. This property contains 40 suites of 8 rooms each, and 8 large stores. It is finished in hardwoods, and can be converted into a hotel if the buyer so desires. It was recently sold under a judgment against Charles R. Fougera, who was a part owner only, for a nominal consideration. Its market value was consequently left undetermined. The sale next week, however, should afford some evidence of how it is rated. On the tax books it figures at $125,000. The partition sale will also include 147 lots in Flatbush, and a plot and dwellings on Gravesend Bay. Formal announcement of the sale will be found in our advertising pages.

LEASES.

C. E. Duross has leased for A. C. Bechstein to Seamans' Christian Association, Stafford Wright Superintendent, the 3-story brick building, No. 399 West street, near West 10th street, for ten years, at $1,200 a year and repairs. The lessee will spend about $4,000 on improvements; also for R. Parker to the New York Ladder Co., No. 314 West 16th street, for a term of years.

Bleiman & Co. have leased for Samuel E. Jacobs to August H. Sievers, for 20 years, the building at the southwest corner of 125th street and Park avenue.

H. E. Carle has leased to the Corondelet Democratic Club for five years the building No. 1822 Madison avenue.

Pease & Elliman have leased for E. H. Herzog No. 30 West 45th street; for Emma L. Jacobs to A. Houstetter, the basement store of No. 6 East 42d street for five years; for Mrs. Eddy, to W. W. Caswell, the Fairledge Cottage, at Mamaroneck, N Y., and for Stevens & Fowle, to J. Richard Steers, the Homestead Brevoort Farm, at Rye, N. Y.

OUT OF TOWN.

Tuoti & Co. have sold for Virgilio R. Gazzo eighteen lots at White Plains, N. Y., for $5,000, and three cottages at Rosebank, S. I., for $15,000.

Brooklyn.

The dealings of the week warrant the assurance that the spring activity in realty is at hand. Sales are reported in more than the usual numbers, and houses are being rented on terms which a year ago would have been considered impossible. Brokers are beginning to feel that the present upward tendency in the realty market is but an indication of a long run of activity. A healthy feature of the market during the past week has been the tendency of outside bidders at legal sales to out-bid the plaintiff. Up to within a short period the plaintiff has been forced to buy in to protect himself, but lately much of the property offered has gone to outsiders. Real estate operators consider this a most encouraging sign.

Through Ernestus Gulick & Co. are reported two important transactions in lower Fulton street business property. Although no contract has been signed, it is known that A. J. Nutting, the well-known clothier, has purchased the building adjoining his store, on Fulton street, corner of Smith street. This building is on the south side of Fulton street, 50 feet east of Smith street, and has a frontage of 26 feet on Fulton street and a depth of 150 feet. It is a four-story brick and iron structure, and was owned by William Mumford. The price paid was said to be $120,000. This purchase gives the buyer a frontage of 76 feet on Fulton street. It is not his intention, however, to erect a new store on this site, as published in some of the papers. According to his statement, he purchased the property because he thought it was offered at a low figure, and will use it for renting purposes solely.

The following are the comparative tables for the Brooklyn Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1899 and 1898 given:

The other Fulton street property is located on the same side of the street, one block further uptown, and was sold to Mr. Abraham, of Abraham & Straus, for a stated consideration of $130,000. This property is a three-story structure, with a frontage of 25.8½ feet on Fulton street, and a depth of 100 feet. The rumor that the buyer would use this building as an addition to the present establishment of his firm seems hardly warranted from the fact that the present occupant has a lease with several years yet to run, and from the further fact that the two buildings are separated by the Arcade Building, and by another store property. It is probable that the purchase was made as an investment simply, as it was learned from reliable authority that the rent netted four per cent. on the purchase price. The sale of these two Fulton street properties in the same week for amounts favoring the

location of the last-named piece by $10,000 is significant. Though it has a depth of 50 feet more, and a frontage of 3½ inches more, and the building itself is fully as good as the Abraham purchase, the Nutting property sells for $10,000 less, solely because of its location one block further down the street.

The plans for the new Rothschild Building, on the northwest corner of Fulton and Jay streets, which were submitted to the Building Department early this week, have been rejected by the latter, for the reason that they do not meet the strength requirements of the Department, and will doubtless be amended in accordance therewith.

The Brooklyn Home for the Blind has purchased from the estate of William Adams, Nos. 516 and 520 Gates avenue, just west of Tompkins avenue, for $15,000. This property consists of two 3-story frame houses, having together a frontage of 120, and a depth of 100 feet. The houses themselves have a total frontage of 50 feet. It is stated that on this site a new building will be erected for the use of the Home. John F. James & Son were the brokers who effected this sale.

The Park Commissioner makes the announcement that he will shortly advertise for bids and make contracts for the completion of the Shore road, from 99th street to Fort Hamilton avenue. The improvement will also include Fort Hamilton avenue, from 75th street to the Shore road. If these plans are carried out the public will enjoy a fine roadway from Fort Hamilton avenue, through some cross street to the Shore road. It is also intended to have a bicycle path and a walk along the shore beside the driveway.

The proprietor of the St. George Hotel has purchased the three-story and basement brownstone front house, No. 113 Hicks street, 19.6x50x100, for $11,000. This property adjoins the billiard room of the hotel, and will be used to afford additional facilities either for billiards or other purposes. The St. George Hotel has very lately completed an extensive addition, and the purchase of this new property seems to indicate that the Heights section has a growing demand for a large family hotel.

The Town Board of Hempstead, Long Island, has voted to submit to the people at the next town meeting the proposition to quit claim to the Long Beach Land Company the town's interest in the portion of Long Beach property situated in the Town of Hempstead, County of Nassau. For this property the town is to receive $25,000, reserving to itself all the bay rights and rights to land under water, and the right of way from the southerly end of Long Beach road over said premises to the ocean, and also a right of way east and west from said road fifty feet wide, through said property to the town lands lying east and west thereof. The next town meeting will be held on April 4, 1899.

South Brooklyn transit received a boom during the week by the announcement that a big freight depot will soon be erected in connection with the 39th Street Ferry. As soon as this freight depot is built, it is the intention of the South Brooklyn and Terminal Railroad Company to make New York and Jersey connections.

Clinton street, No. 222, southwest corner of Pacific street, three-story basement brick, 20x40x80; seller, the Rector, Church Wardens and Vestrymen of Holy Trinity; buyer, John F. Nelson; consideration, not stated; brokers, John F. James & Son.

Seventh avenue, No. 228, west side, 40 feet north of 4th street, four-story brick apartment house, 30x100; sellers, Boehm & Coon; buyer, E. M. Tailer; consideration, $12,000; brokers, Burrill Bros.

Willow street, No. 110, three and a-half-story brick house, 18x80x100; seller, Wm. B. Carpenter; buyer, an investor; consideration stated at $16,000; brokers, John F. James & Son.

Henry street, No. 252, three and a-half-story brick dwelling, 25x55x100; seller, Jane L. B. Gould; buyer, Susan W. Hopkins; consideration, $17,000; brokers, John F. James & Son.

Livingston street, No. 63, four-story brick house, 23.6x45x100; seller, Ellen B. Mygatt; buyer, Thomas T. Rockford; brokers, John F. James & Son.

Carroll street, No. 153, north side, between Henry and Clinton streets, three-story and basement dwelling, 16.8x50x100; seller, John F. Nelson; buyer, S. J. Harding; broker, A. J. Dooher.

Sackett street, No. 171, north side, 20.6 east of Hicks street, four-story store and apartment house, 20x50x75; seller, Mrs. M. Claffy; buyer, Mrs. H. Horwitz; consideration, $5,900; broker, A. J. Dooher.

Jamaica, L. I.—Oak street, east side, 195 feet south of Chichester avenue, two and one-half-story frame house; buyer, F. A. Anson; consideration, $2,700; broker, H. P. Linton.

Beech street, west side, between Atlantic avenue and Fulton avenue, three lots, to Myles Johnson, for $1,200; broker, H. P. Linton.

6th avenue, No. 197, 3-story brownstone house; seller, Walter R. Lusher, who takes in exchange, at $10,000, the 4-story flat, No. 622 President street; buyer, George A. Martin; brokers, Burrill Brothers; price, $9,750.

REAL ESTATE NOTES.

The hour of the Tuesday call of the Real Estate Board of Brokers has been changed from 2 p. m. to 3.30 p. m.

Louis V. Southack and W. C. Moore, of the firm of L. V. Southack & Co., have gone for an outing to Old Point Comfort, to be absent about a week.

The Board of Education has decided to erect a public school on 129th street, between 5th and Lenox avenues, and to abandon a site selected in January, 1897, at Madison avenue and 128th street.

It is reported that the Stewart mansion on 5th avenue and 34th street will be sold, when the Manhattan Club vacate the premises on May 1. The value put upon the property by the Stewart estate, according to report, is $2,000,000.

The Taxpayers' Alliance, of the Borough of the Bronx met on Wednesday evening, and passed the following with great enthusiasm: "Resolved, that the Taxpayers' Alliance does hereby approve the bill introduced in the Legislature by Assemblyman Mazet, authorizing the Board of Rapid Transit Commissioners to appeal to private capital to construct the proposed underground system in the City of New York, and that it urges upon the Senators and Assemblymen from this district to use their best efforts in favor of the passage of the said bill."

The North Side Board of Trade held its fifth annual dinner this week in the Metropolis Hall, 142d street and 3d avenue. Much attention had been paid to the decorations, as the event marked the formal opening of the hall, which is one of the largest and finest in the Borough of the Bronx. Covers were laid for 100. James L. Wells, who was re-elected to the office of President last week, presided. Among the guests were John F. Doyle, President of the Real Estate Board of Brokers.

It is stated that the second Eno estate sale will take place about the middle of next month, and, while the Fifth Avenue Hotel is not to be sold, will include much of the choicest realty acquired by the late Amos R. Eno. Some of these properties are: No. 111 Liberty street, lots on Broadway corner of 57th street, between 56th and 57th streets, between 109th and 110th streets, corner 110th street and corner of 63d street, besides other corners and valuable property on the same thoroughfare; the parcel at 23d street with frontages of 133 feet on 5th avenue and 144 feet on Broadway. The last named is one of the most valuable parcels of land on Manhattan Island. The buildings on it were erected on top of ground without cellars or basements, and were built by tenants many years ago, on leases of five and ten years. This property was owned by the Eno family for more than 40 years, and during the last 15 or 20 years they have leased the stores and offices from year to year. For many years the rents have been between $40,000 and $50,000, though at no time have all the stores and offices been fully occupied. The property sold by the estate on Feb. 21 was not the choicest of their holdings, but brought prices which seemed satisfactory. Several of the parcels sold at that sale have been resold at considerable advances.

The Building Trades

MATERIAL MARKET.

BRICK.—The arrivals of brick during the past week from Haverstraw and Newburg Bay have been very heavy. The sales, however, have not equalled the arrivals for several reasons. All the barges that were at this end of the line were utilized by manufacturers for the purpose of loading for first tows. On account of the bad weather, buyers have shown a disposition to withhold from purchasing, in the hope that the accumulation of brick would reduce prices. Holders, however, are firm, asking $6.25@6.50 for Hudson River brick.

LIME.—Stocks of Rockland lime have been depleted, and none is coming in. There is considerable inquiry, but no prices are made for supplies to arrive. The last Rockland sold here went at 80c. for the common, and 90c. for the finishing. State and Jointa lime are enjoying a seasonable demand, and are being shipped as wanted. Prices are, respectively, 75c. and 90c.

CEMENT.—The cement market in general is in a very healthy condition. The demand for Rosendale is very good, and more than sufficient to absorb the offerings. Prices remain steady, at 80@90c., with the probabilities toward higher figures. American Portland is in strong demand. The general run of prices for standard cements is $2.00@2.10. It is too early as yet for any considerable importations of the foreign makes of Portland.

LATH.—The demand for Eastern spruce lath is very good. One cargo has been in during the week and sold at $2.15. A very small quantity of lath is on the way at present, and none of it is near New York. No prices are being made to arrive, but the tendency of the market is firm.

LEAD.—The demand for lead, both white and red, is strong. Prices, as quoted by the National Lead Co.: Lead, American white in oil, in kegs, lots of 500 lbs. or over at 5¾c.; lots of less than 500 lbs., at 6¼c.; lead, white, in oil, 25-lb. pails, add to keg price ½c.; lead, white, in oil, 12½-lb. pails, add to keg price 1c.; lead, white, in oil, 1 to 5-lb. assorted tins, add to keg price 1½c. Lead, white, dry, in bbls., at 5¼c. Lead, red, bbls. and half-bbls., 5¾c.; lead, red, kegs, 5½@6c. Lead, American terms: On lots of 500 lbs. and over, 60 days, or 2% for cash, if paid within 15 days from date of invoice.

OIL.—The price of oil has advanced considerably during the week, and is quoted at 45c. for 5-bbl. lots or more, and 46c. for less than 5-bbl. lots, with an addition of 2c. per gallon for boiled and refined. Demand for oil is good, but not exceptional. The high price of seed is chiefly responsible for the advance in prices. Calcutta is quoted at 56c.

GLASS.—The glass market remains practically unchanged from our last report. Demand is seasonably good, and prices are steady, at 80 per cent. discount for plate glass. Discounts on window glass are 80 and 10 per cent. for the French, and 80 and 20 per cent. for the American.

NAILS.—In the market for wire nails an advance has been made of 15c. per keg. This makes current price to date as follows: $2.05 for carload lots f. o. b. mill, Pittsburg; $2.20 for carload lots on dock, New York; and $2.40 for small lots out of New York stores. Demand is good, and slowly improving. Prices for cut nails are firm, and show a tendency to advance. There will probably be a change when the manufacturers meet. Quotations are $1.50 f. o. b. mill, Pittsburg; $1.65 on dock, New York; and $1.75 for small lots out of store.

NAVAL STORES.—The market in spirits of turpentine closed steady at 46½c. for Southerns and 47c. for machine. This was a slight decline from the highest point reached during the week, but seemed likely to hold. Business was fairly good. Tar has been fairly active. Oil barrels have increased to $3.20@3.25. Regulars are $1.65@1.70. Pitch showed little activity, but was steady at $1.70@1.75.

LUMBER.—The local lumber market continues to advance generally. Prices in many woods are several dollars higher than they were at this time last year, and the tendency is towards an advance. Mills in the South are busy, and in many cases are refusing more orders. This reaction from the depression attendant upon the war seems to be general throughout the country. From the West come reports of a February and March trade unequalled for many years.

TRADE NOTES.

TEST OF FIREPROOF WINDOW FRAME AND SASH.

A most satisfactory test of the fireproof qualities of the Rasner fireproof window frames and sashes, manufactured by James White, of Nos. 446-456 Adelphi street, Brooklyn, was recently made in the presence of Fire Chiefs Bonner and Dale and Supt. Anderson and Chief Inspector Kingsland, of the Board of Fire Underwriters. The sashes were let into the walls of a brick building especially constructed in the form of a furnace, which, when ignited, presented as nearly as possible the conditions of a fire in an air-shaft, with a temperature rising, probably, to 2,500°. After being exposed to the flames for two periods of from 20 to 30 minutes' duration each, and being sprayed with water in the interval between the two, the frames remained intact, though the wire glass with which they were filled was mutilated.

A NEW CHURCH DECORATING COMPANY.

Architects and others will be interested in the announcement just made of the formation of a new company for the decoration and furnishing of ecclesiastical edifices. The new concern is known as The Church Glass and Decorating Company, of Nos. 3, 5 and 7 West 29th street. The company has at its command artists of acknowledged ability, both European and American; and each of its departments is under the management of a director of experience, with a large knowledge of his particular branch. The divisions of glass and mural decorations; altars, fonts, and church-furnishings; consultations and sales, are in the hands of such well-known experts as Mr. Caryl Coleman, Mr. Edward P. Sperry, and Mr. Russell Sturgis Foot, all of whom were for many years with the Tiffany Glass and Decorating Company, holding most responsible positions in that organization. The aim of the company is not to produce designs of an eccentric and bizarre nature and call them original, but to keep their originality within accepted canons, to imbue them with Christian sentiment and devotional spirit, and, in addition, not to duplicate them. The glass used by this company is unsurpassed for beauty of color and variety of texture. The work of the company embraces all forms of church windows and mosaics; in and out-of-door memorials; altars and baptismal fonts; sanctuary lamps and rails; crosses, crucifixes, and candlesticks; tablets and cenotaphs, mural decorations, frescoes, and hangings.

TEARING DOWN.

Byron W. Greene, Jr., 18th and 19th streets and Avenue B, has commenced tearing down the old buildings at Nos. 5 to 7 Maiden Lane, to make way for the new office building on this site, for which List & Lennon are the contractors. Mr. Greene's facilities enable him to dispose of such work as this with ease and dispatch.

CONTRACTS FOR FINE WORK.

John Wegmann, the well-known painter, decorator and hardwood finisher, is completing contracts on eight new houses erected by the Riverside Building Co. on Riverside Drive and 80th street, from plans by Architect Clarence True; two elegant residences, Nos. 41 and 43 West 72d street, built by Architect A. B. Kight, and the handsome 6-story apartment house on 85th street, near Riverside Drive, for the Colonial Building Co. In the way of new work Mr. Wegmann is about starting on Stewart & Smith's new group of seven dwellings, corner of 106th street and Riverside Drive, and Michael Tully's new 6-story apartment house on West 80th street. Mr. Wegmann's facilities are excellent for executing contracts for painting, although making a specialty of decorating and hardwood finishing. His shop is at No. 451 Boulevard, and office No. 459 Boulevard, near 82d street.

SIGNS.

Signs form an important part of the equipment of a real estate business, and enormous sums of money are expended for them. Very little thought, however, is given to secure better effects. No attention is given to greater economy. Year after year real estate signs remain the same. There is some evidence, however, to-day of a change. Live brokers are improving their signs. All those who are interested in the problem should consult C. P. Carroll, the well-known sign painter of No. 189 East 71st street, who is making a specialty of real estate signs in quantity to suit. Mr. Carroll has a method greatly superior to the ordinary methods now prevailing. His card will be found in another column of this paper.

WHERE TO SAVE MONEY.

The season is arriving for awnings and window shades. For the builder and real estate man it is perhaps always present. Immense sums of money are spent on these necessary furnishings. Economy and durability demand that your orders should be carefully given to the right man. A little care may save a great deal. Some firms can serve you better than others. F. C. Chaffee, of 29 Flatbush avenue, Brooklyn, has special facilities. He is capable of handling large orders at short notice, and can give you the best and the newest in the market. He guarantees satisfaction.

A LEADING BROOKLYN REAL ESTATE FIRM.

Brooklyn real estate conditions are improving. Consolidation has benefited the City of Churches. As everybody knows there are certain classes of property to be obtained in Brooklyn not to be found elsewhere in the metropolis. It is due to the appreciation of this fact that the investor and the builder are paying attention again to Brooklyn realty. In another part of this paper appears an advertisement which will recall to our readers one of the soundest and best equipped real estate offices in Brooklyn, that of Samuel Moody, 20 Court street, which is obtaining its full share of current business.

A BIG ELEVATOR CONTRACT.

The City of Baltimore, Md., has just awarded the contract for equipping the new Court House in that city with elevators, to the Sprague Elevator Co. The multiple sheave and ball-nut machines will be used.

Questions and Answers.

RESTRICTIONS.

To the Editor of THE RECORD AND GUIDE:

What course is necessary to pursue to have restrictions removed from lots? I own some lots on Ocean Parkway, corner lots, and I find on looking over my papers that the lot, which is 100 by 250 feet, calls for but one house and barn. Cannot this restriction be removed so that I can build more than one house on the property?

Answer.—Yes. If the original grantor, who inserted the restriction in your deed, or his heirs, own lots in the neighborhood, you must get his or their deed removing the restriction. Presumably this grantor owned other lots in the neighborhood which he conveyed by deeds containing a similar restriction. If so, you must get similar deeds from the present owners of such lots. —Law Editor.

PERSONAL TAX.

To the Editor of THE RECORD AND GUIDE:

(1) Is it necessary to apply to the Tax Office unless notice is received for a personal tax bill? (2) Also are mortgages and savings banks deposits exempt from payment of personal tax?

Answer.—(1) Notices are sent out merely as a matter of courtesy. If you suspect that there may be a personal tax assessed against you, it would be judicious for you to make inquiry. (2) They are not as matter of law; but as matter of fact the tax is seldom or never assessed.—Law Editor.

BUILDING AND LOAN ASSOCIATION.

To the Editor of THE RECORD AND GUIDE:

A buys fourteen shares, par value two hundred dollars, payable one dollar a share per month, in a New Jersey Building and Loan Association, and borrows $2,800 on first mortgage at six per cent. per annum from said association, interest payable monthly, making his payments $28 per month, $14 for interest and $14 for the shares, which is credited each month in the passbook. Suppose, after paying same for three or four years, the building and loan association should fail, would they according to law still hold a mortgage on A's property for $2,800, and owe to A the amount he paid in or would the mortgage be reduced by law?

Answer.—A will lose nothing by a failure of the association. He will be protected in his rights by the courts. A receiver would probably be appointed, but just the manner in which his rights would be protected it is impossible for me to say now.—Law Editor.

LIABILITY OF PRINCIPAL.

To the Editor of THE RECORD AND GUIDE:

If a church appoints a man to collect pew rents, is not the church responsible for all deeds of the man appointed while acting in his official capacity, etc.?

Answer.—The church cannot be held liable for damages for a slander uttered by the collector of its pew rents.—Law Editor.

COMMISSIONS ON LEASING.

To the Editor of THE RECORD AND GUIDE:

Kindly answer the following: A is agent for a building, collects rents, makes leases, etc. He renews leases on several tenants from February last for one year and three years. Building is now sold by owner. (1) Is A entitled to his commission for unexpired time between now and February 1, 1900, and would it be legal for him to deduct when a settlement is made after passing title? (2) Where an agent has charge of a person's property and makes a ten-year lease with present tenant in building, is the agent entitled to one per cent. on the gross amount of the rental for the 10 years (the same as an outside broker), and would it be legal for him to deduct the amount when rendering his accounts?

Answer.—(1) Yes. The commissions for leasing were earned when the renewals were made, which I presume was before the sale. (2) He is entitled to the same commission as an "outside broker."—Law Editor.

MECHANIC'S LIEN.

To the Editor of THE RECORD AND GUIDE:

A gives B a contract to erect two houses for a certain sum of money. A pays B the full amount of money, after which he finds that B has not paid for all the material, etc., used in the erection of said houses. Now can the people who furnished the material put a lien on the said buildings for the amount of material furnished, and should said people be unable to collect the money due from the builder (B) will the owner (A) of said buildings be compelled to pay the liens, in order to have the title of the property clear? Also what redress can the owner get from the builder?

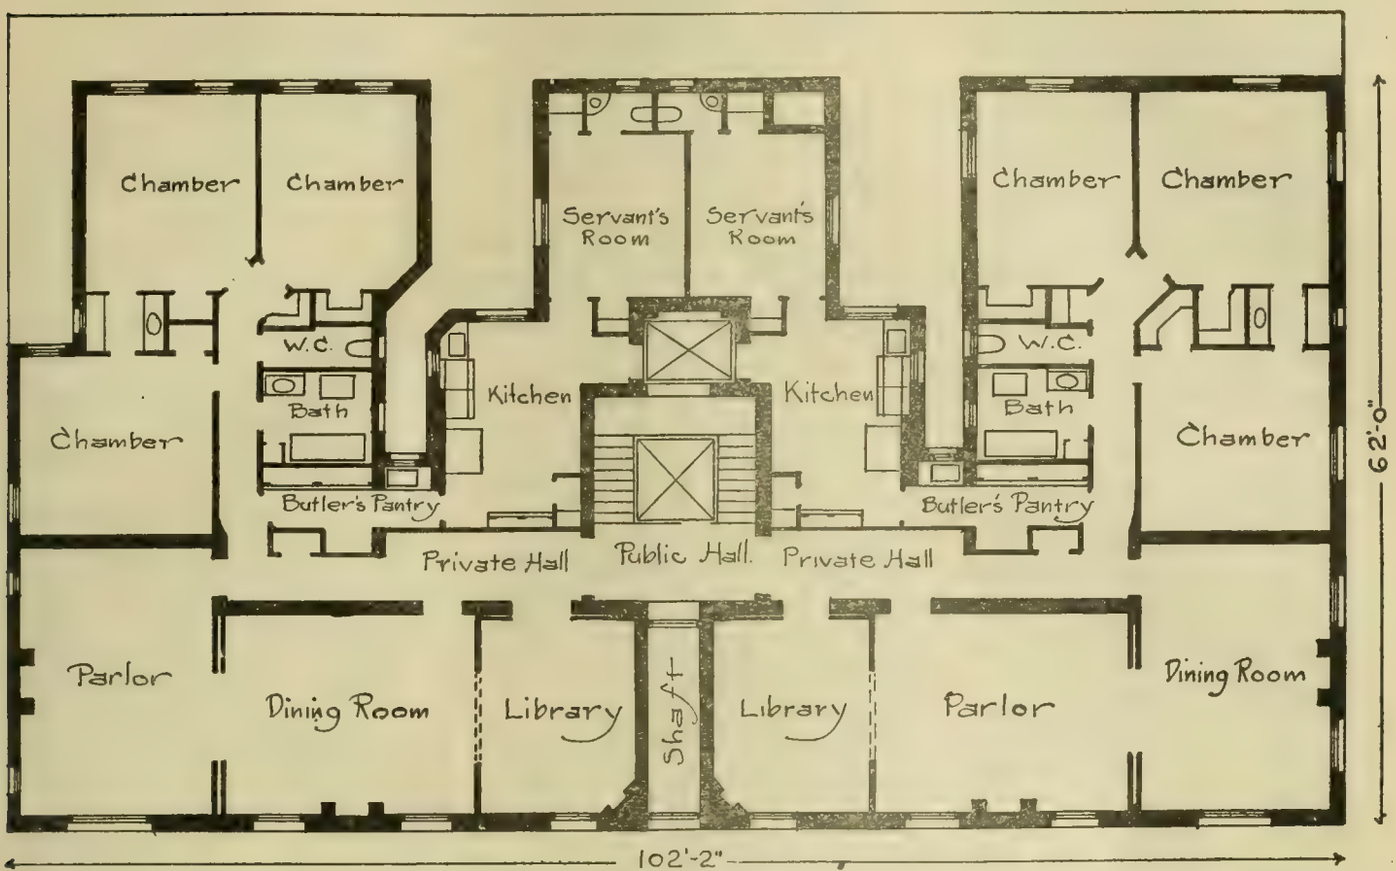
Answer.—The materal men can file liens against the buildings, but cannot enforce them if A paid B in good faith before the liens were filed. If liens are filed A has no redress against B for that. The title can be cleared by depositing money in the County Clerk's office, or by "bonding the lien," and in other ways.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Can I put a lien on building, the case being that I have contracted to make and deliver a certain amount of ornamental relief decorations? Contract is with owner, who is also builder; material delivered to Cohoes, N. Y.

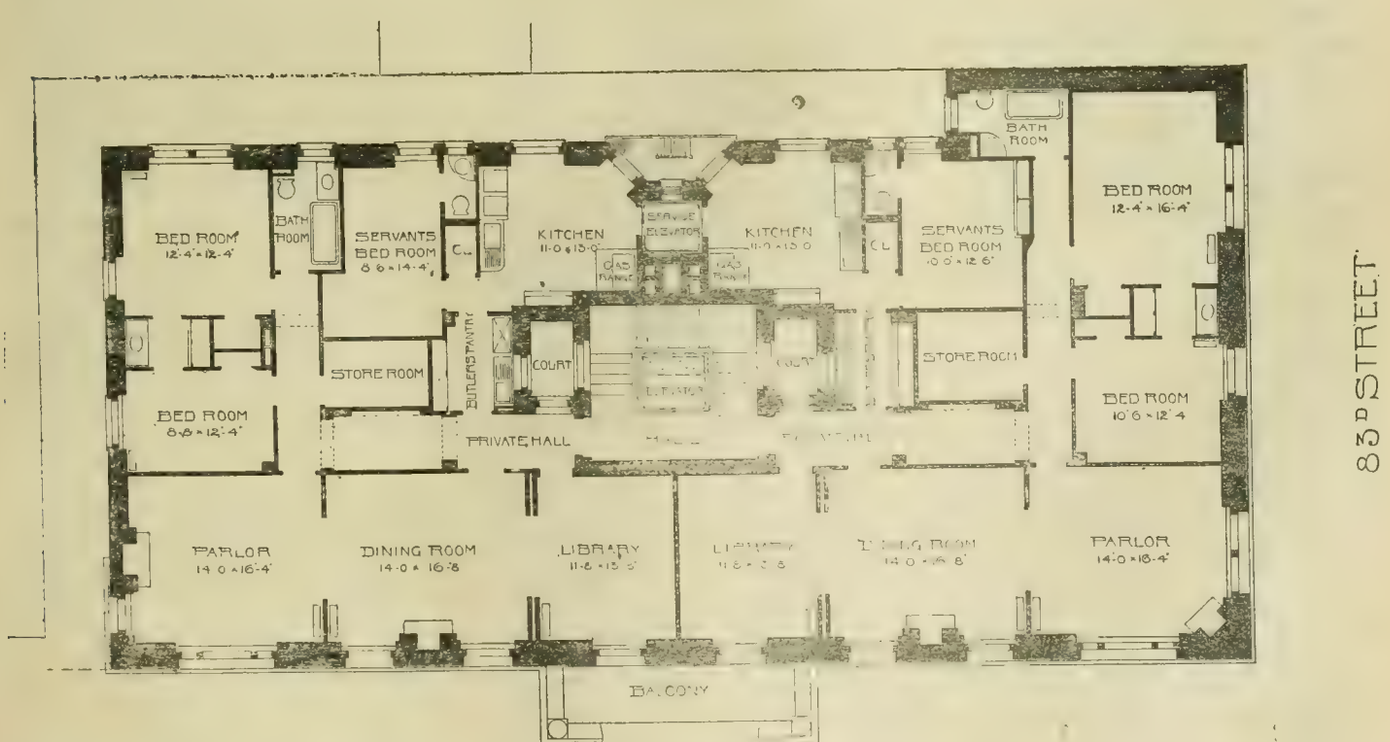
Answer.—Yes.—Law Editor.

LANDLORD AND TENANT.



To the Editor of THE RECORD AND GUIDE:

I own a house in New Jersey, occupied by a tenant. Said tenant, two years ago, got a permit to use a hose, saying he would pay the yearly charge. He paid the first year's, but has declined to do so this year. The water collector has written me saying I will be held responsible unless tenant pays up. Is that so?



Answer.—Your property is held for the water, and you have a good cause of action against your tenant for the amount of the water tax which you pay.—Law Editor.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title, and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.
Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

PROJECTED BUILDINGS.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; a'r't stands for architect; m'n for mason; c r for carpenter, and b r for builder.
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

Editor Record and Guide:

The lien filed against my property on March 10th by Candee & Smith was put on unfairly. I offered and was ready to execute a mortgage on this and on other property payable on demand and to be paid out of next installment of loan on an order on mortgage, but they refused to accept anything but an absolute acceptance of the lender, which I could not get. I am bonding the lien. Niels Toelberg.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's Office to be recorded. Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

[1]Editor Record and Guide:

Andrew Keupp, who had a contract with us for labor only on Park ave. and Lafayette ave. properties, and who filed the above liens, was put off both jobs by us on February 20th. We have paid him every dollar that is coming to him on his contracts. Our attorney is now drawing up papers to discharge the liens.

"Entered at the Post-Office at New York, N. Y., as second-class matter."

Vol. LXIII. MARCH 25, 1899. No. 1,613.

THERE is an enthusiastic party in Wall Street who apparently believe a new upward movement can be engineered in stock market values. It is not quite clear what they base their belief upon, but an expectation of lower rates for money is part of it, and confidence in the commercial prosperity of the country, probably, the rest. This movement will be very interesting as affording for future use, a gauge as to how far beyond values speculative operations can carry prices, by fixing a sort of speculative high-water mark, so to say. While for a couple of days the market generally was a little stronger than it had previously been, the greatest activity was in what might very properly be called the Mysteries, to distinguish them from other well-known classes of stocks like the Grangers, Coalers, etc. These are the issues about whose affairs the public is allowed to know nothing and which are moved by intimations of good or bad conditions oracularly delivered from the brokers' offices in which they are being manipulated. And on these intimations a confiding public, utterly forgetful of the past history of the Street, so rich in warnings, will buy. The buyers, however, are not the lambs of conventional thought, but rather foxes who know the trap is set for them but cannot resist the bait and are sometimes caught. A satisfactory feature of the market is the way interest-paying stocks and bonds hold their quotations. Railroad securities are benefited by the bill now before the Legislature at Albany for enlarging the choice of the savings banks in railroad bond investments. This bill, while introduced and promoted by railroad interests, has, apparently, the approval that silence gives of the savings banks. According to published interviews, as first drafted, it did not please the latter, but was altered so as to secure immunity from the opposition if it could not obtain the active support of the institutions affected. Railroad men particularly have long held that the restrictions in this State on investments by savings banks in railroad securities were too severe. The policy of the State in this regard is less liberal than that of several others; but the savings bank presidents do not seem to have complained and are now undesirous of change, and as this policy has helped to make the New York savings banks the soundest and safest in the country, the Legislature will, naturally, consider the matter very carefullly before risking any change. For the bill, it may be said, that the condition of the railroad business, and consequently of the mortgage securities predicated thereon, has undergone a great change for the better since the provisions relating to savings bank investments in the latter was framed, and it may be now possible to show that both railroads and banks would benefit by a moderate relaxation of their stringency.

IN supporting the Italian and Belgian demands for naval stations on the coast of China, Great Britain reveals her policy toward China, of which the famous "open door" has been only the screen. By encouraging all the European powers to take up positions that will eventually complete a sea-wall—an altogether new Chinese wall—along the Chinese coast, it is apparent that Great Britain expects eventually to see China governed through a dummy native sovereign, by a board of foreign diplomats in which her own will be chief and in which the Russian will be forced to take part on pain of exclusion. It is a policy of European co-operation versus Russian exclusiveness, but with Great Britain dominating the co-operators. The wish of the United States as to the future of China has yet to be officially expressed, but the adroitness which has recently encouraged this country into the policy of expansion will probably be successfully exercised to secure our assistance in a union against Russian absorption. Basing our foreign policy as we do on merely mercenary motives, we shall probably be willing, like other peoples, to take what is assigned to us, on failure of an opporunity to act independently and take for ourselves what we need. Our share of the white man's burden, unless we can return to the high ethical principles of our fathers, will be all the black, brown or yellow man's money we can get into our pockets. These things, however, concern the commerce of a distant day. At present the facts most operative are the high rates for money and the prospect of higher ones in the near future. In this connection, attention may be called to the fact that although Parliament has been sitting for nearly two months, we have heard nothing of the report of the Indian Currency Commission, but in view of the circumstances and the condition of the money market, this is not to be wondered at. France and Portugal are opening negotiations for a commercial treaty. As once between the former country and Italy there are now no commercial relations between the two countries based on the most favorable customs' tariffs, and the trade between them has coincidentally, if not consequently, declined. British and American trade rights in Madagascar having been obstructed in favor of French merchants, complaints are being made from the Island of inadequate supplies of cotton goods. The Prussian Minister of Public Works has announced that the railways in the manufacturing districts having reached the limit of their capacity about 600 miles of new railroads will be built. The iron industry throughout Great Britain and Europe is more active than ever and industrial shares in that and collateral lines more in demand. Negotiations for the fiscal treaty between Austria and Hungary are to be begun anew shortly. The capital issues in London to date are the highest known in any similar period since 1894, and perhaps beyond that. Australian bank reports for 1898 indicate, on the whole, an improvement in the affairs of the country.

THE WINDSOR HOTEL FIRE.

ON Friday afternoon of last week the Windsor Hotel caught fire from some cause not yet determined, and in a few hours the building was totally destroyed and many lives were lost. The conditions for the rapid spread of flames in that building were quite unusual. At the time the fire started, a St. Patrick's Day parade was passing the hotel, and nearly every window of the Fifth Avenue front was open, causing drafts of air in all directions, and most of the employees in the hotel had temporarily abandoned their posts of duty to view the parade. Where the first first started is uncertain. Some persons think that it was in the basement; others that it was in the roof, and others think it was due to surcharged electrical wires which simultaneously started a conflagration in a number of places. This hotel was erected nearly thirty years ago, and, although it presented an imposing exterior, the interior construction was of a flimsy character, not even as good as that now required for ordinary tenement-houses—in regard to division walls of brick, strength of floors and means of exit. It complied, however, with the building laws in force at the time of its erection. It must be remembered that it was not until 1885 that a comprehensive law for the better preservation of life and property in buildings was enacted; and it was not until 1892 that all hotels thereafter erected were required to be built fireproof.

Quite naturally this fire has directed public attention to hotels, and hundreds of suggestions have been made in the newspapers to secure safety in hotel structures, some of these going so far as to demand that all non-fireproof hotel buildings shall be torn down, or their occupancy changed to some other use. Several bills have been drafted and introduced in the State Legislature, and one has been drafted by the Corporation Counsel with the sanction of the building and fire department commissioners to so amend the Charter as to require the licensing of hotels by the Mayor, to the end that licenses shall be granted only to such hotels as may be entirely safe for inmates, in case of fire. These proposed laws are all aimed at hotel buildings in the city of New York. If such laws are to be placed on the statute books they should relate to all hotel structures throughout the State; for, with the exception of as many buildings as can be counted on the fingers of one hand, all the hotel buildings in the State outside of New York City are of the most combustible character, and class for class are more dangerous to the inmates than those in this city. The fact is, that the existing building laws and the laws relating to the extinction and prevention of fires, the latter under control of the fire commissioners, are entirely sufficient to secure all reasonable safety for the inmates in hotels, if properly and wisely enforced, without any further legislation. In proof of this statement we quote some of the requirements contained in the laws now in force:

BUILDING LAW.

Section 484. Fireproof Buildings.—Every building hereafter erected to be used as a hotel, * * * the height of which exceeds thirty-five feet, shall be built fireproof.

Section 498. Fire-Escapes.—* * * Every building already erected, or that may hereafter be erected, more than three stories in height, occupied and used as a hotel, * * * shall be provided with such

good and sufficient fire-escape, stairways, or other means of egress in case of fire as shall be directed by the Superintendent of Buildings; and said Superintendent shall have full and exclusive power and authority within said city to direct fire-escapes and other means of egress to be provided upon and within said building or any of them.

Section 499. Public Buildings.—In all buildings of a public character, such as hotels, * * * and other buildings used or intended to be used for purposes of public assembly, amusement or instruction, the halls, doors, stairways, seats, passageways and aisles, and all lighting and heating appliances and apparatus shall be arranged as the Superintendent of Buildings shall direct to facilitate egress in cases of fire or accident, and to afford the requisite and proper accommodation for the public protection in such cases. * * *

The Superintendent of Buildings may at any time serve a written or printed notice upon the owner, lessee or manager of any of said buildings, directing any act or thing to be done or provided in or about the said buildings and the several appliances therewith connected, such as halls, doors, stairs, windows, seats, aisles, fire-walls and fire-escapes, so as to afford such security to the public in the uses to which they may be severally applied as he may deem necessary.

Section 492. Elevator Inclosures in Existing Hotels.—Every elevator in any building erected to be occupied, or now occupied, as a hotel, shall, within six months after the passage of this act, be (that is, on or before October 9, 1892) inclosed in suitable walls constructed and arranged as in this section required for elevators hereafter placed in buildings. * * *

LAW FOR THE PREVENTION OF FIRES, ETC.

Lights, Fire Alarms, Watchmen, Signs, Diagrams, Electrical Alarms and Time Detectors.

Section 454.—All lights used in * * * hotels * * * shall be properly protected by globes or glass coverings, or in such other manner as the Board of Fire Commissioners shall prescribe. The owners and proprietors of all * * * hotels * * * shall provide such means of communicating alarms of fire, accident or danger to the Police and Fire Departments, respectively, as the Board of Fire Commissioners or the Board of Police Commissioners may direct, and shall also provide such fire-hose, fire extinguishers, buckets, axes, fire-hooks, fire-doors, and other means of preventing and extinguishing fires as said Board of Fire Commissioners may direct. In every building used or occupied as a hotel * * * there shall be employed by the owner or proprietor, or other person or persons having the charge or management thereof, one or more watchmen whose exclusive duty it shall be to visit every portion of such building, at regular and frequent intervals, under rules and regulations to be established by the Board of Fire Commissioners, for the purpose of detecting fire or other sources of danger, and giving timely warning thereof to the inmates of the building.

In every room in each of said buildings there shall be posted a card upon which shall be printed a diagram showing the exits, halls, stairways, elevators and fire-escapes, and in the halls and passageways signs shall be posted indicating the location of the stairs and fire-escapes.

In each of said buildings there shall be placed and provided electrical or other alarms and time detectors, to be approved by the Board of Fire Commissioners, by means of which the movements of said watchmen may be recorded, and through which alarms of fire or other danger may be instantly communicated by means of bells or gongs, to every portion of the building. Said electrical apparatus and all other appliances placed or kept within any of said buildings for the purpose of preventing or extinguishing fires, or for affording means of escape therefrom in case of fire, shall be kept at all times in good working order and proper condition for immediate use, and any member of the uniformed force of said department may enter any of the said buildings at any time for the purpose of inspecting said apparatus or appliances.

Section 454½. Rope Fire-Escapes.—The owner, proprietor or manager of every hotel * * * shall, within three months after the passage of this act (before August 19, 1892), place or cause to be placed in every room of such building used as a lodging or sleeping room, except the rooms on the ground floor, and also excepting rooms one or more windows of which open upon a fire-escape having direct access to the ground, a manila rope, or other better appliance to be approved by the Chief of the Fire Department of said city, to be used as an auxiliary means of escape. * * * The Chief of said Department shall cause every building described in this section to be periodically inspected by the officers and members of the uniformed force, whose duty it shall be to ascertain whether the provisions of this section have been complied with, and to report any omission or neglect thereof. * * *

The provisions of this section shall not apply to fireproof buildings.

Section 467. Fire Marshal May Enter Buildings, Eetc.—It shall be the duty of the Fire Marshal, or his officers and agents, when authorized by him in writing so to do, to enter into any building or premises within said city for the purpose of examining, or causing to be examined, the stoves and pipes thereto, ranges, furnaces, and heating apparatus of every kind whatsoever, including the chimneys, flues, and pipes with which the same may be connected, engine-rooms, boilers, ovens, kettles, and also all chemical apparatus or other things which in his opinion may be dangerous in causing or promoting fires, or dangerous to the firemen or occupants in case of fire; and upon finding any of them defective or dangerous, or in any manner exposed or liable to fire from any cause, he shall report the same to the Board, who may thereupon issue orders or special directions, either printed or written, directing the owner or occupant to alter, remove, or remedy the same in such manner and within such reasonable time as may be necessary, and in respect thereto may authorize and direct the use of such materials and appliances as shall be deemed proper and necessary. * * *

As will be seen by the foregoing extracts the laws relating to hotel buildings are about as complete as legal ability and foresight can devise, and leave scarcely an uncovered requirement. It is only after some unusual calamity like the Windsor fire that the building and fire officials seem to awaken to a realizing sense of precautions that might have been taken under authority conferred upon them by law, and which to a considerable extent they have neglected to exercise. Not infrequently they ward off public criticism by declaring that their powers are insufficient, or by suggesting new and drastic methods. Just now it is hotel fire, and the activity of our officials is directed to that class of buildings; a little further on a disastrous fire and attending loss of life may happen in one of another class of buildings, as for instance, in one of the department stores, and then earnest thought will be given to store structures, although it can then probably be shown, as we have shown in the case of hotels, that existing laws are ample, if enforced, to prevent serious loss of life in any building occupied for any purpose. It is only after some unusual occurrence that the general public finds out how many precautions are provided for safety to life and property, and also how many greater precautions might properly be taken under existing statutory laws in the same direction.

OUR ALBANY LETTER

Albany, March 23.—The Legislature has not as yet debated New York's chief measure, the Rapid Transit Act, but it will not adjourn before April 15th, and, therefore, that great measure may yet be acted upon by both the Senate and the Assembly.

The Senate Committee on Miscellaneous Corporations to-day resolved to report adversely Assemblyman Mazet's bill authorizing the Astoria Power, Light and Heat Company to tunnel the East River, and establish gigantic gas works for the Consolidated Gas Company in Astoria. Yesterday (Friday) the bill was reported as stated.

The Assembly has passed Assemblyman Brennan's bill for a State Commission to build another bridge across the East River.

The Senate has been idle in regard to New York bills, having preferred to pass its time in long debates on party measures. It has passed Senator Grady's bill authorizing the East River Bridge Commission to buy more lands.

Among the bills introduced were the following:

Assemblyman Maher's (Intro. No. 1349), setting apart a pier at the foot of 16th street, North River, for recreation purposes.

Assemblyman Maher's (Intro. No. 1348), making it unlawful to carry on the business of burning shells in the City of New York, and making it mandatory to remove such establishments; also giving Borough Assemblys in the city the right to remove glue, bone and fertilizer concerns.

Assemblyman J. J. Sloane's (Intro. No. 1400), amending the lien law to make every building hereafter erected or built in the State liable for the payment of any debt for labor performed on material furnished, providing the contract, or a duplicate, be filed with the county clerk before the work is done or the materials furnished. The owners of a building may keep the amount due a workman out of the moneys due a contractor if notice is given, and pay the workman, whose receipt is to entitle him to an allowance in the settlement of accounts.

Senator La Roche's (Intro. No. 880), and Assemblyman Schoeneck's (Intro. No. 1397), requiring hotels, or boarding-houses, or institutions having accommodations for twenty-five persons, to be provided with shades or curtains or other hangings, of asbestos or other non-inflammable material, and to place gas fixtures so that the flame will be not less than 12 inches from any woodwork.

Assemblyman Hoffman's (Intro. No. 1393), requiring hotels in New York City more than 40 feet high, and having more than 20 rooms for hire, to provide a balcony of iron or other material upon each floor above the height of 40 feet, so constructed that a person can step out upon it and walk along to the fire-escape. Modern fireproof hotels are exempted upon the certificate of the Department of Buildings. Six months are given for compliance, after which the Department of Buildings is to do the work, and it is to be a lien on the property until paid.

Assemblyman Collier's (Intro. No. 1407), allowing the Borough of Brooklyn to acquire the property bounded by Fulton street, Washington street and Johnson street, adjacent to the City Hall, for a public park.

Assemblyman Green's (Intro. No. 1363), providing that no hotel manager having accommodations for more than ten persons shall assign a guest to a room which does not communicate with a fire-escape on the outer wall forming a continuous platform around the building, and connected with the other floors by iron or stone stairways. The owners are made liable for injuries to or deaths of persons resulting from neglect to comply with the provisions of the bill, which is to go into effect on June 1.

Assemblyman Slater's (Intro. No. 1373), incorporating the Industrial and Commercial Exhibition Company of New York, and authorizing it to acquire real estate in the city.

THE REAL LESSON OF THE WINDSOR HOTEL FIRE.

A tragic conflagration like the one that destroyed the Hotel Windsor reveals not only the risks that people run daily, but their apparent ignorance of those risks, if not their indifference to them. It takes some startling occurrence to stir up the community. Then everybody begins talking—officials, newspapers and others, and the air is filled with wild theories, impossible facts and strange contradictions.

Listening to what is said to-day about the Windsor fire, no one would imagine that the great majority of people live, sleep and work in buildings every bit as inflammable as the illfated hotel; and this, let it be understood, in the country where more attention has been given to fireproofing, and where methods for safeguarding buildings have been more highly developed than anywhere else in the world.

Europeans to-day are learning their lessons from us. They are studying our devices. They are taking up our patents. Yet, all but a very few of the buildings now under construction throughout the United States are no nearer being fireproof than was the Windsor Hotel, and would burn as rapidly under like conditions. Even buildings wherein much iron has been used are not necessarily fireproof. Indeed, substantial as metal supports and stairways may seem to the uninstructed, they, in themselves, are not reliable in case of fire. This was shown in the burning of the Metropolitan Opera House some years ago, and in the conflagration that destroyed the upper floors of the Western Union Building. In many trying situations wood has shown itself as good a fire-sustaining material as iron, which is so easily bent and distorted by heat.

From the talk of the hour, any one might easily get the notion that the Hotel Windsor disaster was special and peculiar, instead of really being a sermon which people should literally "take home" to themselves.

There is no reason at all why buildings—every building, the home, as well as the office building, hotel and factory, should not be thoroughly fireproof. This proposition does not involve either the adoption of ponderous or expensive methods of construction, or the displacement of any material now in common use. There will always be situations and conditions where iron construction, with its terra cotta floors or concrete systems could not well be employed. They are too expensive. Neither are we agitating, as an eminent architect did the other day, the adoption of masonry, and nothing but masonry construction, in all parts of large buildings, not only for walls, but for corridors and passageways and staircases, for the jambs of doors, for the mullions of windows, etc. He would have banished wood entirely, and put it among the list of interdicted materials, along with kerosene and gun powder.

This is not only an ultra position to take, but it is entirely unnecessary. The building traditions of this country run with the carpenter, and not with the mason. We started with frame buildings, and timber is still our most abundant, cheapest and most available building material. It is also the most decorative.

"True," it will be said, "but it is inflammable. Wasn't wood the contributing cause of the Windsor disaster?"

Everybody has been talking about the danger of wood, apropos of this fire, and one of the safeguards proposed by the wiseacres is that wood should henceforth be prohibited. This is about as sensible as some other propositions that have appeared in the newspapers lately; for instance, such as the one that lace curtains shall be made in the future of asbestos.

It is true, not all the suggestions that have been advanced regarding the fire are as foolish as this one; nevertheless, everything that has been said about "improved fire-escapes," "fireproof stairways," "fire-stops," "fire extinguishing service," "iron floors," etc., all miss the one point, viz.: that it is possible to build thoroughly fireproof buildings to-day of wood, all of wood if necessary.

Our newspapers, and many of our officials, as well as the public, don't seem to know that there is such a thing as fireproof wood, and that this is absolutely non-inflammable.

But the United States Government knows it. It was demonstrated in the recent war. Not a single American vessel was set on fire, and every bit of timber that is now going into the national war vessels building is of this fireproof character. Thousands of feet of lumber enter into the construction of Uncle Sam's ships, and yet naval experts are satisfied that this material is just as safe, so far as fire is concerned, as iron or steel. The British Government is also using this fireproof wood for its war ships. So is the Danish and other governments, and although the greatest immunity from fire is absolutely essential aboard war ships, there is no talk anywhere of abandoning wood.

The fact is: Modern invention has completely solved the problem that was thrust upon naval constructors by the experiences of the Chinese-Japanese fight at Yalu, and the American encounter off Santiago with Cervera's ill-fated flotilla.

In this connection the following despatch from the Washington correspondent of the Baltimore "Sun," published on Thursday last, is of value and interest: "The fireproof wood used on ships of the United States Navy is declared by a board of experts to be unequaled, and it is recommended that no change be made or any other method considered by the department. This board has for eight months investigated the whole subject of various processes for rendering wood impervious to fire, and to discover, if practicable, the very best system of treating all woodwork that it may be necessary to place in the vessels now building for the navy.

"The board examined every known method, and finds that the electric process now used by the navy is far superior to all others, and that no wood should be placed in a warship that is not treated by it. The sea fights in the Spanish war added nothing to the lessons derived from the naval battles in the war between China and Japan respecting the danger of woodwork to life on warships. The terrible results which followed after the woodwork of the Spanish vessels had taken fire in the engagement off Santiago and during the Manila battle were noted by naval officers present, and the conclusion was reached that many lives were lost from this cause.

"The board's report has received the approval of the Navy Department, and in the construction of new ships all woodwork will be treated by the present electric process."

Our architects and builders, as well as the general public, ought to know what the ship-builder has learned. If they did, the present reading of the lesson of the Windsor Hotel fire would be somewhat different than it is. There would be no talk about the danger of wooden construction, or the necessities of abandoning it. Neither would there be any discussion, as there recently has been in the "Herald," as to how dreary and bare our buildings must be when the law prohibits the use of "nice hardwood trim for doors and windows, and handsome mantelpieces, and nice furniture." If fireproof wood were used, as it ought to be, everywhere, even our private dwellings could be constructed perfectly safe without entailing prohibitive expense. It is foolish to suggest substitutes for wood in any place where wood can be used, either with a saving of money or with greater convenience and expedition, or with greater decorative effect and comfort. Any architect or builder who uses other than fireproof wood to-day is negligent, if not criminal, for by a false economy and a total disregard of modern invention, he is preparing a possibility such as the one so fatally realized in the Windsor Hotel fire. Schools, hospitals, asylums, theatres and hotels should not have a particle of wood in them that has not been fireproofed. In the new annex to the British Museum, all the wood used is of this nature, and one would not think that even the treasures of that national storehouse should be more carefully guarded than human life. A few of our architects, builders and owners have taken the matter in hand, and we possess in the Dun Building, on the corner of Broadway and Duane street, an example of a completely fireproof building wherein wood is used freely, but with absolutely safety everywhere. Every bit of wood in it is fireproof. The architects of the building, Messrs. Harding & Gooch, deserve the greatest credit for their thoroughness and foresight. Why should not all buildings be thus constructed fireproof when that can be accomplished?

AN AMERICAN INVASION OF PARIS.

The contract for the brass railings and other office fixtures for Wyckoff, Seaman, Benedict & Co.'s Paris office has been completed by the well-known firm of M. Gould's Son & Co., manufacturers of artistic brass and bronze work, with New York offices at 64 Reade street, through F. Schettler, 537 West 34th street. The fact that this company's large factory at Newark, N. J., has been running night and day for the past few months, bespeaks a busy season for the firm. Another important contract lately filled by M. Gould's Son & Co., was a piece of bank work which was of old brass finish for James McKinney & Son, of Albany, N. Y. In connection with the bank work they have also put in brass railings and fixtures in the Hanover National Bank, 9 Nassau street; City National Bank, 52 Wall street; Emigrant Savings Bank, Chambers street. A number of churches and theatres throughout this and other cities have also been fitted up by this firm. Among the latter in this city are: B. F. Keith's Union Square Theatre, Koster & Bial's, Herald Square Theatre, Proctor's Pleasure Palace and the Fourteenth Street Theatre. A few of the prominent buildings which have been furnished with their fittings are the Fidelity and Casualty Building, 97 Cedar street; American Surety Building, 100 Broadway; Bowling Green, 5 Broadway; Seigel-Cooper Building, 6th avenue, 18th and 19th streets; Army and Navy Building, Whitehall street; D. Appleton's Building, 5th avenue and 13th street; and many others. A neat and attractive catalogue has been issued by the firm fully illustrating their brass and bronze railings, grills and lattice work, etc., which those interested can have for the asking. It contains many designs of novelty and interest to architects, builders and others.

A TIMELY SUGGESTION.

To the Editor of THE RECORD AND GUIDE:

Dear Sir—Will thank you to kindly give the following subjects some thought, and, if possible, advocate the passing of a law incidental thereto. The construction of fireproof stairways enclosed by brick walls from foundation to roof in all buildings used for factory purposes, apartment or hotel purposes. This subject has often been in my mind, and the burning of the Windsor Hotel demonstrates the necessity for such construction in buildings of either a non-fireproof or fireproof character.

LEON TANENBAUM.

Morningside Heights.

ITS IMPROVEMENTS, BEAUTIES AND ADVANTAGES FOR RESIDENTIAL PURPOSES.

There is no large section of New York, outside of the business sections, whose destiny is so happily secured as that which lies between 110th and 122d streets, Morningside Park and the Hudson River, known as Cathedral or Morningside Heights.

For some time after the Riverside Drive was constructed, there may have existed a doubt as to what was to be the fate of this most important tract, but, if that was so, it was dispelled as soon as the trustees of the Cathedral of St. John the Divine acquired the Leake and Watts Orphan Asylum property in order to build their cathedral upon it when means were secured for practical operations. Only a year after that St. Luke's Hospital bought an adjoining block, and put up the magnificent building that now adorns the Heights. Columbia University soon followed into this field, by buying four blocks, and erecting a number of fine buildings, to which others will be added from time to time. With Columbia, came Barnard and the Teachers' Colleges, and some minor institutions, but all of a character that raised the status of the district and made first-class improvements only possible.

The public institutions created a need for domestic buildings, and a large amount of land has passed out of the hands of original holders, but always with restrictions that protected old and new buyers, so that if the presence of the great religious and educational foundations had not already done so, legal precautions have been taken to prevent the incoming of buildings undesirable as neighbors to those institutions, and to residents on the Heights. In the confidence thus created, investments, immense in the aggregate, have been made there both in lands and buildings. Columbia College has expended $4,700,000; St. Luke's Hospital, $1,530,000, the Cathedral of St. John the Divine, $1,850,000, with the intention of spending probably $4,000,000 more in order to create the greatest religious establishment in the country; Barnard College, $602,000; Teachers' College, $580,000; and Grant's Monument, $500,000. Probably $1,500,000 has been invested in high-class flats upon the avenues, and $500,000 in equally high class dwellings upon the streets.

A GROUP OF DWELLINGS ON MORNINGSIDE HEIGHTS.

528 to 536 West 114th Street. David T. Kennedy, Builder.

The unimproved land on the Heights is in good hands, the principal owners being the Astors, C. P. Huntington, the Goelets, Daniel S. Slawson, the White estate, D. Willis James, Jacob Lawson, the Amos R. Eno estate, Jordan L. Mott, the Society of the New York Hospital, John Watts De Peyster, James J. Goodwin, Lucy W. Drexel, the Central National Bank, and Mary B. O. Dwight, which are a guarantee that the best will be obtained from their holdings. The whole of the Heights is not restricted, but there exists an organization, known as the Morningside Protective Association, of which Seth Low is president; a specific object of which is to obtain the legal restriction of the entire plateau, and whose general purpose is to watch over its interests and guard it against the introduction of obnoxious features. Should the specific object not be attained, it would not matter at all, because economic reasons prevail to secure the exclusion of undesirable improvements just as effectually as if they were secured by legal form; the cost of land on the plateau forbids the erection of buildings out of keeping with those already there.

Nor is there a section in New York, or probably elsewhere, so well bounded as Morningside Heights, with the Riverside Drive on the west, Morningside Park and Drive on the east, Cathedral Parkway (110th street), a wide street controlled by the Park Department, on the south, and on the north a conformation of its own that is of itself an effective barrier against undesired intrusions. It is high and salubrious; it overlooks the most beautiful scenery the city commands, and is encircled in handsome driveways that run down practically into Central Park. For some time the Heights suffered from want of rapid transit facilities, but the change of motive power from equine to electric on Amsterdam avenue mitigates that drawback most considerably, and, whenever the rapid transit railroad is built that will remove it entirely.

An agitation has been made to secure the construction by the city of a viaduct from Morningside Drive, at 116th street, to the station on the "L" road in that street, which if, and whenever successful, will make that railroad easily accessible to the Heights by what will practically be a private road. Consequently, it will be seen that there is no more desirable place of residence than the Heights, and no spot in the city that has been more benefited and beautified by the generosity of the municipality, the managers of public institutions and capitalists.

Among the first to foresee the advantages of this section for residence was Builder David T. Kennedy, who made the first considerable investment in dwelling property on the Heights by the erection of the handsome row of dwellings on 117th street, between Morningside Drive and Amsterdam avenue, which fixed the standard for that class of improvements in the section. Mr. Kennedy has made another improvement in the same field which deserves to be, and doubtless will be,

very successful. He has recently completed five handsome private dwellings on the south side of 114th street, between Amsterdam avenue and the Boulevard, which most effectively maintain the character of the section. These houses are in a restricted street paved with asphalt blocks, and overlook property fronting Columbia College, the original parklike aspect of which is carefully maintained; the Library of Columbia University, the finest of the group of buildings erected by that great institution; the Grant Monument, and the great municipal improvements that gave the foundations for the splendid work that has followed.

The houses are in the latest style, of the American basement type, differing both in exterior and interior design and floor plan and decoration. They are finished in cabinet oak, mahogany, hazel and other fine woods. They are 4 stories high, with 3-story extensions. Their dimensions are 20x65 to 81.6, on lots 20x100 each. They contain 9 to 10 rooms, 2 and 3 bathrooms; also kitchens, laundries, storerooms, foyer-halls, pantries and a liberal supply of closets. The plumbing is of the open sanitary; the bathrooms are tiled and fitted with the latest, best and most attractive furnishings. In a word, these houses are in every way up to the very high standard of the aristocratic dwellings in this community.

In placing these houses on the market, Mr. Kennedy states that prices are such as to suit the times, and offers mortgage accommodation at the low rate of 4½%. His address is No. 19 West 74th street, and he can also be found at the houses themselves during business hours. No. 532 of the group has already been sold by Mr. Kennedy, which indicates an appreciation of a fine location and well-built houses.

Several notable transactions serve to impart an element of popular interest to the news from the private sales market this week. The strength of the market, however, is more especially revealed in a substantial body of miscellaneous commonplace business. Despite one or two sales there has, indeed, been no movement in distinctly mercantile property. But the increasing number of transactions in flats and tenements, with and without stores, is a certain indication that the conditions which tend to direct capital toward real estate for permanent investment are making themselves felt with augmented force. These conditions, so far as they relate solely to real estate, have probably never been better. Several years of depression have reduced prices to the lowest possible level. In the meantime many millions of dollars have been spent on public improvements. The public works undertaken or concluded under Mayor Strong made his administration one of the most memorable in the history of this city. A circumstance likewise of first importance is the improvement in the system of local travel. But while great public improvements and the substitution of electricity for horse power in transportation have added, and are adding, intrinsic value to real estate, there is a third factor, more potent, if possible, than either of the foregoing, which makes for higher prices; and this is the lowering of the interest rate on money. A decrease in interest on mortgages means more than a mere saving of so much money each year to the borrower; it is capitalized in the values. For instance, a piece of property renting for $10,000 a year, net, is worth on a 5 per cent basis $200,000; if a person is content to accept 4 per cent on his money, he will pay for the same estate $250,000. If, accompanying this fall in the acceptable rate of return to the owner, there is a corresponding decrease in the rate he has to pay on a mortgage, this also is capitalized; so that cheap money operates in two ways to raise real estate values where the rent is fixed. Evidently, therefore, we are at the beginning of a period of rising values. Indications of an upward tendency have not been wanting, particularly in the case of property adapted for speculative improvement. But there has so far been no material rise in the general level of prices. In other words, it is difficult to imagine a time more favorable than the present for real estate investment; and this fact, which has been for some time recognized by operators is evidently beginning to impress outsiders, particularly small investors, as may be inferred from the growing number of sales of private houses and flats and tenements. The market is neither dull nor particularly active, but it is uncommonly strong, and its prospects are of the brightest.

The reported sale by the estate of Joseph Reckendorfer to William K. Vanderbilt, Jr., of a plot in 5th avenue, between 71st and 72d streets, serves to call attention to the rapidity with which the avenue has filled up below 86th street during the past few years. There are few corners left; and where there were 115 vacant lots ten years ago, namely, from 59th to 86th street, there are today only 72. In view of recent developments in upper 5th avenue, it is interesting to note the impressions that prevailed about twenty years ago among competent real estate men, regarding the future of that thoroughfare, which were honestly embodied in the following statement of one of them made in 1878:

"No intelligent observer of the city's growth can fail to see that it was a topographical blunder to interrupt the continuity of this great fashionable drive and thoroughfare (5th avenue). The Park has conferred on 5th avenue absolutely nothing compared with what it has taken away. It should never have been extended to the avenue. The easterly boundary should have been a new avenue running parallel with 5th avenue, at a distance of 100 feet or 200 feet. . . . Then our avenue of world-wide celebrity would have presented an unbroken and continuous line as far as Mount Morris. As a device for attracting fashionable residents, the Park feature of the avenue has been an acknowledged failure. A few wealthy citizens, blessed with the courage and spirit of pioneers, have built conspicuous mansions on the Park line, at the rate of about one in every five years since the Park was opened. These mansions have generally been built by persons who were largely interested in neighboring property, and the projections of some of them may be looked upon as expensive real estate advertisements. The indisposition of wealthy and fashionable citizens to cross 59th street is as rooted and insuperable as if a rapid transit framework or a deep river marked the line of division. There is no lack of reason for this freak of fashion. The unwillingness to live opposite a vast open space which presents so dreary and bleak an appearance in winter; the desire for opposite neighbors to enliven the monotony of daily life; the dread of unwholesome influences emanating from such a large surface of unimproved land; these are some of the considerations which have determined the practical failure of land speculation around Central Park, and will compel the owners of this property in time to look for some outlet for it other than residence occupation. Undoubtedly, the most suitable and profitable use for it is in the construction of mammoth apartment houses."

The purchase by the Brooklyn Development Co. of 16 farms, comprising 720 acres, in the 29th Ward, Brooklyn, is a good illustration of the fillip which consolidation, improved transportation, and a single fare have given to real estate in that quarter. The lands bought by the Development Co. cost an average of $1,662 per acre, or about $100 per lot (20x100). Real estate in the Bronx, at an equal distance from the City Hall, 7½ miles, and within from six to eight minutes walk from the Manhattan Elevated Railway, averages, it is estimated, $100,000 per acre, or $8,000 per lot (25x100). Small wonder that speculation is active in suburban Brooklyn, when blocks of acre land can be bought at farm prices of a time of high fares, slow transportation, and transfers at bridges and ferries, and can be resold in lots to small householders at prices based on 5-cent fares, rapid transit, and no change of cars.

The most sensational item in the week's budget of news, however, was the sale of the 16-story Broadway sky-scraper, the St. James Building, at the southwest corner of 26th street, consummated through the efforts of James N. Stout, the buyer being the Security Trust and Life Insurance Company, of Philadelphia, and the consideration $2,725,000. It is the company's intention to locate their main office in the building, the second and third floors of which will be fitted up for their use. The St. James Building was completed in the spring of 1897 from plans by Bruce Price, and its estimated cost, including land was $2,500,000. It would be futile to speculate on the profits of the St. James Company, by whom the building was erected. But as the price of steel is considerably higher to-day than it was two years ago, and is still rising, it is safe to say that the building could not be duplicated for its actual cost of construction. During the past few years, owing to overbuilding, office properties, even those of modern construction, have been considered rather lean investments. But to those now in existence rising land values, coupled with increasing cost of construction and growing demand for office space at higher rentals, insure comparative freedom from harmful competition, and it is not unlikely that the sale of the St. James Building may presage a new movement into this class of real estate on the part of the great accumulations of funds now lying idle in the possession of estates, and insurance, trust, and moneyed institutions. At any rate the effect of this week's sale on the market for mercantile property will be watched with interest by every real estate man in this city.

The total number of transactions given below is 72, with considerations given in 11, and amounting to $4,213,250. Corresponding figures for last week were, 65, 20 and $1,390,350, respectively.

In the auction market this week there was no large individual sale which calls for special mention. That the auction business continues in a seasonably prosperous condition, however, is evidenced by the fact that properties aggregating some $1,250,000 were disposed of. By far the majority of these were offered at voluntary and executors' sales. In fact, foreclosures appear to be a diminishing quantity in the Real Estate Salesroom. That, like last week, there was a number of parcels withdrawn or bid in, when viewed in the light of the great mass of successful business, merely goes to show that owners are rushing into the auction room with all sorts and conditions of property.

Richard V. Harnett & Co. have a good miscellaneous list of auction offerings for Tuesday next, and the two succeeding days, which will be found in our business pages and which deserves careful perusal by intending investors in realty. The list in-

cludes dwellings, flats and lots, and detailed particulars will be furnished by the auctioneers at Nos. 71 and 73 Liberty, to those who desire to have them.

Taylor & Fox, of Brooklyn, will sell, on Tuesday next, several attractive lots of property belonging to the estate of Charles Kiehl. These include a store and flat at No. 1698 Broadway; "The Old Homestead," No. 1055 Bushwick avenue; an apartment house at No. 769 Park avenue; an apartment house and store, at No. 65 Delmonico place, and two houses, No. 10 and No. 12, Skillman avenue. In addition, Taylor & Fox will sell a house situated at No. 48 South 6th street, and another at No. 264 Rodney street. These properties are provided with modern improvements and have in many cases good-sized plots of ground. Further particulars can be found in our advertising pages, or at the office of the auctioneer, No. 45 Broadway, Brooklyn.

A very attractive piece of property, situated at the northwest corner of Central Park West and 91st street, is to be sold by Bryan L. Kennelly, auctioneer, at the Real Estate Exchange Salesrooms, on Wednesday, the 29th inst., at foreclosure, under the direction of James R. Torrence, referee. This plot has a frontage of one-half a block on Central Park West, 100 feet 8½ inches, and a uniform depth of 120 feet. Plans have been passed by the Building Department for the erection of a ten-story apartment house on the property, and the erection of the building under these plans has been started, four tiers of iron-work being placed, and from two to three stories of brick and stone-work. It appears from the building contract on record that this parcel cost the owner in January, 1898, $130,000. We are informed that over $48,000 has been expended up to this time on the building, making the cost of the property to date over $178,000. It appears from the referee's notice of sale that the amount of the liens or charges to satisfy which the property is to be sold, including the first mortgage and interest, and the taxes and costs of foreclosure, computed to the date of sale, is about $136,500. These figures should make this sale particularly attractive to persons seeking for investments in this class of property. There have been numerous reports of the private sale of this property, and the sale has been several times adjourned, but we are informed by the auctioneer that the sale will positively take place on the 29th inst.

William Kennelly will sell at auction on Thursday next, No. 190 West street, northeast corner of Duane and Nos. 213 and 215 Duane street, northwest corner of Caroline street, a plot with three good brick buildings located opposite the Erie ferry. Dimensions will be found in our advertising pages. The sale is by order of Franklin Bien, executor and trustee. Maps, etc., can be obtained of the auctioneer at No. 111 Broadway.

Attention is called to the announcement of Wm. Hall's Sons that they are willing to lease the premises now occupied by them at the foot of East 106th street, and to sell their engines, boilers, etc. There are 37 city lots including 207 feet of dock front, large buildings and the valuable plant with which they carry on their general trim business. The members of the firm desire to devote themselves to other large interests they own, and the opportunity to others to secure facilities for manufacturing or to divide and sublet is a good one for that reason.

Great interest has been created by the announcement that the second sale of Eno properties will take place on April 12th, with Peter F. Meyer auctioneer. As was stated in these columns last week, the parcels to be offered at this sale include some of the choicest holdings of the late Amos R. Eno, of which some interesting particulars were given in our last issue. An enumeration of the several lots will be found in our business pages, and book-maps containing full information will be ready for distribution April 1st at the office of the auctioneer, No. 111 Broadway.

Gossip of the Week.

SOUTH OF 59TH STREET.

Broadway, southwest corner of 26th street, 16-story office building "St. James," 95 feet on Broadway, by 130 feet on 26th street; seller, The St. James Company; buyer, Security Trust and Life Insurance Co., of Philadelphia, of which Robert K. Pattison, ex-Governor of Pennsylvania, is president. The main offices of the company will be located in this building. The price paid is stated to be $2,725,000. The property, with old building, was transferred in August, 1896, for $973,000, and immediately passed to the St. James Co. The building was estimated to cost $1,500,000. Mr. Stout was the original organizer of the company and one of the large owners; he also negotiated the present sale.

LEASES.

The Board of Education, at a meeting held Wednesday, authorized the renewal of the lease of the building Nos. 13 to 17 East 125th street, at $7,000 a year. The price paid for the term which expires May 1, was $5,000 a year.

G. Tuoti & Co. have leased for P. Caponigri No. 311 East 105th street for five years, for $8,340; also for Mrs. Sarah E. Osborn, No. 178 Hester street, for three years, for $2,400.

Douglas Robinson & Co. have leased to the New York Auto-Truck Company the entire twenty-fifth floor and the south tower of the Ivins Syndicate Building, Nos. 13 to 21 Park row, for ten years, at $20,000 a year. They have also made a large number of other leases in this building, and state that it is filling up very rapidly.

John N. Golding has leased for the O. B. Potter estate the first floor and basement offices in the Empire Building, Broadway and Rector street, to the International Navigation Company for a term of ten years, at an aggregate rental of about $300,000.

The consummation of a deal which has been long a matter of gossip took place early in the week, when it was given out that the Brooklyn Development Company of New York City had purchased some sixteen farms, comprising about 726 acres, in the outlying wards. There are 125 acres on the line of the Prospect Park & Coney Island Railroad, at 22d avenue and Kings Highway; about 135 acres on the line of Ocean Parkway, extending to the Prospect Park & Coney Island Railroad; 46 acres at the corner of Kings Highway and Ocean avenue; 140 acres on Ocean avenue, between Avenues S and U; 70 acres on Utica avenue, between Avenues I and K; 160 acres on the line of Church avenue, East Broadway and Remsen avenues; 20 acres between Church avenue and Clarkson street; and 37 acres on the line of Rockaway avenue. This property is rated at about $1,300,000, which is the stated consideration for the transaction. The purchaser is a recently organized company, with a capital stock of $3,000,000. It is the purpose of this company to hold this property until such time as it can be sold in lots to advantage, because of the scarcity of similar holdings in the market. The scheme is a big one, and is largely backed by Manhattan and Boston capitalists, who control the company. For so much outside capital to invest in Brooklyn farm lands seems to indicate that other than local operators expect a big future for these sections.

At the Real Estate Exchange, on Wednesday, the **Fougera** apartment house was offered for sale before an unusually large crowd of real estate men. After some spirited bidding, it was knocked down to the parties to the Fougera partition suit, under which the sale was made, for $45,000 over and above a mortgage of $75,000 held by the New York Life Insurance Company. It was then announced that the property would be with-

drawn, and again offered for sale on April 5th. The next highest bid, from an outsider, was $44,500 above the mortgage. This property is one of the largest apartment houses in Brooklyn. It is located in the Heights section, on the west side of Clinton street, and extends from Atlantic avenue to State street. Its assessed valuation is $125,000. It is stated that on the next occasion the offering will be without reserve, as the property must be sold under decree of court.

It was announced this week that General Stewart L. Woodford, ex-Minister to Spain, had sold his house, No. 869 President street, to G. E. Behr, for $26,000. This property is situated in what is called the "Park Slope," between 7th and 8th avenues, and is a three-story brick house, lot 36x50x100, with lots adjoining in the rear of Union street, 42x100. The General has been a resident of this section for many years, but since his return from Spain he has resided at the Hotel Margaret on the Heights. Real estate men regard this sale, together with his present residence on the Heights, as an indication that he expects to live hereafter in the latter section. If such proves to be the case it will tend to improve 1st Ward property from a residential standpoint.

An addition of two inspectors has been made to the Building Department of Brooklyn, making a total of thirty-three inspectors at the disposal of the Department. Besides these inspectors there will hereafter be an extra inspector to act in the place of any who may be sick.

A CORRECTION.

Last week in speaking of the revival of activity in Brooklyn real estate, we drew attention to the large volume of business that is being transacted by the old established firms there, of which Leonard Moody Real Estate Co., 20 Court street, 309 Flatbush avenue, and 746 Washington street, is a conspicuous example. In one place in the article the name was printed "Samuel" instead of "Leonard," an error which, we are sure, most of our readers readily corrected themselves.

REAL ESTATE NOTES.

Bernard Mayer, of the firm of Weil & Mayer, left this week for a few weeks' stay at Atlantic City.

The French Church of St. Esprit is the buyer of Nos. 45-47 East 27th street, the sale of which was reported in our last issue.

William Drought, the owner of the southeast corner of 5th avenue and 117th street, states that that property has not been sold.

The new Eighmie Building, at No. 129 West 125th street, is a novelty in the way of office buildings. It is four stories in height, and contains thirty offices, all well lighted and finished in oak. The lot is 20x97 feet.

J. Frederick Kernochan, C. S. Brown and N. Sanborn have been appointed a committee to confer with representatives of the Government as to whether the Bowling Green property could be acquired at private sale.

Title Guarantee and Trust Co., whose offices are at No. 146 Broadway, announce the declaration of a 2 per cent dividend for the current quarter. Information as to closing and opening of books will be found on another page.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

W. Wallace Detrick, agent and broker, now occupies easily accessible offices in the Eighmie Building, No. 129 West 125th street.

EAST 177TH STREET—PROPOSED WIDENING.

The Board of Public Improvements has under consideration a suggestion that East 177th street be widened to 100 feet, from Bathgate avenue to Bronx River. In making this suggestion, Louis A. Risse, Chief of the Topographical Bureau, pointed out to the Board that 177th street will become the leading business thoroughfare of the Bronx running east and west. Within comparatively few years this street has been widened from 66 to 75 feet, and at the time this was done the Engineer strongly urged that it be made 100 feet wide, but was overruled, owing to the objections raised by property owners. Since then it has been regulated and graded, and a double trolley track laid upon it, leaving only a space of 11½ feet between the outer rail and the curb for wagon traffic. This width of 75 feet will be absolutely inadequate for the large traffic and transportation which are sure to come in the near future, and action is necessary now to secure a suitable width, before the street is built up and the work becomes very costly. Building operations along the thoroughfare are contemplated, and a number of not very expensive buildings have been erected, but excavations are now being made for a $90,000 building on the northwest corner of the street and 3d avenue, which will probably be followed by others. Delay would be a mistake, and involve unnecessary expense on the neighborhood that would have to pay the assessment by which the work would be paid for. In the layout of the street system east of the Bronx River, 177th street is already made 100 feet wide. The suggestion will doubtless be submitted to the property owners at a public hearing in the near future.

BUILDING MATERIAL MARKET.

BRICK.—The bad weather has largely prevented the use of brick, although a great many are being taken by buyers. Prices of Hudson River brick are $5.75 to $6.25, with perhaps a trifle more asked for specials. There are some brick selling even lower, but they are the kind usually sent on first shipments, being inferior lots which have been piled out. The price at which such bricks sell is never to be taken as a criterion of values. Now that the Hudson is open it is probable that the arrivals will be continuous from all points. The prices of New Jersey brick are $5.75 to $6.00@6.25. Demand is good, and they are coming in more freely.

LATH.—The arrivals of Eastern spruce have been 2 or 3 cargoes, amounting, all told, to about two millions. The demand was good, and the market was cleaned up at $2.25. The supply reported to be on the way at present is very light, and no prices are being made for lath to arrive.

LIME.—Rockland lime, to the extent of about eight cargoes, came in during the week. The demand for it was brisk, and it sold at 80@85c. for the common, and 90@95c. for the finishing. This was a slight advance over the prices which prevailed during the previous week or so. The supply on the way at present is small, and no prices are being made to arrive.

CEMENT.—There have been several persistent rumors lately concerning the formation of a cement combination, but at present they are without verification. The demand for Rosendale continues to be brisk. Values are firm at 80c. for the common and 95c. for the finishing. The Delaware and Hudson Canal opened for cement last Thursday, but the State canals will not open until the middle of next month. Imported Portland continues to have a strong call at former values.

LUMBER.—The coming season in New York, and, in fact, throughout the country, promises to be the best for several years. The market is in a very healthy condition, and the movement of lumber large even at present, although it will increase considerably as the season advances. Stocks in many woods will be insufficient to fulfill the demand upon them. The increase in building over last season is now an accepted fact, and will be one of the strong features of the local demand. The situation in hardwoods is particularly strained. It is next to impossible to get any dry stock. Buyers are taking quantities of green stock, fresh from the saw. With trade increasing day by day it is difficult to see any improvement in the situation for a long time. Yellow pine continues its upward march, and values have reached higher figures than for many years. Spruce continues firm and in strong demand.

GLASS.—The window-glass market is in a rather uncertain condition as to prices. There is a strike on among the lehr men, and at present writing there is no indication of its immediate settlement. The manufacturers have withdrawn present prices after the 25th of this month, and there is a strong probability that the next that are made will be higher. Discount at present for American window-glass is 85 and 5 and 85 and 10, with 85 and 15% for carloads. Demand is good. French window sells at 80 and 10% discount. Plate glass is selling at 80% discount, and the market is firm at that price. Trade is quite fair for this season, and the outlook for the spring and summer good.

NAILS.—No actual advance has as yet taken place in the prices of cut nails, although it is looked for at any time. Quotations at present are $1.50 f. o. b. mill Pittsburg; $1.65 on dock, New York; and $1.75 for small lots from store. Demand for both cut and wire nails is strong. Wire nail quotations are $2.05 for carload lots f. o. b. mill Pittsburg; $2.20 for carload lots on dock, New York, and $2.40 for small lots out of New York stores.

NAVAL STORES.—Dealings in spirits of turpentine have been fairly large, and values have advanced in consequence of somewhat limited offerings to 47½c. for regulars, and 48c. for machines. An increased volume of business is anticipated, and with it an increase in values. The southern market is strong. Tar has been moderately active, with values at $1.70@1.75 regulars, and $3.25 for oil barrels. Pitch was dull and unchanged at $1.70 @1.75.

OIL.—Linseed oil is quoted at 45c. for 5-bbl. lots and over, and 47c. for less than 5-bbl. lots, with boiled and refined 2c. per gallon up from these prices. Another advance in the price of seed makes a further rise in values probable. Competition between city and out-of-town crushers is not very strong, and up-State quotations are 43c. and 45c. Demand continues to be good.

LEAD.—There have been no changes in the prices of lead, as last announced by the National Lead Co., and printed in this column in the issue of March 18th last. Demand for both white and red lead continues to be good.

PAINTS.—It is too early as yet for any considerable volume of business in paints, but demand is seasonably good. On account of the advance in the raw material, prices are higher than at this time last year, and show a tendency to advance when the spring trade opens.

OF INTEREST TO THE BUILDING TRADES.

Brower & Gale, architects, have taken offices at No. 967 Boulevard, near 108th street.

The Carnegie Co. are moving their offices from No. 29 Broadway, to the Empire Building, No. 71 Broadway.

The Building Trades' Club will celebrate the 10th anniversary of the formation of the club the latter part of April by an entertainment and reunion, and an enjoyable time is anticipated.

The seats of several deceased members of the Building Material Exchange will be sold at auction on the floor of the Exchange, Dey street, on April 3, at 3 p. m., by Auctioneer Chas. A. Berrian. The seats of the following will be sold. Richard W. Nichols, Richard A. McNeely, Chas. A. McNeely, Frank Aldridge, Geo D. Mehrhof, Chas. A. Klots, Walter T. Klots, Horace B. Rawson, William W. Fell.

There are a number of out-of-town sewer pipe men in this city for the purpose of putting through a combination with a capital of $25,000,000, to control the sewer pipe plants in New York, Pennsylvania, Ohio and neighboring States without affecting those plants about St. Louis and further West. The sewer pipe men hope this time to overcome the obstacles which have prevented heretofore the consummation of the deal.

A hearing on the bill to repeal Chapter 672 of the Laws of 1897, the well-known tenement house window guard act, was announced for yesterday afternoon at the Mayor's office. Judson Lawson, Vice-President of the Builders' League, was present to support the bill, but Mayor Van Wyck said argument was unnecessary; no one wanted the act, not even the Fire Department, and he would at once return the repealing measure to Albany with his approval.

TRADE NOTES.

DYCKERHOFF PORTLAND CEMENT.

E. Thiele, No. 78 William street, agent for the Dyckerhoff Portland Cement, writes us as follows: "It has repeatedly come to my notice that contractors have represented to architects that the Dyckerhoff Portland Cement, which had been called for in their specifications, could be obtained in the market, and have secured the architect's consent to employ some other brand. The Dyckerhoff Portland Cement is always kept in stock, for sale by all the leading dealers in building materials here and elsewhere, or can be furnished by me from weekly arrivals at New York and frequent arrivals at other ports, but being the highest priced cement in the market, the motive for such representations is obvious.

"Architects and engineers who specify it in their work will confer a favor upon me by giving me notice whenever it should be claimed that the Dyckerhoff brand cannot be obtained, before permitting the substitution of another cement, so as to enable me to see to it that the Dyckerhoff cement will be supplied. The Dyckerhoff works produce the safest and most reliable Portland cement, unalterable in volume, of a uniform and never-varying quality. No other cement has reached this high grade of perfection. The cost of producing such a cement is naturally somewhat higher than that of lower grades, but the superior quality amply compensates for the slightly higher price."

IMPORTANT FOR PROPERTY OWNERS.

The big establishment of Bloomingdale Brothers, 3d avenue, 59th and 60th streets, reports increased activity in its various house furnishing and fitting departments. Their spring trade in carpets, lace curtains, furniture, bedding, china and pictures promises to eclipse the best records of former years. The big mattress factory on the premises is constantly taxed to its utmost capacity to meet the requirements of regular trade, which is greatly augmented by government contracts secured in the open market over the heads of the largest contractors in the United States. Bloomingdale Brothers make a specialty of the awning business, and furnish estimates on the largest contracts, as well as supplying the modest wants of the smallest households in this field. They invite property owners, real estate agents and householders generally to communicate with them and obtain estimates in any of their various departments.

A BIG ESTATE CHEAP.

Attention is called to a fine mountain valley tract of 1,000 acres, 1,127 feet above the sea level, embracing a large lake stocked with fish, heavily timbered in spots, some cleared farming lands and buildings, offered for less than $6,000. It is only three hours from New York, a mountain valley tract in Northern New Jersey, and well suited for a summer home or game preserve. The advertisement will be found in another part of this paper.

CITY ISLAND.

The preliminary map of the layout of the street system on City Island has been prepared by the Topographical Bureau, and forwarded to the Department of Public Improvements by the Chief Engineer, Louis A. Risse, with a letter explaining the principles upon which it was drawn. The map, while it carefully protects the ship building industry, which is the only one there, and is restricted to a small section of the island, is drawn on the natural theory that the island will be eventually devoted to suburban residence of the better class. Mr. Risse's letter explains that City Island has an area of 279.65 acres; its extreme length north and south is 8,470 feet, or 1.6 miles, and its greatest width east and west, 2,610 feet, or half a mile. A shore drive 80 feet wide has been laid out around the island, and a small park of 9.9 acres placed at the southern end, which commands an incomparable view of Long Island Sound. Pelham Bay Park is connected by the new bridge which is being constructed over Pelham Bay, and by the shore drive on the Island.

We will pay a liberal price for copies of The Record and Guide Nos. 1453, 1454, 1460, 1461, 1471 and 1475; also Indice to Volumes 34 and 41, delivered at our office in good condition.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title, and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded. When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

PROJECTED BUILDINGS.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect; m'n for mason; c'r for carpenter, and b r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency; (*) means not summoned; (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

March.

BROOKLYN,

(Continued from page 524.)

Garfield place, No. 296, west side, between 8th and 9th avenues, four-story and basement stone dwelling, 22x50x100, with extension; sellers, Delaney & Collins; buyer, W. Egdett; consideration, $23,000; broker, Leonard Moody Real Estate Company.

President street, No. 622, west side, between 4th and 5th avenues, four-story brick apartment house; seller, George A. Martin; buyer, Walter R. Lusher; consideration, $10,000. The purchaser gave in part payment No. 197 6th avenue, valued at $9,750, three-story brownstone front dwelling; brokers, Burrill Brothers.

Brevoort place, No. 29, north side, between Franklin and Bedford avenues, 20x75x120, four-story and basement brownstone dwelling; seller, Elizabeth S. Crowell; buyer, A. E. Thompson; broker, Ernestus Gulick & Co.

Washington av, No. 285, east side, between Willoughby avenue and De Kalb avenue, 22x50x100, three-story and basement brownstone dwelling; seller, Julia A. Reilly; buyer, Frances E. Birdsall; consideration, $12,200; broker, Ernestus Gulick & Co.

Bedford av, No. 643, near Penn St., 30x45x100, three-story and basement stone dwelling; seller, The Germania Life Insurance Company; buyer, an investor; brokers, Ernestus Gulick & Co.

Montgomery place, No. 26, between 8th and 9th avenues, 20x80 x100, 4-story and basement stone dwelling; sellers, Delaney & Collins; buyer, Edward Luckenbach; consideration, $22,000; brokers, Ernestus Gulick & Co.

Prospect place, No. 53, between 5th and 6th avenues, 20x40x 80, three-story and basement brick dwelling; seller, Nellie Nelson; buyer, George McDermott; consideration, $6,500; brokers, Ernestus Gulick & Co.

Southwest corner 7th street and 8th avenue, vacant plot, 297.10 x100, valued at $35,000. The Ernst-Marx-Nathan Company to Daniel Buckley in exchange for a vacant lot on northeast corner of Fordham road and Grand avenue, Bronx, 147x100, valued at $20,000; brokers, Redmond Brothers.

Midwood street, No. 38, south side, near Bedford avenue, two-story and basement stone dwelling, lot 20x100; seller, Wm. A. A. Brown; buyer, Charles E. Wall; consideration, $7,200; brokers, Redmond Brothers.

Ernestus Gulick has admitted George C. Lockwood to partnership, although it is not as yet stated whether there will be any change in the firm name.

Another piece of high-grade property in the suburbs which changed hands during the week was the Butterick Publishing Company's holdings, situated partly in the old towns of Flatbush and New Utrecht. This tract covers about sixty acres. The price paid for this property was $208,000, or nearly $3,500 per acre. This is the highest price per acre paid for suburban property in any of the recent dealings reported. The purchaser was the Morris Building Company.

Dean Alvord, of Brooklyn, has lately acquired some forty acres in Flatbush which he is soon to develop as a fine residence section.

Among the sales at auction during the past week were two of 2-story and basement brick houses on Decatur street, between Patchen and Ralph avenues, which were held at the court house by the D. & M. Chauncey Co. The total realized for both was $5,565. It is interesting to note that they are assessed at $4,400 each.

BOROUGH OF BROOKLYN.

CONVEYANCES.

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee they mean as follows:
1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title, and interest of the grantor is conveyed, omitting all covenants and warranty.
2d.—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency; (*) means not summoned; (7) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before the day of publication, do not appear in this column, but in list of Satsified Judgments.

Vol. LXIII. APRIL 1, 1899. No. 1,620.

WHAT was said of the stock market and the general business situation in these columns last week still applies. The first is sustained by a speculative confidence in the Industrial and Transit shares. While it is true that the market is very largely speculative, as the concentration of dealing in a few issues shows, the position of the leaders in the buying is very much aided by the disinclination of holders generally to part with stock. Issues that make or promise a fair return on the investment, though side-tracked for the moment, owing to the rush toward securities that offer chances for immediate large profits, keep very strong, some of them surprisingly so, considering their newness and the absence of guarantee that they will continue for any lengthy period to make the returns they are doing now, where returns are made, or of redeeming their promises where they are favored because of prospective profits. As the season advances rates for money do not keep as low or as steady as they have done all winter. Occasionally flurries in money give setbacks to the market and encourage short sales, but in view of the enormous resources with which the country began the year and which are still to a great extent in sight, it is very unlikely that tight money will come to assist any bear party that may exist. When the market does break it will be because the buying movement has been overdone speculatively, as it is already overdone in other respects, and not for any other reason.

MONEY remains the most important factor in the financial world outside of the United States; even in Australia we note that revived enterprise has made such demands on loanable funds that the low rates prevailing since 1893 can no longer be obtained. Business continues everywhere active, as an illustration of which a recent report on the condition of British shipbuilding can be accepted. This report states that the yards are engaged a year ahead and owners are contemplating enlargements to meet an expected growth in demand for iron and steel ships. The prospect of the middle link of the Cape to Cairo railroad being in German control is not received very pleasantly in Britain, where the line was expected to be an entirely British connection between the two points. The first statement on Indian currency reform comes from the new Viceroy, and, while his words are intended to prepare the Indian commercial communities for a great change, they, at the same time, by promising the maintenance of the 32 cent rupee, discredit the idea that the country will go on a gold basis pure and simple. The report of the Commission, when it appears, judging from Viscount Curzon's remarks, will be something of a compromise. No more important contribution to the peace discussion has been made than the admission of the French Minister of War that France had reached the limit of possible conscription on the manhood of the country and could no longer meet Germany's numerical increases in her fighting forces. Another point that has been made in the same direction is found in Russia's concessions to Great Britain in China, they being really the two nations from which danger to peace is most to be feared. A very interesting Parliamentary return of the water, gas, tramway, electric lighting, and other reproductive undertakings carried on by municipal boroughs in England has been issued. The total capital invested in such undertakings amounted at the end of March, 1898, to £88,152,600, of which £83,379,300 had been borrowed. Of this borrowed money, however, about £11,250,000 had been paid off at the date of the return, leaving £71,883,200 outstanding, against which there had been accumulated sinking and loan funds to the amount of £3,203,600. The average annual income from all the undertakings in the five years ending March 31, 1898, was £8,898,400, the average annual net profit for the same period £3,613,700, and the average annual amount paid in respect of principal and interest on capital borrowed £3,171,300. Water and gas works are the two chief undertakings in which the municipal boroughs have embarked, the capital invested by them in the former amounting to £48,434,900, and in the latter to £20,175,800. Tramways figure in the investments to the amount of £3,213,700, electric lighting undertakings for £3,416,700, markets for £4,770,300, and piers, quays, etc., for £4,797,500.

RAPID TRANSIT AT LAST.

AT last, and for the first time, "rapid transit" is out of the region of talk.

Some one responsible; to wit, the Metropolitan Street Railway Co., has come forward and proposed, upon terms that are really intelligible and definite, to BUILD the underground road planned by the Rapid Transit Commission.

Whew! What a relief! Is it not like escape from a mad-house? For years we have been condemned to live with the cranks—the fellow strong in the conviction that the "rapid transit" problem could be solved only by the elevated roads doing the very one thing experience had shown the elevated roads wouldn't do; the crank who would run over houses, and his fellow who would carve a slice through the blocks; the real estate owner, who wanted rapid transit badly, if only it didn't touch his property; the owner who opposed everything unless his district got it first; the man who objected to the "bowels of the earth," and the person, ignorant of engineering, who was sure an underground road would shake down our tall office-buildings.

What a phantasmagoria of babbling creatures—arguing, proposing, denouncing, year after year with tireless energy! Some of them will yet be heard of, no doubt; but anything that they may say will count for little in the face of a real proposition to build a real road and provide the city with real service.

But apart from the fact that the Metropolitan company are obviously ready and as obviously able to construct the underground road, there is another element in the situation which makes it fairly safe to prophesy that the plans of the Rapid Transit Commission will be carried out.

The project has not only the financial support necessary, but it has also the political support, without which no plan for rapid transit has ever been possible. All around, apparently, there is harmony. Even the Rapid Transit Commissioners seem to have dropped some of the ultra views they were credited with when first they commenced their labors—about the city's paramount interests in a rapid transit road. They seem to concur with the proposition: All that New York can get out of rapid transit is the service. And that is very nearly the truth. Other people must be allowed to make the monetary profits. The politicians must get a "whack" at the dividends, in one way or another, and what remains must go to the men who put up the capital for construction and take the risk.

The Record and Guide has said that a road would be built as soon as there was something in it for all concerned, and it never would be built until profits were visible for everybody interested. To-day these conditions are realized.

The only danger is that the public may raise an outcry to retain a greater part, large or small, of the profits of rapid transit than "service." There may be an attempt to whittle down the concessions demanded by the company, or to impose more onerous conditions.

Better let the matter stand as it is! The city needs rapid transit more than it needs anything else. If bartering begins we will surely get back again into the mad-house with the cranks.

THE bill known as the Astoria Gas Bill has a significance for New York realty interests that has not until now been mentioned in the discussions of the bill either in Albany or in the local press. This is the apparent certainty of a very large amount of land on Manhattan Island, now occupied by gas plants, coming onto the market in the comparatively near future and being used for other purposes. We take it that the ultimate and probably early—the legal and physical difficulties of the task being taken into account—removal of the gas plants to cheaper land on Long Island or on the mainland of this State, is a certainty and that it is therefore not too early to direct attention to the consequences to the realty affected by the change. Consolidated Gas interests have gone so far as to purchase land and to prepare plans for supplying their patrons from Long Island, so that it can be taken for granted that as far as they are concerned the plan favors them economically. They are apparently determined to go on with the work, but are trying to get the best terms they can from the Legislature. The terms we are not now discussing, expecting that the Legislature and the Municipality will take care that these are fair to the city. The promoters of the bill can hardly have expected to get all they asked for. There is always a possibility that the Mutual, Equitable and Standard gas interests will join the Consolidated, or also see a pecuniary advantage in operating from cheaper land and thus broaden the conditions

which it is already the announced policy of the Consolidated Gas Company to produce.

IN this city there are twelve large tracts of land devoted to the manufacture of gas by the Consolidated Co., which, with the plants standing on them, are valued for tax purposes at the total sum of $7,737,000. If this is 75 per cent, of the real value, then the latter is something in the neighborhood of $10,000,000, most of which is for lands, and all of which will come upon the market as soon as works are completed for supplying gas from elsewhere, whatever may be the case with the land of the other companies. The new destinies of these lands and the changes that will be effected in their localities thereby will be determined long before the present works are gone, so that we are justified in thus early calling attention to fields of new development and successful speculation which will be opened by this great change. It need hardly be pointed out that the removal of the gas-works will eventually elevate the neighborhoods in which they are now located, not only because the people they keep away from their vicinities, because of their noxiousness, will probably have no further reason for staying away, and the undesirable elements, whom the business of gas-making attracts, will follow the works. It would, of course, be foolish to attempt to define the precise new use of these many blocks, but it is risking nothing to say that they will be improved by the revolution of the business of gas manufacture and supply. The improvement may not be great in some instances and especially not in those where gas-making is already accompanied by something equally undesirable from the point of view from which we are now regarding this question, that is to say, the desirability of the land for domestic and inoffensive trades uses.

ANOTHER thing to be remembered is that the gas-works have had an influence in determining the uses and values of real property for a considerable distance from all sides of their sites, and, as it is not possible to conceive in the present condition of the law that businesses more or even as obnoxious will take the places of that of gas production, there is a prospect of a large amount of property, many times the value of the gas land itself being improved pecuniarily, immediately the fires of the furnaces are withdrawn. The fact that the presence of the gas-works has had so much to do with determining the character of their vicinages, must, of course, have a limiting effect on the extent of the development and improvement that will follow their removal. In the main the vacation of so much land at one time will have its most important results in providing relief from the pressure of the industrious tenement population on the lower portions of Manhattan, and extending the opportunities for manufacturing in the borough, but these will be no small benefits.

OUR ALBANY LETTER

Albany, March 30.—Albert B. Boardman, one of the counsel of the Rapid Transit Commission, arrived here from New York today, with the amendments suggested to the Rapid Transit Act by the Rapid Transit Commissioners, intended to pave the way to the construction of the underground rapid transit road by the Metropolitan Traction Company. In general it may be said that the Republican members look favorably upon the amendments; while the Democrats merely withhold their opinions until they can consult with their friends in New York City and elsewhere. The outlook, therefore, is propitious to the passing of the bill.

The Senate passed this week as its leading measure Senator Marshall's bill, giving the city authorities power to make a contract for the cleaning of the streets of Brooklyn for 10 years to come.

The Senate passed yesterday the Ford-Fallows bill to compel the Third Avenue street railway company to remove its tracks near the curb on Amsterdam avenue. But the Assembly disagreed with the bill, and compromise committees have been appointed to settle the differences of the two Houses. Governor Roosevelt will call a special session of the Legislature to consider the bill if the two Houses should not come to an agreement upon it.

The Senate passed this week the following bills:

Assemblyman Bedell's act (Intro. No. 518), authorizing the Controller "to cancel of record in his office all taxes and assessments remaining of record as unpaid, levied and imposed upon real property within the territory added to said city by Chapter 934 of the Laws of 1895, and issue certificates of redemption from the sales of real property for unpaid taxes and assessments within said territory, whenever there shall be filed in said controller's office a receipt or receipts for such taxes and assessments signed by the officer authorized to receipt for the same, or whenever it shall appear to his satisfaction from any other documentary evidence filed or of record in his office that such taxes or assessments have been paid."

Senator Mitchell's bill (Intro. No. 559), providing that the City of New York shall assume the expense of the opening of the public place situate between East 161st street and East 162d street.

Senator Mitchell's bill (Intro. No. 821), providing for the payment of the assessments upon Lind avenue, from Wolf street to Aqueduct avenue.

Assemblyman Ware's bill (Intro. No. 1305), vacating an assessment for paving 145th street, from 7th avenue to the Boulevard.

Senator Davis's bill (Intro. No. 301), amending the lien law in relation to personal property to satisfy liens.

The Assembly passed a number of important New York bills in the past two weeks. Mr. Henry's bill providing for a school of public health was one of the most noteworthy of the special measures (Intro. No. 953, printed No. 1730). The bill appropriates $25,000 for equipping the school, and $25,000 for its maintenace the first year. It is to be operated in conjunction with the University of New York.

Senator Plunkitt's bill (Intro. No. 367, printed No. 849), also passed the Assembly. It relates to the precedence of bonds, and limits the time within which an action may be commenced. It repeals Section 6 of Chapter 682 of the Laws of 1897.

Assemblyman Costello's bill (Intro. No. 740, printed No. 1615), amending the labor laws, which will be found summarized on page 467 of the last number of the Record and Guide, passed the Assembly. This bill contains a number of mischievous provisions and should have the attention of building interests.

Assemblyman Adler's bill (Intro. No. 761, printed No. 1620), also was passed. It amends Chapter 910 of the Laws of 1896, to provide that whenever an assessment for a local improvement has been annulled "in whole or in part" by the judgment or order of any court, any sum of money which has been heretofore or shall be hereafter paid thereon, "or on account of any assessment upon property included in the same assessment roll for such local improvement," may be refunded with interest from the time of such payment. If not so refunded within one year from the time of such judgment or order "so" annulling such assessment, an action may be maintained to recover (such), any sums "so paid as aforesaid," with interest thereon, "and the plaintiffs shall, upon due proof of payment, be entitled to a recovery, as herein provided. This act shall not apply to the county of Erie." "§ 2. All acts or parts of acts inconsistent with the provisions of this act are hereby repealed." The changes in the original law are shown, the new matter being quoted, and the word stricken out being placed in brackets.

Assemblyman Grossman's bill (Intro. No. 1047, printed No. 1716), was passed. It requires the appointment of a resident property owner upon all commissions to condemn property to public use.

Assemblyman O'Connor's bill (Intro. No. 742, printed No. 1715), was passed. It sets apart a pier at the foot of 34th street, North River, in the City of New York, for purposes of recreation, and provides for a two-story structure on the pier, the upper story to be for the public, and the lower for commerce.

Assemblyman Wingenfeld's bill (Intro. No. 423, printed No. 1721), attacking the department stores, was passed. It forbids traffic in liquors by a concerning dealing in furniture, in household furnishing goods, in dry-goods, in groceries and provisions, unless it is carried on in a building separate from the other business.

Assemblyman Kullman's bill (Intro. No. 942, printed No. 1094), also passed. It requires New York City to pay $3,000 annually to the Richmond County Society for the Prevention of Cruelty to Children.

Assemblyman Wilson's (Intro. No. 945, printed No. 1098), providing that a commissioner of deeds in the City of New York may act in any part of the city without filing a certificate of appointment in the office of the clerk of the county where he resides, or where the oath is taken, and papers so verified are to be valid in all the boroughs of the City of New York. The city clerk to give the commissioner a certificate of his appointment, and the duration of his term, which is to be filed with the clerk of the County of New York, who is to authenticate the signatures of commissioners of deeds.

Assemblyman Collier's (Intro. No. 1341), amending Section one Subdivision one of Section 3253 of the Code of Civil Procedure, making the allowances of costs in an action for the partititon of real property a sum not exceeding 5 per centum upon the value of the subject matter involved, nor in the aggregate the sum of $500.

Assemblyman Slater's (Intro. No. 1399), giving the Park Department of New York City the control and management of the Speedway, and excluding heavy vehicles from it during certain hours of the day.

Assemblyman Davis's (Intro. No. 1408), to authorize the Commissioners of the Sinking Fund to renew a lease of certain lots to the Orphans' Home and Asylum of the Protestant Episcopal Church in New York.

Senator Plunkitt's (Intro. No. 862), and Assemblyman Collins's (Intro. No. 1367), exempting the property of the New York Polyclinic Medical School from taxation.

Assemblyman Slater's (Intro. No. 1369), and Senator Ford's (Intro. No. 868), providing that an estate or an interest vested "or trust created" before the marriage of the parents of an

illegitimate child, shall not be divested or affected by reason of such child being legitimatized.

Senator Mitchell's bill (printed No. 1641), to validate and confirm a grant of lands under the waters of the Harlem River, made by Commissioners of the land office to Jordan L. Mott on Aug. 14, 1851, passed the Assembly.

Assemblyman Adler's bill (printed No. 1786), to amend the county law so as to enable the Sheriff's office to close at 2 p. m. during July and August, instead of at four o'clock, as now, passed the Assembly.

The following bills were presented in the Senate this week:

Senator Grady's (Intro. No. 905), giving the Municipal Assembly power to regulate the use of every building now or hereafter to be used as a hotel, in so far as the use thereof may involve the safety of the inmates in case of fire, by such ordinances or resolutions only as may be prepared and recommended to the Municipal Assembly by the head of the Department of Buildings.

Senator Ford (Intro. No. 904), same as Assemblyman Slater's (Intro. No. 1373), to incorporate the Industrial and Commercial Exhibition Company of New York; to authorize said compay to acquire real estate in the City of New York, and to erect thereon a building or buildings to be used for industrial and commercial expositions.

Senator Elsberg's (Intro. No. 933), authorizing the Commissioners of the Sinking Fund of the City of New York to renew a lease of lots at 49th street and Lexington avenue, to the Orphan's Home and Asylum of the Protestant Episcopal Church in New York for 21 years from the date of the lease about to expire, at the nominal rental of $1 a year.

Senator T. D. Sullivan's (Intro. No. 851), providing that the consent of a majority of the property owners must be obtained before a surface, elevated, or other railroad can be operated on Elm street, between Howard and Spring streets.

Senator Mitchell's (Intro. No. 882), prohibiting the use of skids across the sidewalks of the City of New York during working hours.

Senator Ford's (Intro. No. 883), authorizing the New York Connecting Railroad Company to construct its bridge across the East River at an elevation above tide water not less than the elevation of the New York and Brooklyn Bridge, and to extend the time to begin the construction of its railroad to July, 1900. The company is authorized to expend thereon ten per cent. of the amount of its capital.

Senator Munzinger's (Intro. No. 901), and Assemblyman Phillips's (Intro. No. 1467), establishing Hamilton Park, between 27th and 28th streets, and 9th and 10th avenues, Manhattan.

The following bills were presented in the Assembly:

Assemblyman Mazet's (Intro. No. 1468), making June 14, Flag Day, a public holiday, to be observed in the acceptance and payment of bills of lading, bank checks and promissory notes.

Assemblyman Slater's (Intro. No. 1439), providing that if the front of any building now standing extends more than four inches upon any street, it is not to be removable without an action which must be instituted by the city within three months from the time when the bill becomes a law, the proceeding to take the course of a mechanic's lien. If a bay window or oriel window extends not more than 12 inches upon a street, it is not to be removed unless proceeding be instituted by the city within one year from the time the bill becomes a law.

Senator Grady's (Intro. No. 905), and Assemblyman Poth's (Intro. No. 1438), requiring that every owner, lessee, proprietor or manager of a hotel, shall cause all lace curtains, shades, portieres, tapestries, sheeting, and covering of beds, and furnishings, all linen used in the place, to be immersed in some chemical solution so as to render them non-inflammable.

Senator Coffey's (Intro. No. 911), and Assemblyman Gallagher's (Intro. No. 1474), taking 4th avenue, Brooklyn, out of the jurisdiction of the Park Department, and giving it to the Street Department.

Assemblyman A. F. Schmidt's (Intro. No. 1451), requiring hotels to be provided with automatic sprinklers for use in case of fire.

Assemblyman A. F. Schmidt's (Intro. No. 1447), requiring every hotel owner to place a metal portable fire-escape of sufficient strength to sustain 400 pounds, fitted with seat and hand governor in each room of a hotel used as a lodging-room above the ground floor.

In the Assembly Mr. Vincent introduced the Torrens Land Registration Law, but does not expect to pass it.

WAR TAX ON CONVEYANCES.

A decision has recently been handed down by Judge Taft, of the United States Circuit Court for the Southern District of Ohio, that the deed of conveyance of a piece of land subject to a mortgage is taxable for the equity conveyed only. This is in direct opposition to the ruling of the Internal Revenue Department that a conveyance is taxable on the value of the land conveyed, which ruling has governed the collection of taxes until now, and still governs it. Inquiry has been made of Washington by local collectors as to whether the Department means to appeal from the decision. If the Department accepts the ruling of Judge Taft, or if on appeal it is defeated, it will, it is understood, have to refund the excess taxes collected under its erroneous ruling. Judge Taft's decision is in line with the generally accepted view of the law outside of the Washington office of the Collector of Internal Revenue, even among deputy collectors. Judge Taft pointed out the weakness of the Collector's ruling by saying: "I understand the foundation for the ruling of the Commissioner (of Internal Revenue) to be that if he does not hold that this is to include the entire value of the land, the next day a mortgagee, might release his mortgage, and that in consequence the Government might not get as much revenue as it would under his ruling. But the statute must be construed according to the language used, and because Congress may not have provided for a case, for which in the opinion of the Commissioner it ought to have made provision, there is no reason why the language of the statute should be strained to accomplish something which it does not."

REPORT OF THE DEPARTMENT OF BUILDINGS.

The report of the Department of Buildings for the first year of consolidation has just been published. In the most important details, for instance, in the table of classification given below, figures are wanting with which to make comparisons with the preceding year. While the totals for 1898 given look large, everyone knows that that year was not a good one for building, except in the least important classes. The comparatively small amounts spent for office, municipal and public buildings, and high-class dwellings, explains this pretty fully. It will be noted that the activity in flats accounts for over 45% of the total estimated cost of the plans filed in the year. As a matter of fact, but for this activity the building year, on the whole, would have been as lean as Pharaoh's kine. The same activity explains why, numerically, last year shows up as well as its predecessor in the numbers of plans filed, and buildings and alterations commenced and completed. The tables to which reference is here made are:

TALKS WITH BUSINESS MEN.

The New York Safety Tread Company, No. 80 Greenwich street, who were awarded the contract for the placing of their safety tread on the stairways of the Brooklyn Bridge, have the following contracts under way: Sub-Treasury work, corner of Wall and Nassau streets, and the placing of coal hole covers in front of the old Mutual Life Building, Broadway and Liberty street: "We have done a large amount of Navy Department work," said Mr. St. John, the New York manager. "The safety tread is now on a great many battleships. Last October we fitted up the battleships 'Brooklyn' and 'Iowa,' and have just furnished the material for the 'Minneapolis.'

"The Police Department are also using our tread, and we are fitting up the main entrances of the stations, one of which is the 47th Precinct, in Brooklyn, corner of 6th avenue and Bergen street.

"At present we are estimating on a large amount of work, and expect a busy season."

"To our view the outlook for 1899 is very encouraging," stated Mr. Fred. H. Janes, Secretary of the Henry Huber Company, 81 Beekman street, in conversation. "The month of February, on account of its being a short month, and the bad state of the weather, caused our deliveries to be much smaller than we anticipated, but against this, we have received many large orders for our highest-priced specialties, and have received a large num-

ber of inquiries for this class of goods, which naturally leads us to suppose that within the next few months the amount and character of sales will be very large and satisfactory. We anticipate a prosperous year."

Babcock & Wilcox Company, Water Tube and Steam Boilers, 29 Cortlandt street, report the past year by far the best in the history of the firm. "The outlook for the present year points to a still greater increase in our business," stated a representative. "During February of last year we secured the contract for furnishing the boilers for the 96th street station of the Metropolitan Street Railway, which called for 84 boilers, aggregating 21,000 horse-power. In December of the same year we placed 60 boilers, aggregating 31,200 horse-power, in the 218th street station of the 3d avenue road. These two contracts, we believe, are the largest ever handled by one firm."

A representative of the Anchor Post Company, when seen in the offices of the firm, at No. 15 Cortlandt street, stated that the war had a depressing effect until late in the Fall, when business again resumed a more normal shape. From the first of January, prices steadily advanced, inquiries became more numerous, and at the present time the firm is experiencing great difficulty in getting iron from the rolling mills, owing to the latter's increase in business. "Yes, the outlook is all that could be expected. We have secured a number of good contracts, one of which is the putting up of 3,000 feet of iron railing around the Coney Island Jockey Club's grounds at Sheepshead Bay."

Mr. J. W. Farrell, of the Van Kannel Revolving Door Company, with offices at No. 253 Broadway, reports business brisk and the outlook encouraging. In answer to the question of how present prices compared with those of former years, Mr. Farrell replied that they were better—much better, and inquiries lately received would indicate a large volume of business in the near future. " We have," he said, "secured the contract for the placing of revolving doors in the State Capitol at Albany, and the doors in the Park Row Building and St. Paul Building were furnished by us."

Mr. James Armstrong, of the well-known plumbing and gas fitting establishment, No. 40 Cortlandt street, with home offices in Brooklyn, corner of Union and Court streets, reports business firm, and the outlook for spring encouraging. "We are at present engaged in doing the plumbing and gas fitting work for the Singer Sewing Machine Company, in the Borne Building, Liberty street, near Broadway," stated Mr. Armstrong, "and expect a busy season."

Mr. H. W. Miller, plastering contractor, with offices at No. 1133 Broadway, has recently completed the interior work of the new building for the Utica Savings Bank, Utica, N. Y., and reports several good contracts, among which are the interior work of the Church of Holy Name, 96th street and Amsterdam avenue; the Borne Building, Liberty street, and the University Settlement Building, corner of Rivington and Eldridge streets.

THE STRENGTH OF WIRE GLASS.

In our issue of March 18 we referred to certain tests made in Brooklyn regarding the fireproof qualities of the Rasner window frames and sashes, and in the course of our remarks the following statement was made: "After being exposed to the flames for two periods of from 20 to 30 minutes' duration each, * * * * the frames remained intact, though the wire-glass with which they were filled was mutilated." Our attention has been drawn to the fact that the word "mutilated" is unfortunate, if not incorrect. People might get an idea therefrom that the wire-glass did not withstand the fire test, but proved in some way inadequate. No one, of course, who has any technical knowledge of wire-glass, would be in any way misled. They know that when this highly fire resistant material is subjected to extreme heat, and water has been applied, it becomes in appearance something like snow ice, due to an enormous number of small cross-fractures; but though these might, roughly speaking, be called "mutilations," they do not impair in the slightest the solidity or the fireproof quality of the glass, which depends upon the scientific principles involved in the introduction of wire-netting into the interior of the plate of glass. Wire-glass, cast solid, not sandwiched, is a strictly fireproof material. Its merits are quite beyond the "test" period.

Real Estate Market.

Business has been very good, indeed, in the private sales market this week. Mercantile and residential, investment and speculative properties figure with almost equal prominence in our budget of Gossip from brokers' offices. Not only have the volume and diversity of the business been all that could be desired, but the week has been productive of a goodly number of individual transactions that have arrested popular attention. Chief among these was the sale of the old Mercury Building, at Nos. 3 Park row and 5 Ann street, by the National Life Insurance Company of Hartford, to the owners of the Park Row Syndicate Building. The immediate object of the purchase was, no doubt, to secure to the Syndicate Building a perpetuation of present conditions of light and air. But this by no means signifies that the site will not be re-improved. Indeed, it is said on good authority that negotiations are under way for the lease of a six-story building which the purchasers will erect as soon as a tenant can be secured. Another important downtown transaction was the sale, by Flake & Dowling, of the southwest corner of Broadway and Walker street. The nominal purchaser was Peter J. Merrick, but the real purchaser is said to be a business firm or corporation that will erect a building eleven stories high, part of which it will occupy itself. There is a frontage in Broadway of 51.10, and in Walker street of 127.7. Upon this plot are old dwellings, converted for business purposes, and now rented only from month to month. The purchaser can, therefore, obtain possession immediately. Flake & Dowling bought the property in November last year from the estate of William Ross. A conspicuous transaction in uptown mercantile property was the sale of the new eight-story business building at Nos. 258 and 260 5th avenue, near 29th street, by Henry Corn. The property is leased for a term of years, which circumstance gives color to the assertion that this week's sale removes it permanently from the speculative market. Edmund Coffin sold the unfinished 13-story hotel, known as the Victoria, at Nos. 118 and 120 West 34th street. The purchaser, C. F. Wildey, will complete the building. Mr. Coffin, who owned the ground and furnished the original builders with a loan to put up the structure, bought the property back again at foreclosure recently. Terence Farley's Sons, who bought part of the former Columbia University site, will improve their purchase by the erection of high-class dwellings. The purchase comprises a plot 121.2 on Madison avenue, and 75 feet on 50th street, and, with recent sales to Dr. White and Minturn Grennell, disposes of the Madison avenue block front extending back 125 feet in 49th and 50th streets. The purchase by E. H. Van Ingen, from Henry O. Havemeyer, of a plot of two lots in 5th avenue, 50 feet north of 87th street, served to supply one of several interesting items from Millionaires' Mile and a Half. Mr. Van Ingen, last week, purchased the O. H. P. Belmont site at the south corner of 77th street, and already holds the larger part of the block front between 71st and 72d streets. Mr. Belmont, in turn, this week bought the residence in which he now lives, at No. 677 5th avenue, between 53d and 54th streets. The house, which was owned by the Elizabeth Coler estate, was occupied by the City Club until a year ago, when Mr. Belmont leased it. The property adjoins the residence of ex-Governor Levi P. Morton. Another purchase in 5th avenue opposite the park was by J. B. Simpson, of a site 25 feet south of 84th street. The effect of Ogden Mills and Ernest Flagg's purchase in 10th avenue, 41st and 42d streets, as a site for model tenements, cannot but be of the very best on the neighborhood.

Among other notable transactions were those affecting mercantile properties at Houston street and West Broadway, No. 498 West Broadway, and Broad and Front streets, a plot of 12 lots at 5th avenue and 102d street, Nos. 5 East 17th and 6 18th streets, a lot in 89th street, near 5th avenue, a lot at Madison avenue and 82d street, and the Tower Building, at No. 50 Broadway.

Apart from a good budget of sales, the event of the week which is calculated to exercise the greatest influence on the tone of the real estate market is no doubt the publication of the offer submitted by the directors of the Metropolitan Street Railway Company to the Rapid Transit Commission. Real estate men hail the proposition to construct the road by private capital as the only solution of the rapid transit problem practicable at the present time, although some objections were raised as to the details of the Metropolitan Street Railway's proposition. Of course, opposition to the project of building the road by private enterprise may be encountered in the Legislature, when permission shall be applied for, but this opposition will certainly not be instigated by real estate men. It is generally conceded that the building of the West Side branch of the road would add at least 50 millions of dollars the first year to the value of real estate on Washington Heights, and in Dyckman Flats, while fully a thousand small owners of vacant lots, who have bought for that purpose during the past few years, stand ready to build homes for their own occupancy as soon as the oft-postponed plan for rapid transit takes definite form. Compared with land values in the Bronx, in the territory served by the Third Avenue Elevated Railway, lots on Washington Heights and in Dyckman Flats are very low. Inside Boulevard lots, from 145th to 175th street, can be bought at from $6,000 to $8,000; from 175th to 190th street, at from $4,000 to $4,500. With rapid transit the better situated land on Wadsworth, 11th and Audubon avenues would undoubtedly come into demand as sites for fine flats or apartment hotels. In Dyckman Flats land can be bought at an average price of $1,000 per lot, which, with rapid transit, could hardly fail to go up 300 per cent. An early effect of the Metropolitan Street Railway Company's proposition was to bring out an offer from the president of a trust company for the entire holding of the Marx-Ernst-Nathan Syndicate in the Dyckman tract. The chief objection to the Metropolitan Street Railway Company's proposition is directed against the clause which provides that the East Side line need not be constructed before the West Side line pays 5% on its cost, and this objection comes from property-owners in the Bronx. It is urged that this clause leaves too many loopholes for evasion; and that Bronx Borough, whose population is second only to that of Buffalo and Rochester, outside of the Greater New York, stands more in need of rapid transit than the sparsely settled upper end of Manhattan. Already the line of continuous building development extends from 149th street to Tremont, except where interrupted by the Astor, Watson, and some smaller estates, and rapid transit would carry the line to Bronx Park. The attitude of Bronx property-owners is explained in a letter to the Rapid Transit Commission, signed jointly by James L. Wells, president of the North Side Board of Trade, and J. A. Goulden, president of the Taxpayers' Alliance. The letter reads in part as follows:

"We decidedly object to the terms proposed in relation to the building of that portion of the road which the aforesaid attorneys designate as 'the second section.' These proposed terms discriminate most unjustly against the Borough of the Bronx by postponing the construction of the road in that portion of the city indefinitely, or, in their own words, until 'the net earnings from the operation of the railroad upon the first section shall be sufficient to pay five per cent. upon the actual cost of

construction and equipment.' Of what? In plain, every day English, it is proposed to limit rapid transit to one side of Manhattan Island, and to let the people of the Bronx suffer as they have for years from inadequate railroad facilities. We desire it to be distinctly understood that we are not opposed to the construction of the West Side line. Neither do we object to the plan of building the road with private capital. Real rapid transit is of such vital importance to the Boroughs of Manhattan and the Bronx, that we favor the immediate construction of all the lines laid out by your commission, whether the work be done by private or public capital. Your commission has repeatedly assured us that the large and rapidly increasing population of the Borough of the Bronx should have real rapid transit facilities if it were in your power to grant them. We ask you, therefore, to refuse your official sanction to any proposition that will delay the earliest possible construction of your lines north of the Harlem River."

It is gratifying to note that the Board of Brokers is following up in a most practical manner its purpose to secure a general revision of the tax law, by inviting the co-operation of other influential organizations, sub-committees having been appointed this week to confer with the Coffee Exchange, West End Association, Metropolitan Improvement Co., Board of Fire Underwriters, Reform Club, Merchants' and Manufacturers' Board of Trade, Chamber of Commerce, Produce Exchange, Board of Trade and Transportation, Mercantile Exchange, Building Materials' Exchange, and Taxpayers' Alliance, and others. It is particularly to be hoped that the Board of Brokers will urge some provision of law which will make the earning instead of the selling value of real estate the basis of the tax assessment, or which will take both the earnings and selling value into consideration. As it is now, the earnings of some improved property are practically confiscated. Take, for example, the building at Nos. 557 and 559 Broadway, which sold at auction last week for $303,500. This property is rented for $13,200, with one loft empty, worth, say, $2,000. The entire property, if fully rented, would bring, say, $15,200. In 1898 the property was assessed for $260,000; 1899 for $300,000. The tax on $300,000 at a rate of, say, 2⅝ per cent., will be $7,875, or over 50 per cent. of rents. The probable net return on the purchase will be still lower, as may be seen from the following conservative estimate: Present rents, $13,200. Taxes, $7,875; insurance, $100; commission renting, repairs, etc., $1,250. Total expenses, $9,225; balance, $3,975, or 1 3-10 per cent. on cost; or if fully rented, 2 per cent. on cost.

The problem of bringing taxes on improved property, whether old or new, into a more normal relation to earnings deserves the Board's most careful consideration.

The number of transactions given below is 74, with considerations given in 17, and amounting to $2,189,900, corresponding figures for last week were 72, 11 and $4,213,250, respectively.

Despite the fact that some auctioneers had refrained from scheduling sales for the period included in the Jewish Feast of Unleavened Bread, the business transacted in the Real Estate Salesroom this week reached the respectable total of $1,200,000. Many important events are announced for the immediate future. Henry Morgenthau will sell the remainder of his holding of the Huntington tract, in the Bronx, the last week in April. The nearer events of popular interest will be found elsewhere in this paper. The coming Eno sale is the subject of much discussion, which centres particularly on the 23d street, 5th avenue and Broadway gore. H. A. B. Kelly, manager of the Real Estate Board of Brokers, has secured horseback appraisements of this property from 12 of the leading members of the Board. The appraisements range from $350,000 to $1,200,000. Three authorities gave $750,000, and four $800,000. As to the prospective use of the corner, the weight of opinion favored its utilization by a trust, banking, or safe deposit vault company, on account of its extensive vault privileges in Broadway and 5th avenue. The average aggregate rent from the premises during the past ten years has been something over $42,000, and the site contains 4,137 square feet, having been purchased from the Middleberger estate in 1857 for $32,100.

William M. Ryan announces the auction sale, by reason of the dissolution of O'Reilly, Skelly & Fogarty, of the property on 14th street used by that firm as a brewery, and a number of tenement parcels on 19th and 20th streets, of which details will be found in our advertising pages. The sale will take place on Wednesday next, 5th inst., and the auctioneer is prepared to supply maps and full particulars at his office, No. 111 Broadway.

Richard V. Harnett & Co. announce in our business pages auction sales for Wednesday and Thursday next, made up of dwellings, flats and vacant property, which are to be sold by the order of the executors of various estates. Intending buyers are recommended to consult the announcement referred to, or apply to the auctioneers at Nos. 71 and 73 Liberty street, for maps and particulars.

Bryan L. Kennelly calls attention in our business pages to some interesting parcels that he will sell at auction, mostly for estates, next and the following Wednesday, 5th and 12th inst., respectively. These parcels comprise dwellings, tenements and plots and lots, and in the general demand that has arisen for realty, this announcement will doubtless receive careful attention. The auctioneer is prepared to supply maps and full particulars at No. 66 Liberty street.

Philip A. Smyth will sell on Wednesday next several pieces of property of the estate of Maurice O'Brien, deceased, including both city and suburban property in good order and particularly well located. The fact that easy terms will be made and that buyers at the sale of part of the estate in 1896 have all been offered advances on the prices paid should leave no one in doubt as to the desirability of purchasing. An advertisement, giving particulars, will be found in our pages, and the auctioneer will supply maps, etc., at his office, No. 11 Pine street.

Book-maps for the second sale of Eno properties, which will take place on April 12th, with Peter F. Meyer auctioneer, are now ready. As was stated in these columns last week, the parcels to be offered at this sale include some of the choicest holdings of the late Amos R. Eno, of which some interesting particulars were given in a previous issue. An enumeration of the several lots will be found in our business pages, and the book-maps containing full information can be had at the office of the auctioneer, No. 111 Broadway.

The dwelling, No. 43 West 72d street, near Central Park West, is illustrated on another page. This is one of two new high-class residences just completed by Architect A. B. Kight. They are in the French and Italian Renaissance style of architecture, and very carefully planned and constructed of the best materials. The houses are each 25x72, with butler's pantry extensions 12.6x16.6 on lots 102.2 deep. These houses contain every improvement, including passenger elevators.

Attention is called to the announcement, that will be found in our business pages, of the block building, bounded by Hudson, Spring, Van Dam and Varick streets, being to let. This is a very commodious building, with floor areas of 28,000 feet, and special shipping facilities from an interior court. It is furnished with steam heat, electric light, etc., and is in every way desirable, both from its character and location, for a large variety of business purposes.

AN IMPORTANT SALE.

Book-maps are ready for an important auction sale ordered by the executors of the estate of Bryan Lawrence, deceased, and which will be conducted by Peter F. Meyer on the 11th inst. The property to be sold consists of an entire block, with water front and bulkheads, across the Harlem, adjoining the 3d avenue bridge; the large plot and buildings at the southwest corner of Broadway (Boulevard) and 60th street, and a dwelling and stable on East 73d street. Other particulars will be found in our advertising pages, and book-maps, etc., can be had of William C. Orr, attorney for the executors, No. 51 Chambers street, and of the auctioneer, at No. 111 Broadway. This sale cannot fail to

afford excellent opportunities for the placing of money judiciously in real estate investment and speculative operations.

THE "FOUGERA."

The adjourned auction sale of the "Fougera" wil take place Wednesday of next week at the Real Estate Exchange, No. 189 Montague street, Brooklyn, to partition the Fougera estate. The chief property that is offered is "The Fougera" apartment house, situated on the west side of Clinton street, and extending from Atlantic avenue to State street. This property contains 40 suites of 8 rooms each, and 8 large stores. It is finished in hardwoods, and can be converted into a hotel if the buyer so desires. On the tax books it figures at $125,000. It is announced that the sale is to be without reserve in order to comply with the order of court for the partition of the estate. At the last sale the parcel was withdrawn on a bid of $45,000 over and above a mortgage of $75,000. The announcement of the sale will be found in our business pages. At the same time, and under the same conditions, there will be offered for the estate 147 valuable Brooklyn building lots and a plot with dwellings. The following will furnish maps and full particulars: Albert R. Moore, referee, 215 Montague street; Jas. L. Brumley, auctioneer, 189 Montague street; Geo. W. Roderick, 189 Montague street, and Jas. W. Glendinning, 16 Court street, Brooklyn, and Coudert Bros., 71 Broadway. N. Y. City.

Attention Investors.—Additional capital imperative. Can offer an extremely good opportunity to invest in corporation about to be formed. Protected by patents. Interview solicited. ROOF, care Record and Guide.

Gossip of the Week.

SOUTH OF 59TH STREET.

Broadway, No. 50, through to New st, "Tower Building." It is reported that R. Appleton, Jr., has sold this property for J. W. Stearns, to A. Lester, for about $800,000. Tarrytown acreage property figures largely in the deal.

55th st, No. 137 East, old building, 17x100.5; seller, Angela R. Holahan; buyer, Oliver G. Jennings; brokers, Whitehouse & Porter.

Houston street, northeast corner of West Broadway, 5-story building, 22.2x75; buyer, John Bittner; broker, William Kennelly.

Madison av, southeast corner of 50th st, plot 75x121, being the northerly portion of Hamilton Hall (Columbia College); sellers, University Real Estate Co.; buyers, Terence Farley's Sons; brokers, Douglas Robinson & Co. and Greene & Taylor; price, about $200,000.

Park row, No. 3, and Ann st, No. 5, 4-sty building, 25x52.3x, 24.6x62.4, with L to Ann st; sellers, The National Life Ins. Co., of Hartford, Conn.; buyers, August Belmont, W. M. Ivins and others, owners of the 30-sty office building, Nos. 13 to 21 Park row; price, about $250,000. This property was sold in 1883 for $80,000. It does not adjoin the Syndicate Building, there being a building on either side of it owned by Joseph Pulitzer. The purchase, it is presumed, will prevent the erection of a skyscraper on the small lot adjoining, thus assuring light and air for the offices in the Ivins Building. The price paid, however, is not an indication of Park row values; No. 21 sold for $300,000, and is about three times as large; No. 19, a lot 170 feet deep, for $255,000, and No. 17, a full lot, for $170,000.

54th st, No. 54 East, 4-sty dwelling, 23x100.5; seller, John D. Wing; brokers, Greene & Taylor; price, $45,000.

47th st, No. 33 West, 4-sty dwelling, 23x100; seller, Dr. Charles E. Francis.

West Broadway, No. 498, near Houston st, 5-sty building, 25x75; seller, estate of Edwin Booth; buyer, Joseph Personeni; broker, Geo. R. Read.

Broome st, No. 22, near Mangin st, 5-sty tenement, 25x100; sellers, Janpole & Werner; buyer, Diedrich Gronholz; brokers, H Reichard & Co.; price, about $20,000.

5th av, Nos. 258 and 260, 50 feet south of 29th st, 8-sty building, 49.4x100; seller, Henry Corn; brokers, Holdridge & Ward. Hoffman Bros. are reported to be the buyers.

34th st, Nos. 118 and 120 West, plot 80x98.9, with unfinished 13-sty hotel "Victoria"; seller, Edmund Coffin; buyer, C. F. Wildey. This property was sold at foreclosure recently and bought by the seller as plaintiff, for $375,625; it was reported sold the following week to another buyer; he took the lots in trade some time ago, the lots figuring in the trade at $240,000. Mr. Wildey will immediately complete the building. Ralph Townsend, who drew the plans, will supervise the work.

Broad st, northwest corner of Front st, old building, 24x66; seller, John C. Schawe; buyers, Potter & Teichman. This property is given in exchange for No. 205 Wooster st, reported in our last issue. The Wooster st property sold for $115,000, and the Broad st property for $90,000, both free and clear. The buyers will improve, as stated in another column.

42d st, southwest corner of 10th av, 300x98.9; 41st st, north side, 100 feet west of 10th av, 225x98.9; seller, estate of William Campbell; buyers, Ogden Mills and Ernest Flagg; broker, W. P. Seymour. This property was reported last October to have been traded for a 7-sty apartment house at the northwest corner of Madison av and 31st st, figuring in the trade at $259,000. They have now been sold for $225,000. One lot, on 42d st, 120 feet from 10th av, was not owned by the estate, and sold for $20,000. Wm. Campbell bought them at various times between 1875 and 1895 for $192,750, with improvements, which consisted of 3-sty brick dwellings, and a factory on 41st st. The buyers will improve the property with model tenements, for which Mr. Flagg will draw the plans.

17th st, No. 5 East, through to No. 6 East 18th st, old buildings, 37.6x110 on 17th st, and 25x70 on 18th st; sellers, Union Trust Company; buyers, Heilner & Wolf; brokers, M. & L. Hess; price, $150,000. The same buyers bought a similar plot adjoining this on the east which they have since resold to a builder. No. 3 East 18th st, adjoining on the west, 25x92, sold in 1890 for $40,000, and No. 8 East 18th st, 25x92, sold in 1883 for $38,000.

35th st, No. 39 West, 4-sty dwelling, 18.9x98.9; seller, Samuel Lederer; buyer, Dr. W. T. Bull; brokers, Charles Griffith Moses & Brother and Ranald H. Macdonald.

Holdridge & Ward and Post & Reese have leased for C. F. Ayer to E. Childs, No. 1164 Broadway, near 27th st, a 4-sty building, for twenty-one years, at an aggregate rental of $273,000.

McVickar & Company have leased to Oliver Harriman, Jr., the cottage belonging to Mr. L. F. H. Betts, at Southampton, L. I.; for Edward H. Kendall, his country place at Southampton, L. I., to Henry A. Robbins; for Mrs. Burton N. Harrison to Mrs. Henry G. Trevor, the country seat known as the "Sea Urchins," at Bar Harbor, Me.; and for H. Van Rensselear Kennedy his 4-sty brownstone front house, No. 10 East 11th st.

Brooklyn.

The week in Brooklyn realty shows continued activity in private sales, with steadily advancing prices. In many cases brokers have resold property within a short period at substantial profits to the first purchasers. There have been no big dealings in suburban properties, chiefly for the reason that most of the desirable holdings have already been bought up, and are now being developed.

The sale for arrears of taxes, which was set down for Wednesday of this week, was postponed until May 31st next. This sale was originally fixed for the latter part of last December, and has been adjourned several times since then. According to the Deputy-Collector, these adjournments have been granted because property owners who were in arrears have shown such a willingness to make settlements that it was considered advisable to give the few owners now in arrears more time in which to pay up. In his opinion, it is more than likely that all the arrears will be paid in by the adjourned date.

The German Home for Reereation for Women and Children has purchased from E. C. M. Fitzgerald the Gravesend property which the latter bought at the Fougera partition sale. The price paid was $5,800, the same paid at the sale. This piece fronts 49.5 on Gravesend Bay, and has a depth of 339 feet. It will be used by the Home in connection with the new house recently opened at Gravesend Bay, at the foot of 27th avenue.

The Brooklyn League announces that it has just completed statistics showing the assessed and real valuations of 1,000 pieces of property in Brooklyn and in Manhattan. These statistics have been carefully tabulated. The purpose of this work is to furnish the members of the League the evidence necessary on an application for reduction in taxes. Although at the beginning of the year, when the books of the tax department were first open to public inspection, there was considerable talk of the injustice suffered by this borough at the hands of the assessors, the feeling at the present time is one of satisfaction at the results of consolidation. There have been fewer applications for reduction than usual. The complaints have largely been confined to property owners in the outlying wards, whose holdings have naturally borne most of the increase. On the whole, it may safely be said that the average Brooklyn householder is content with the way things have turned out.

D. J. Sullivan, of Wantagh, L. I., has sold his farm at Wantagh for $22,000. This property consists of about 140 acres, with a frontage of 1,000 feet on the Merrick road, and 1,500 feet on the Bay. The purchaser was a Brooklyn real estate operator, who does not wish his name disclosed. The purchase of this farm seems to indicate that capital is looking to Long Island property as the next field for investment. With the improvement in the transit facilities, all Long Island property within commuting distance of business centres should experience a boom.

Dean Alvord, formerly of Rochester, is a new operator in these outlying districts. He has recently acquired a large tract just south of Prospect Park, which he proposes to develop along lines of his own. The property is situated in the old town of Flatbush, and is bounded on the north by Church av, and on the south by Beverly road. On the east it reaches to the Brooklyn & Brighton Beach Railroad and East 17th st, and on the west to East 11th st. It also includes a triangular piece between Church av, Coney Island av, Albemarle road, and East 11th st. This tract comprises about 40 acres, which was purchased for about $250,000. Mr. Alvord expects to expend $100,000 in improving it. It is his intention to place such restrictions on building that only the highest class of home-seekers will be attracted.

Deputy-Commissioner Walton, of the Department of Public Buildings, Lighting and Supplies, has recommended that the city erect a municipal building on the plot of land adjoining the present municipal structure on Joralemon st. The plot is owned by the city, and has a frontage of 145 feet on Joralemon st, a westerly depth of 182 feet, and an easterly depth of 160 feet. It also has an L of about 23x50 on the southwest corner of the lot, which extends through to Court st. Thus the proposed building would have entrances on both Court st and Joralemon st. If possible it would be desirable to purchase a strip 161 on the east side of Court st, x25 feet, on south side of Joralemon st, to complete the front on Court st. The Commissioner urges the erection of this building because of the insufficient accommodations available to the various borough departments in the building now owned by the city. He would use this new structure for the departments of Highways, Public Buildings, Lighting and Supplies, Street Cleaning and Sewers, and possibly Water Supply. The cost of the proposed building is estimated at $350,000. Should the Court st parcel be acquired the cost will be considerably more. It is stated that the Comptroller is in favor of the scheme. A suitable building at this location would certainly add to the appearance of the Borough Hall Square.

The last holdings of the old Van Siclen family of Coney Island have been sold during the week for a stated consideration of $20,000. The purchaser's name was not disclosed, although it was said to have been bought for speculative purposes. The

property was bounded by West 6th st, Neptune av, the old Shell road, and Coney Island Creek. The Van Siclen family are said to have owned Coney Island at one time, and the tradition is that no deed of any property on the Island was good unless it bore the signature of Abraham Van Siclen, the first settler.

The adjourned sale of the Fougera apartment house will take place on Wednesday of next week at the Real Estate Exchange. The highest bona fide bid at the last sale was $44,500 above a mortgage of $75,000. The sale is to be unconditional.

REAL ESTATE NOTES.

Chief Bonner has called for detailed reports from commanders of downtown fire companies upon the fire protection of all buildings, nine stories high, in the form of construction, elevator and engine service, auxiliary apparatus, etc., and other forms of equipment for meeting fire.

The bill to repeal Chapter 682 of the Laws of 1897, an act for licensing and regulating the bonds of auctioneers, has reached Mayor Van Wyck, and is being considered by him. A public hearing on the bill was called for Wednesday last, but there was no one present either for or against the bill.

McVickar & Company have purchased from Geo. R. Read, the Record of Real Estate Conveyances formerly belonging to Francis T. Underhill, and which was compiled by him at a cost of about $4,000. This system, which was completed with a great amount of care and labor, is pronounced, by those who have seen it, to be the most thorough and complete in existence.

It is reported that the Sturtevant House, at the southeast corner of Broadway and 29th street, 158.7x176.2, has been sold. The property is owned by John D. Sturtevant and the Sturtevant estate.

Herbert A. Sherman has been appointed by Secretary Gage sole agent for the sale of the Custom House site, at an upset price of $3,500,000. The site contains 31,133½ square feet, which would make the price per square foot $112.42 to realize that figure. The following are comparatively recent prices for sites in the vicinity of the Custom House, though it should be borne in mind that none of these sites have features of area and light equal to those of the site which the Government is trying to sell: Nos. 37 and 39 Wall street, 4,333 square feet, sold in July, 1887, for $450,000, or at the rate of $103.85 per square foot; Nos. 41 and 43 Wall street, 4,259 square feet, sold in August, 1889, for $475,000, or at the rate of $111.52 per square foot; No. 47 Wall street, $1,787½ square feet, sold in May, 1889, for $225,000, or at the rate of $125.87 per square foot; No. 49 Wall street, 2,611 square feet, sold in May, 1889, for $362,500, or at the rate of $138.83 per square foot.

BUILDING MATERIAL MARKET.

BRICK.—The river is open, and the arrivals from up-river points average between a dozen and twenty barges per day. Brick are being bought quite freely, although bad weather still in a great measure limits use. Prices are $5.50@6.00, a slight weakening of values from last week, which is the natural tendency at the opening of the season.

LATH.—The arrivals of Eastern spruce lath during the week have been confined to one cargo. Demand has been sufficient to absorb the supply, at $2.25, the same value that has prevailed for a week or so. A very light supply is reported to be on the way at present, and no prices are being made for lath to arrive.

LIME.—Three cargoes represents the receipts of Rockland lime for the week. Although the shipments have been light, demand is very good, and lime is selling freely at 80@85c. for the common, and 90@95c. for the finishing. State and Jointa lime are in good demand, and are selling at 75c. and 90c., respectively.

CEMENT.—Rosendale cement continues to be in good demand, at 80@85c. and 95c. The supply is hardly adequate to the inquiry, and a few days of pleasant weather will bring the offerings considerably below the call. American Portland is having a brisk demand at former values. The tendency of the entire cement market is firm.

LUMBER.—The lumber market shows no decided change, but has been advancing steadily along the lines it has been following for the past month. The local market reflects the conditions of the country at large. Stocks are not large, and a heavy spring trade is coming along. Prices have advanced higher than they have gone in years, and it is hard to foretell what the result will finally be in some woods. Spruce timber is selling at about $4.00 higher than at this time last year. Yellow pine is already way up and advancing. Hardwoods are in some cases almost impossible to get at any price.

GLASS.—The situation in the window glass market remains unchanged. There are no signs of any settlement of the strike, and there has been a rumor, as yet unconfirmed, that the American Glass Company intends shutting down. All prices made by manufacturers stopped on the 25th ult., and no new ones have been substituted. Sales being made at present are out of stock on hand, at old prices, 85 and 5% discount, and 85 and 10 to 15% for carloads. Demand is good. Plate glass remains the same. Discount is firm at 80%. French window glass is selling at 80 and 10% discount.

NAILS.—At a meeting of the Cut Nail Association, held on the 28th ult., the following prices were adopted: Carload lots to jobbers, $1.75 base, f. o. b. mill, Pittsburg; less than carload lots, $1.80. To other than jobbers, carload lots f. o. b. mill, Pittsburg base, $1.80; less than carload lots, $1.95. Special export prices to jobbers and others, and strictly for export shipments, $1.60, base on dock, New York. Small lots out of store, $2.10. Demand is good. Wire nails are $2.05 for carload lots f. o. b. mill, Pittsburg; $2.20 on dock, New York, and $2.40 for small lots out of New York stores. The condition of the market is unchanged.

NAVAL STORES.—The market for spirits of turpentine has been dull, and values have eased off considerably. At the close prices were 44c. for regulars and 44½c. for machines. Large offerings in the Southern market started the downward movement. Buyers show a tendency to hold off in anticipation of still lower values. Tar has been rather inactive, but values have held their own, at $1.70@1.80 for regulars, and $3.25 for oil barrels. Pitch was steady, at $1.70@1.75, with only a limited volume of business.

OIL.—Linseed oil still continues its upward march, and quotations are, for city, raw, 5-bbl. lots and over, 47c.; less than 5-bbl. lots, 48c. Boiled is 2c. per gallon in addition to the above prices. Seed is still advancing, and a still further advance in oil values may be looked for. Competition between city and up-State crushers is weak. The volume of business is seasonably large. Calcutta is quoted at 58c.

LEAD.—The prices of lead, as announced by the National Lead Co., and printed in this column on March 18th ult., still hold, but the market is somewhat firmer, and an actual advance in values may occur. Demand for both white and red lead continues to be good.

PAINTS.—The paint market at present is in much the same condition as for several weeks past. The weather continues to be very unfavorable for outdoor work, and the volume of busin ss is only moderately large. Prices are unchanged.

Ward Cummingham, formerly of No. 217 West 125th st, has opened an office at No. 483 Courtlandt av, near 146th st.

Meeker, Carter & Booraem and American Brick and Tile Co., have removed from 14 East 23d street to Metropolitan Building, 1 Madison avenue.

Mr. Harry B. Mulliken and Mr. Henry D. Bultman, architects, have opened an office in the Kennedy Building, No. 289 4th avenue, where they will be pleased to receive trade catalogues and samples.

While the time is noteworthy for the lack of large building enterprises, but the amount of small work makes up in full measure, giving the market that firmness of tone which is felt throughout all lines, the steel companies find it impossible to take all orders.

The Tupelo gum tree, it is claimed, will yield lumber suited to replace poplar, being fitted for use in almost every case where poplar is employed. There is a vast supply of this lumber near the Yazoo & Mississippi Valley Railroad. Tupelo gum must have three or four months' air drying, as it cannot be kiln dried. It is considered to be especially adapted for inside finish, and all such high grade work.

The 10th anniversary of the organization of the Building Trades' Club will occur on the 24th of this month. The house committee is arranging a program for the fitting celebration of the event. The aim will be to have the meeting a social gathering of the members, and everything will be done to commemorate and perpetuate the friendly ties and relationships between members, to which has been due such a great part of the success of the club.

The National Metallic Roofing Company filed a certificate of incorporation in the office of the County Clerk at East Orange this week. The capital of the company is placed at $100,000, with power to increase to $12,000,000. The concern is said to be another of the metal companies being organized by the Carnegie interests. The companies already controlled by these interests are the National Steel Company, with a capital of $59,000,000; the American Tin Plate Company, with a capital of $50,000,000; and the National Tin Plate and Stamped Ware Company, capitalized at $20,000,000. The incorporators of the new company are Harlan P. Lloyd, of Cincinnati; James B. Dill, of this city; and Frederick W. Garvin.

The ingenious man is always ready to turn an apparent disadvantage into a benefit. When a New York builder found that in his absence bricks of a slightly different shade had been used to those he ordered and saw the artistic effect was improved, he inaugurated a different method of building, a method which was pleasing because it gave something distinctive. The dead monotony of one color was broken, and a harmonious blending of various shades was the result. When the blundering engineer set up two dynamos in the wrong way the great invention of the motor was evolved. Every builder must have under his eyes similar chances to improve by methods so simple which have long remained unseen. Washed brick were considered of inferior quality till a wide-awake man thought such bricks would give the picturesque weathered effect of ancient buildings, and, as a consequence of this application, washed bricks are now employed in a considerable quantity, and a special method of manufacturing them has been developed.

John P. Leo, President and Judson Lawson, Vice-President, of the Builders' League, are doing yeoman's work in defending building and realty interests at Albany, where they have been quite a number of times lately, staying each time as long as they found they could be of service and undeterred by the dismal prospect, several times realized, of having to return to town on milk trains. There are about twenty bills in the Legislature promoted by labor organizations, each of which ought to have the united attention of the employers' organizations, besides other measures seriously affecting land and building and contractors' and owners' rights. Mr. Leo, speaking of the Slater bill to repeal the Tobin law, which provides that all building stone used in State and municipal work shall be dressed and carved in the State, said it had been referred to the Committee on General Laws, and although every effort is being made, it does not seem probable that the bill will pass this session. However, it is hoped to put it through in the early part of the next session.

TRADE NOTES.

WAR OFFICE ORDER FOR VENTILATORS.

Merchant & Co., Inc., of Philadelphia, New York and Chicago, have recently received an order from the War Department for 786 of their Galvanized "Star" Ventilators, for use on the officers' quarters and barracks, to be erected at Havana and Matanzas, Cuba. There will be 587 "Star" Ventilators, 24 inches diameter, and 199 14 inches diameter. Great promptness is necessary in the delivery of these "Star" Ventilators, which the exceptional facilities of Merchant & Co., Inc., will enable them to accomplish. Some idea of the size of the order can be had when it is stated that if these ventilators were placed in a line with their edges touching, they would cover a distance of nearly half a mile. Within the last few months, Merchant & Co., Inc., have also supplied 500 18-inch ventilators for the new government hospitals at Fortress Monroe and Savannah.

FRINK REFLECTORS.

One of the cleverest and most artistic devices for lighting large rooms is found in the ballrooms of the Waldorf-Astoria and Sherry's, and in the dining-room of the Democratic Club, and which has attracted the attention and caused favorable comment of almost every visitor. It is a unique scheme to light the arched ceilings brilliantly while concealing the light source. This is done by a device originated by the Frink Company, who have also introduced this method in private residences, where it is especially valuable where ceilings are richly decorated. This fine lighting effect is produced by having back of the cornice a trench, in which the electric lights burn, with a series of reflectors behind them, each on its own individual angle, which so graduate the light that every part of the ceiling is evenly lighted. A beautiful result is obtained.

DRYING FRAMES FOR ROOFS.

Chas. Ekart, manufacturer of Cable Drying Frames for roofs, has removed to large and better equipped quarters, at No. 528 Morris avenue, near 148th street, where he is prepared to fill orders promptly. Mr. Ekart recently supplied the Drying Frames for the new Zeltner block on upper 3d avenue; for the Schaefer houses, at 165th street and 3d avenue, and St. Ann's avenue and German place. He has also executed contracts for Builder Geo. W. Eggers and many others.

GRAVELITHIC.

Wm. J. Coyle, of No. 689 Columbus avenue, contractor for Gravelithic sidewalks, areas, cellars, yards, and all kinds of artificial stone work, has a record for honest and reliable work. Among other important contracts satisfactorily executed by Mr. Coyle before the winter opened, were eleven private houses on 88th street, near Columbus avenue, and two mansions on West 72d street, near Central Park, for A. B. Kight, architect and builder. Mr. Coyle's telephone call is 15 Riverside.

THE AUTOMATICALLY-CONTROLLED HOUSE ELEVATOR.

The equipment of the residence has undergone in recent years a very marked development. Indeed, in nothing does the modern home differ so much from the home of twenty years ago, as in this matter of equipment, to secure greater ease, comfort and health. The latest addition to the modern house is the elevator. We do not mean, of course, the elevator as found in the office building or in the apartment house, but the automatically-controlled elevator which mechanical ingenuity has devised, that needs no attendant, and works itself up or down at the mere pressure of a button. These elevators are perfectly safe. They are very simple, and require no mechanical skill for operation. They are now being installed in all thoroughly equipped mansions, and are to be found in houses such as those of John Jacob Astor, W. W. Astor, J. Pierrepont Morgan, C. A. Coster, W. A. Read, Geo. R. Read, E. W. Bliss, Joseph Eastman, R. Fulton Cutting, Joseph H. Choate, J. H. Flagler, the Executive Mansion, Washington, and in a score of other well-known homes. We notice that in some houses of an unusually high order built by W. W. & T. M. Hall, these safety automatically controlled elevators are supplied.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title, and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

March 24, 25, 27, 28, 29 and 30.

PROJECTED BUILDINGS.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect; m'n for mason; c'r for carpenter, and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency; (*) means not summoned; (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before the day of publication, do not appear in this column, but in list of Satsified Judgments.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's Office to be recorded. Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

WITH SUPPLEMENTS.

NONE too soon have the lenders of money begun their campaign of discrimination against the over-speculation in the Industrials, and we may take it for granted that there will be a thorough liquidation in those issues that will test their respective intrinsic merits, where they have any, very thoroughly. No thoughtful or conservative man will regret the shaking up these issues have received during the past week, because a further inflation of values in that direction threatened serious consequences to the market as a whole. As it is, it has suffered a setback from which it will take a little time to recover, but meantime the securities of real merit, that have been neglected in the wild rush of buyers toward the sensational features of the market, will be appreciated properly and receive attention when the right time comes. The advance in rates for money which is the natural result of an extension of manufacturing and commercial activity is another fact that will help to check the speculative movement in stocks and bonds, though it is questionable if it will be maintained for long. The lessened demand for money for stock market purposes will to some extent offset the increased demand from other sources and a fairly good rate will be the result; but we have left the time of extremely low rates behind us, and securities will be more carefully scrutinized for what they will produce than they have been in the past year, when their chances in the game of speculation only were regarded. Earning power ought now, and probably will be, until the hard lesson of to-day has been forgotten, the test of public favor. With liquidation in the overdone Industrials completed and a steady and moderate rate for money established a new movement in sounder issues will be inaugurated with more satisfaction all round. The business situation, which ought to be considered entirely apart from the present condition of the stock market, is quite good and still undergoing improvement, as the advances in wages announced from time to time show. Foreign centres have been looking askance at our market owing to the wild doings in new industrial issues, but as a period has been put to that movement, they will regard us with more favor. It is in the present circumstances that our market ought to attract them, because we are only on the recovery from our dull times, while their own conditions are long past that point, so that their securities have no margin in which to discount future improvements. The reports from all the European stock exchanges and bourses speak of dullness as the most prominent condition, while general business keeps up well. If imprudence on our side does not shock the known conservatism of the other side, a good buying movement, particularly in our railroad issues, ought to come from over the sea as soon as our liquidation has been completed.

AS we pointed out some weeks ago, the bills before the Legislature affecting the building and realty interests are not as numerous as they have been in many preceding legislatures, but at the same time they include some very dangerous propositions. The most mischievous, we think is Mr. Ware's, which, by introducing the words "apartment house, lodging house or tenement house" into Section 484, Chapter 410, Laws of 1882, as amended by Chapter 557 of the Laws of 1897, would limit the houses designated to the height of 35 feet unless built fireproof, the same as hotels, theatres, hospitals, etc. It is hardly possible that such a bill can pass, except through accident or ignorance, but care should be taken that it gets through from neither of those causes. The consequence of such an enactment would be to cut off the supply of apartments, tenements and lodging houses right where it is and leave additions to the city's population unprovided for until the act was repealed. How a man of Mr. Ware's experience could introduce such a bill is past comprehension. One of the Labor Party's bills, that giving factory inspectors the right to examine and condemn scaffolding, slings, hangers, blocks, etc., used in building construction or repair, has been signed by the governor and is now a law. Another measure, increasing the restrictions on the manufacture and repair of garments which do not have to be laundered before being offered for sale, in tenements has also received the governor's signature. There are now before the Legislature some ten or a dozen bills to amend the mechanic's lien law in various ways, one of course reviving the oft repeated demand that a lien for wages or materials shall take precedence of a mortgage. None of these, we understand, has a chance of being incorporated into the law except Senator Brackett's bill to provide for continuing liens on public works, much in the same way as they are continued on private work by application to the Supreme Court. As the law stands at present a lien on a public work continues only for three months unless an action to foreclose is begun within that period and notice of pendency of the action is filed with the comptroller. The Brackett bill adds the following additional proviso, "or unless an order be made by a court of record, continuing such lien, and a new docket be made stating such fact. And the Supreme Court of this State, or any justice thereof, or the County Court of the county in which such lien was filed, or the county judge of such county, are hereby authorized to make an order continuing any such lien for a period not exceeding six months, upon the application of a lienor upon such affidavits or evidence as in the opinion of such court or judge shall be deemed sufficient. Nothing in this act contained, however, shall prevent any such court or judge from making a new order continuing such lien in each succeeding six months, if in the discretion of such court or judge the same shall be deemed just and equitable."

THE agreement between the Manhattan Elevated Railroad Company and the Third Avenue Railroad Company ought not to affect in the slightest degree the bill before the Legislature to enlarge the powers of the Rapid Transit Commission so that they can deal with offers to construct a rapid transit underground railroad with private capital. The reason why it ought not is that given by President Orr, namely, that the agreement does not increase the traffic facilities of the city in any respect, and it is an increase of those facilities that the city wants and that the Rapid Transit Commission is working for. President Orr might have gone even farther and said that the agreement decreases the prospective facilities, because it may be taken for granted that it is entered upon with the understanding that the Manhattan Elevated Railroad Company practically abandons its franchises for extensions not yet built in the Bronx. The cheapening of through fares by means of transfers from the road of one of the contracting companies to that of the other will not compensate the residents of the Bronx for the loss of the quicker travel that an elevated extension would afford if built. Nor does the agreement afford any relief to the West Side of the city, where rapid transit is as urgently needed as on the East Side. If the Manhattan and Third Avenue interests can build the underground rapid transit road, both east and west, on better terms than those offered by Metropolitan Street Railway interests, they had better make their proposition to the Rapid Transit Commission and use their influence to secure the amendments to the Rapid Transit act that the commission has asked for. We believe, however, when all is sifted down, it will finally be found that no other party can offer more and back their offer with better guarantees than the party that has made the first and only practical proposition to supply the needed traveling facilities. The first consideration is to get the necessary power to treat with private capital, which can be given without prejudice to the right of the city to build for itself, or of those of any competitor who may appear in the bidding for the privilege to construct the underground railroad. At the moment the city is too poor to build for itself, and the commission is unable to treat with syndicates who may wish to do so, except informally, even with the one that has made the distinct offer announced last week.

OUR congratulations are extended to the gentlemen who have won the Amsterdam avenue fight, not only because they have saved a large and important section from irreparable injury, but also because they have emphasized if they have not taught the lesson that no injustice can be inflicted upon either the city as a whole or upon particular localities if the citizens will only take the necessary trouble to resist it. In the case in point at times there seemed no way of avoiding the four tracks, but ability, ingenuity and courage have found a way at last. This fact should be impressed upon the city at large. The compromise measure it is proposed now to pass, while decreeing that there shal be a space of twenty feet between the outer rail of any street railroad hereafter laid and the curb, relegates all other questions to the Supreme Court for settlement. The final outcome, so far as Amsterdam avenue is concerned, will probably be an agree-

ment between the two companies to use one set of tracks and thereby avoid the long litigation that may otherwise ensue; the larger outcome it is to be hoped is that the value of public spirit and protective organization have been learned generally from this striking example on the West Side.

THE nomination of J. Edgar Leaycraft to the office of State Tax Commissioner was received with great pleasure and satisfaction in realty circles of this city. It is unnecessary to speak of Mr. Leaycraft's successful business career, or of the esteem and respect with which he is held in the community. There can be no question of his qualifications or fitness for the office, his experience fitting him exactly for the city of New York's representative on the State Tax Commission, now that it has been decided to give it one. He is not only identified with this city, but identified in the capacity that equips him for the most effective service a member of the commission can give. We voice the opinion of the realty world here when we say that Mr. Leaycraft's nomination ought to be promptly confirmed.

AT any time a proposition to purchase a plot of the value of the Eno triangle at Broadway, 5th avenue and 23d street for the purpose of a park would create surprise; but at the present time when the city is unable to provide absolutely needed improvements, it does more than that. Such an acquisition by the city just now would be as wise as the purchase of a diamond pin by a man in want of shoes to cover his naked feet.

THE NEW HOLY TRINITY.

(See illustration.)

ONE of the most interesting architectural schemes now in course of execution in New York is the new church of the Holy Trinity, the successor to the church of that name which stood for some twenty years at the corner of 42d st. and Madison av., and was demolished two years ago. The successor is in the very crowded, but by persons who may be supposed to take a cultivated interest in architecture, very little frequented region of the Rhinelander estate, over beyond 2d avenue in Yorkville, being indeed a memorial church erected by one of the members of the family. It is not irrelevant to an architectural criticism; on the contrary, it is highly relevant, and besides it is only performing an act of justice to express, in passing, the gratitude which all persons interested in the advancement of architecture in New York owe to the estate, or estates, in question for what has been done in and by them for architecture, especially in comparison with other estates. Really, it is worth an article by itself, and a much longer article than this is meant to be, what the great estates which house so many of the inhabitants of Manhattan Island have done to maintain or to degrade or to advance the standard of ordinary house-building. Some of the most original, ingenious and clever of the designs for small houses which have been executed in New York have been undertaken at the instigation of the Rhinelander estates. But what is even more to the purpose is that, in a part of the city which has been especially given over to architectural vulgarity, nothing vulgar, nothing positively offensive has been done under the auspices of these owners. When we contemplate the monumental tin cornices of the region this does not seem to mean much, and yet it must mean a good deal. Object lessons in decency are never entirely thrown away.

Adjoining the new church building which we are immediately discussing is another of the civic benefactions of the estate. This is an industrial school, erected some ten years ago from the designs of the late Calvert Vaux, of the kind of which specimens are scattered over the town, and are always readily recognizable. One rather wonders why the author of the new buildings should not have taken more account of this, to the extent, let us say, of conforming to its material, which is very well chosen, rough brick walls with pressed brick wrought-work. That would still further have extended to the eye a group already impressive by its extent. But the pre-existing industrial school is nevertheless allowed, and doubtless by design, to assert itself, pleasantly, by its roof and its dormers, which are perhaps the best things about it, in a sidelong view, over the roof of the rectory, which occupies one end of the just-completed quadrangle.

This quadrangle is an architectural lining of three sides of a parallelogram of 250 feet of frontage by 100 in. depth, or thereabouts. At one end of this space, as the drawing shows, is the rectory. At the other is a parish-house. The recessed interval is occupied by the church, and by the cloister connecting it with the parish-house, which is at once broken and punctuated by the protruding polygonal apse of the morning-chapel.

But while the drawing shows this disposition, it does not begin to do justice to the architecture, and this is a thing to be thankful for, in contemporary work, the other thing is so much more usual. It is so much more usual as often to denote that the drawing is, in the designer's mind, the work of art; that his business is not so much noting down on paper what is in his mind as a building as trying to realize a drawing. That process is so destructive of architecture that one is almost inclined to hail a bad perspective as a promise, so far as its badness goes, of good architecture.

The material of the whole group is a tawny mottled brick, with slated roofs of deep red, and terra-cotta of two tints, one of them assimilated to red brick in hue, and yet with so many variations as greatly enliven the surface to which it is applied, the other so much darker as to give the effect of brownstone in the conjunction, and in the interior to be liable to be mistaken for brownstone. As a matter of fact, and in order to dispose of the drawbacks first, one may say that this imitation seems a mistake. One may see it not only in the vaulting and in the piers of the interior, but in the tracery of the windows on the outside. There is nothing in it that one can say is positively contradictory of the material, because there is nothing possible in freestone that cannot be done in terra-cotta as employed here. But, on the other hand, there is so much that can be done in terra-cotta that cannot be done in freestone that to employ the more plastic material merely as a substitute for the less plastic is to show inappreciation of it, and so far to come short of the charm of an entirely idiomatic and vernacular treatment. The explanation, of course, is that the church is "French Gothic," that the detail is pretty literally historical, and that the detail of historical French Gothic was executed in stone. That explanation one would accept more readily if the work were not, in other respects, so thoughtful and so good. And, indeed, here is one striking exception to the rule that the terra-cotta is treated like stone-work. That in the arch of entrance in the tower, and especially its tympanum, which are unmistakably of baked clay, and have this charm of an idiomatic and vernacular treatment of material.

While we are about it, there is another defect still more striking and lamentable. The group is connected, and very effectively connected, by a cloister, a low covered way with unglazed and traceried openings. This cloister connects the rectory with the church, its openings taking the place of what would be the aisle windows of the apse and stopping against the rear walls of the transept, and connects the other end of the church with the parish-house, with the central feature of the morning-chapel, as has already been described. So far so good, so particularly good. The weak point is that the connection through the church, which along the transept is maintained by a visibly dependent and even extraneous feature, with an excellent result, is continued across the west front by a feature which is apparently an integral part of the interior, with a result that is awkward, and puzzling, awkward largely because it is puzzling. It is only necessary to look at this gabled wall of the west front, which, by the way, is not shown in the drawing, in contrast with that of the transept to see how immensely more effective is the quite plain and blank lower stage of this latter, as a base and foil to the large and rich traceried window above, than the range of small open arches which so lamentably weaken this front. They seem to open into the body of the church and they evidently cannot do so. The passage is taken out of the church; whereas it should have been visibly added to it, and would in that case have been as effective as it is now injurious to effect. This mistake is the more inexplicable because a projected cloister seems to be indicated by the little projection at the base of the main tower, which is one of the prettiest pieces of design in the building. The treatment of the cloister at this point is the principal blemish upon the design, the principal drawback to a complete architectural success.

It is the last that we shall have occasion to mention. Nothing could well be happier than the group, alike in the general composition and in the detail which almost unfailingly heightens its effect. The flanking buildings are as good in themselves as they are appropriate to their functions in the architectural scheme. In each of them, quite naturally and properly, there is a suggestion of the later architecture of the French chateaux, though there is nothing in them out of keeping with the more strictly ecclesiastical Gothic of the church itself. The rectory is a very livable-looking three-story modern house, of which the street front is a plain brick wall of two stories, each pierced with two plain square-headed and quoined openings, the only enrichment being the gabled and pinnacled dormers of the third or parapet story, effectively relieved against the dark wedge of steep and slated roof. Plain as this is, or by reason of its plainness, it is excellent as an abutment. But on the "return" of the house, the side facing the quadrangle, there is probably more of "design," more, at any rate, of fantasy. This is shown mainly in the treatment of the recessed centre, which is very notably clever. The recess is brought out to the plane of the wall, in the first story, by a low arch which forms the entrance, effectively abutted on

one side by the stark mass of a chimneystack, and on the other by a round turret, which comes in very prettily. In the second story the recess is maintained as a parapeted balcony, while, above, the plane of the wall is continued in a heavy machicolated cornice. Nothing could be more fitting or more picturesque.

The parish-house at the other end is considerably larger, and equally effective as a terminal feature. The street front again consists of two stories and a roof, but each of the two stories shows three large square-headed, mullioned and transomed windows, with a large and rich central dormer above, relieved against the hipped roof. At the inner corner is a tall chimney-stack, beyond which the first story is extended into a balconied projection, and behind which appears the round bulk of a steeply hooded staircase-tower. The inner or eastward front of this building is a symmetrical composition of a triply-arched entrance beneath and a deep triple loggia above, between the towers, and an equivalent and counterparting mass at the inner end.

These two buildings are manifestly dependencies of the central building, the church, with which they are so effectively united by the cloister. The church is worthy of its predominance. There is nothing clamorously "original" about the detail of it, but it has all been so thoroughly studied that the design "shines with new gracefulness through old forms." The mistake in the treatment of the west front has been sufficiently emphasized, and fairness requires that we should equally emphasize the treatment of the flank, in which the openness of the cloister behind the transept and the solidity of the aisle-wall forward of the transept set each other off so much to their mutual advantage. Nor is it fair to suggest that there is nothing original. The tower is in effect as novel as it is beautiful, with the solid lower stage relieved only by the arch of the entrance, the stark shaft of which the thickness is shown and the starkness emphasized by retreating courses of unmoulded brick, and the rich and brilliant spire, in itself a real feat of design. The tower is worthy of its place and function as the central and culminating point of the whole elaborate and converging design. But, indeed, the whole group shows such affectionate study that it will repay study at least as well as any other architectural work now going on in New York. One does not quite know whether to condole with the author that his work is where so few connoisseurs will ever see it, unless, indeed, they take our word that it is worthy of going out of their way to see, or to congratulate him that it is where it is likely to do most good in the way of popular education. That he is to be heartily congratulated upon the quality of the work itself does not admit of any question whatever.

REMARKABLE STAINED GLASS WINDOWS.

The stained glass windows in Holy Trinity Church form one of the most important pieces of work of the kind in this country. They were made by Heinigke & Bowen, and represent a class of work never successfully carried out in the United States before. The architects were thereby assisted greatly in giving to both the exterior and the interior the cathedral look which distinguishes this remarkable group of buildings.

OUR ALBANY LETTER

Albany, April 8.—The Rapid Transit bill of the Rapid Transit Commission was reported with certain verbal amendments to the Senate to-day by the Senate Railway Committee, and was made a special order for consideration on Wednesday next. Senator Stranahan, the chairman of the Senate Committee on Cities, states that the amendments made amount to nothing, and a cursory examination of the bill to-day confirms his statement. No one can tell yet whether this bill will pass or not. Senator Grady, of New York, said to-day that he should suggest an amendment providing that the Corporation Counsel should supervise the acquisition and condemnation of land for the underground road proposed.

The Senate killed this week Senator Marshall's bill providing for tunnel railroads with perpetual charters; introduced in the interest of the Long Island Railway Company, and a part of its scheme to build a tunnel railroad beneath the East River. The Senate also defeated Assemblyman Brennan's bill to compel the city of New York to build a third East River bridge.

A compromise bill to force the Third Avenue Railway Company to abandon its tracks near the curb on Amsterdam avenue, has been favorably reported by compromise committees, and apparently will pass.

Senator Marshall's bill (Intro. No. 948) providing that in all actions, etc., in the courts of the United States affecting the title to real estate situated in this State, notice of such action may be filed and recorded in the office of the clerks of the counties where such real estate is situated, together with a copy of the bill, complaint, information, petition, or other pleadings, and the notice shall have the same effect as like notices filed in actions and proceedings affecting real estate in the courts of this State, as provided in this article.

Senator Coggeshall's (Intro. No. 966) requiring hotel keepers to provide a chemical fire extinguisher for every five rooms, and that the employees of the hotels shall be taught to use the extinguishers, all of which are to be discharged and reloaded in the presence of an inspector at least once a year.

Senator Elsberg's (Intro. No. 965) same as Assemblyman Bedell's (Intro. No. 517), providing that a guardian in socage may have the right to sell or buy at auction an interest in an estate in which he is concerned as guardian.

Senator Marshall's (Intro. No. 950), requiring mortgages of personal property to be filed as follows: Borough of Brooklyn, in the office of the Register of Kings County; in the Borough of Queens in the office of the Clerk of Queens County; in the Borough of Richmond, in the office of the Clerk of Richmond County; in the Boroughs of Manhattan and the Bronx, in the office of the Register.

The bills introduced in the Assembly this week were as follows:

Assemblyman Roberts' (Intro. No. 1528) providing that in no case shall a contractor be liable to pay by reason of liens for material furnished to or labor performed for a sub-contractor a sum greater than the amount remaining unpaid upon the contract made by such contractor with such sub-contractor at the time of filing notices of such liens, except as otherwise provided in this chapter.

Assemblyman De Graw's (Intro. No. 1523) providing that every grant of or relating to a franchise of any character to any person or corporation to use the streets, avenues and parkways in counties which became merged in the City of New York on Jan. 1 last, is to become null and void if not started or commenced to be built within sixty days and to be completed within one year from the date of the act.

Assemblyman Grossman's (Intro. No. 1535) providing that the tangible personal property, including bank deposits of non-residents located in this State, is to be taxable in the tax district where the property is located.

Assemblyman Grossman's (Intro. No. 1536) making it unlawful for any mortgagor to covenant in a mortgage or to promise or agree to the effect that any tax imposed by law upon the debt thereby secured shall be borne or paid by the mortgagor; such covenant may, however, be valid up to the aggregate extent of interest and such annual tax up to the legal rate of interest, but no more.

Assemblyman Grossman's (Intro. No. 1533) in relation to the widening and alteration of East 163d street, from 3d avenue to Westchester avenue, one of the approaches to the Concourse which was overlooked in the first law making provision for the approaches. The bill provides for raising a part of the expenses by assessment and a part out of the "fund for the street and park openings," of the borough of the Bronx.

The following bills were passed by the Senate this week:

Assemblyman Dougherty's bill (Intro. No. 1108) forbidding the carrying on of offensive trades within the boroughs of Manhattan and Brooklyn.

Assemblyman Mayer's (Intro. No. 1720) creating a notification division in the Comptroller's office, whose duty it shall be to receive and register information of ownership of land and to notify owners registered of assessments for local improvements.

Senator Ford's (Intro. No. 1033) amending the banking laws to permit building and loan associations to purchase real estate for their own occupancy at foreclosure to protect their loans, etc.

Senator Sullivan's (Intro. No. 851) to prevent the construction of railroads on Elm street, between Hester and Spring, without the consent of a majority in value of the property owners.

Senator Grady's (Intro. No. 905) amending Section 49 of the Greater New York Charter by authorizing the local authorities "to regulate the use of every building now used, or hereafter to be used as a hotel, in so far as the use thereof may involve the safety of the inmates in case of fire, by such ordinances or resolutions only as may be prepared and recommended to the said Municipal Assembly by the head of the department of buildings."

The Senate ordered to a third reading to-day the following bills:

Senator Ford's (Intro. No. 83) extending to Nov. 1, 1899, the time within which the commission authorized to learn the cause of the decline of New York's commerce must do its work.

Senator Grady's (Intro. No. 837) making the removal of snow and ice from a lot of ground by the public authorities a valid lien against the property.

Senator Grady's (Intro. No. 836) "imposing the duty upon lot owners in the City of New York to construct and maintain the sidewalk in front of their premises in a safe condition for public travel, and for a failure thereof permitting the city to do so, and to charge the cost thereof as a lien against the lot, and also creating a liability on the part of such lot owner over to the city for any damages recovered by a person sustaining injury by reason of such failure, and making the judgment recovered against the city conclusive evidence against such owner."

Senator Elsberg's (Intro. No. 952) declaring that "all acts of ambassadors, ministers, plentipotentiary, ministers extraordinary, ministers resident or charge des affaires of the United States government in taking the acknowledgment or proof of a conveyance of real property within the State, performed before the 12th day of May, 1896, are hereby confirmed, provided that the certificate of acknowledgment or proof is in the form required by the laws of this State."

Assemblyman Fallows' (Intro. No. 1185), amending Section 20 of Chapter 415 of the Laws of 1897, requiring that at no time shall the iron work of a building in course of erection be set up more than three tiers ahead of the flooring or filling-in.

Three of the bills presented to the Assembly in the report of the Fallows Surrogate Investigating Committee passed the House. They are printed Nos. 1918, 1919 and 1946. One of them requires that the names of the appraisers, the transfer tax appraisers, referees, and other appointees of the surrogate made during the preceding week shall be published in an official law paper of New York County on each Monday. The second provides that the fees of inventory appraisers shall be taxed by the surrogate before they are allowed to an executor or an administrator in his account. The third establishes the practice of surrogates in appointing special guardians.

Other bills which passed the Assembly are:

Senator Mitchell's (printed No. 297) to validate and confirm a grant of lands under the waters of the Harlem River made by the commissioners of the land office to Jordan L. Mott on Aug. 14, 1851, and also a grant of lands similarly made to Henry F. Durant on Jan. 10, 1869.

Assemblyman Gales' (printed No. 1996) to amend chapter 564 of the laws of 1898 in relation to unpaid taxes in Long Island City and Flushing, Jamaica and a part of the town of Hempstead, prior to Jan. 1, 1898.

Assemblyman O'Connell's (printed No. 1971) requiring contractors to provide a safe repository for mechanics' tools.

Assemblyman Meister's (printed No. 1916) to set apart a pier at the foot of East 13th street, East River, for recreation purposes.

ANOTHER OBJECT LESSON.

A couple of weeks ago, apropos of the Windsor Hotel fire, we referred to the fact that a majority of people live in houses that, so far as construction is concerned, are death traps. Their interior construction is mainly of soft, inflammable wood that would burn with the utmost rapidity. How true these statements are has been shown in an appalling manner by the more recent 67th street fire, that broke out on Friday morning. So rapidly was this building consumed that from all accounts the inmates were never seen, or even heard from. They might as well have been dropped into a raging furnace. It should be remembered that this building was a costly 5th avenue mansion. It was the abode of wealthy people, and contained a large amount of valuable furnishings and decorations. Perhaps less than one-tenth of the cost of these objects spent upon fireproofing would have prevented monetary loss, and saved the lives that were literally sacrificed.

Here, then, is another object lesson. Will our architects, builders and houseowners profit by it? The cost of fireproofing, even residences, is not to-day a serious extra. One would think that people would insist upon safety even if they had to forego some of the decoration and furnishing upon which usually so much money is spent. One would think an architect would earnestly struggle to persuade his clients to build fireproof. One would also think that the speculative builder would find the statement that his buildings were fireproof the strongest card possible in dealing with an intending purchaser. Methods of fireproofing have been so perfected and cheapened in recent years that the general neglect of proper safeguards in all kinds of buildings is inexcusable. Wood can now be made thoroughly non-inflammable, and every bit of timber used in construction should be of this character.

THE WEST END ASSOCIATION.

The usual monthly meeting of the West End Association was held last Monday evening with J. V'D. Card, Vice-President, in the chair.

Lucius H. Bigelow, No. 340 West End av.; Robt. C. Brown, No. 106 W. 77th; Adam Engle, No. 264 W. 91st; Thos. E. Crimmins, No. 50 E. 59th, and Francis R. Marden, No. 327 W. 76th, were elected members. The resignations of Thos. R. Ball, D. E. Culver, C. T. Pegg and George Semmler were received and accepted.

In the Amsterdam avenue matter, the Committee on Legislation, Law and Schools reported that the Ford bill, with the Ford amendment, had passed the Senate, but had been rejected by the Assembly; a conference committee of both houses was considering amendments suggested by Governor Roosevelt, which cover the property owners' demand for tracks at least 20 feet from curb and at the same time are equally fair to both railroad companies, leaving the determination of their rights to the courts. A number of the consents recorded by the Third Avenue Co. have been revoked by the givers.

On motion of Mr. Houghton, the special committee appointed in March to present the question of a driving ordinance to the Municipal Assembly was discharged, and the matter referred to Committee on Legislation, Law and Schools for action.

A motion of Mr. Stabler, that the Park Board be requested to have grass-plots, trees, etc., on West 86th street properly cared for was laid on the table.

On motion of Mr. McDonald, the chair was authorized to appoint a committee of three to appear before the Dock Board at its next meeting and request the discontinuance of the illegal and wrongful use of dock property at the foot of West 79th street for the dumping of sand, dirt, etc.

On motion of Mr. Houghton, the chair was authorized to appoint a committee of five to join committees from the Real Estate Board of Brokers and other associations in a memorial to the Governor for the appointment of a commission to report to the Legislature of 1900 recommendations for a complete revision of the State tax laws.

On motion of Mr. Frost, the resolution relative to the Manhattan Elevated road structure, etc., adopted at the March meeting, was withdrawn from the Committee on Grievances and referred to the Committee on Local Improvements for action.

A letter was received from Mr. Leaycraft relative to a proposed powder magazine at Edgewater, N. J., nearly opposite the Grant Monument; and on motion of Mr. McDonald, the chair was authorized to appoint a committee of three to confer with the United States officials and secure the location of such magazine as far from this city as practicable.

On motion of Mr. Stabler, the secretary was instructed to request the Police Department to enforce driving regulations on Broadway (Boulevard), now being constantly violated by truck drivers.

Notice to Property Owners.

The theme discussed with paramount interest in real estate circles this week was the startling change which has come over the rapid transit situation. Hard upon the offer of the Metropolitan Street Railway Company has followed the announcement of a traffic agreement between the Manhattan and Third Avenue railroads, contemplating a swifter express service and a liberal system of transfers. President Rossiter is quoted as authority for the statement that a similar arrangement is about to be made between the Brooklyn Rapid Transit, Nassau, and the Brooklyn elevated roads. Edward Lauterbach confirms the report that the Union Railway Company, which is allied with the Third Avenue road, is completing negotiations for the purchase of the Tarrytown, White Plains and Mamaroneck trolley line, by means of which the Third avenue system will reach from the City Hall Park to Tarrytown, on the Hudson; Mamaroneck, on the Sound, and Greenwich on the Connecticut line; and the same authority says that the Third Avenue Company is formulating an offer to construct the whole, not merely a part, of the underground road, planned by the Rapid Transit Commission. Two weeks ago the prospect of Rapid Transit was not at all clear. To-day, the imagination is fired by the Elizabethan grandeur of projects looking to the consolidation, improvement, and extension of the local transportation systems throughout the Greater New York—projects involving to real estate revolutionary changes that are more easily suggested than defined.

The chief objection to the Metropolitan Street Railway Company's proposition was the perpetuity of the projected charter, the insufficient remuneration offered to the city, and the fact that the immediate construction of part only of the road was contemplated. With competition for the franchise the city will be in a position to demand terms more favorable to the public interest; indeed, according to Comptroller Coler, the ownership of the franchise should remain in the municipality, on the ground that the charter is sufficiently valuable to insure returns that ought eventually to pay off the city debt. Property owners in the Bronx, however, are more especially interested in the prospective offer of the Third Avenue Company. They say that such offer would afford an ideal solution of the rapid transit problem so far as their borough is concerned, because of that company's connection with the Union Railway. The Huckleberry road already serves the local needs of the Bronx, and a transfer system into the tunnel would build up the entire borough, whose line of continuous development now stops at Tremont, and extends only about half a mile on either side of the elevated road in 3d avenue.

As regards sales at private contract, the week has been productive of no such brilliant budget of large transactions as that immediately preceding, but the volume of commonplace business remains the same. Small capitalists, the local merchant and the homeseeker are buying freely, both for investment and for resi-

dential or business occupancy. The buying of private houses continues to be a prominent feature of the market, and in some sections, especially the older, as, for example, Lenox Hill, the supply is insufficient to meet the demand.

A suggestive transaction was the sale, by J. Romaine Brown & Co., of a plot of four lots at the southwest corner of Broadway and 108th street. Though a most desirable business site, the plot has remained vacant, because of a defect in the title to the immediate corner, which lies in the bed of the old Bloomingdale road. This defect in the title was cured last year. A triangular structure, about 8x5x12, covers the sometime no-man's-land on the corner. It is a fact well known to title searchers that the courses of many vanished and unrecorded roads and country lanes may be traced through the city by just such shabby structures as the one in question, or by old houses hidden away in the interior of city blocks. Indeed, an interesting article might be written on Buried Villages in New York City. For example, near the intersection of the Bloomingdale road with 98th street, a group of old wooden houses lies buried in the heart of a city block. It is understood that the 108th street plot, sold this week, will be improved at once, although the buyer's name is withheld. A plot at the southwest corner of Broadway and 101st street, purchased by H. Dongan, will be improved with a 7-story fireproof apartment house. The tremendous building movement sweeping up what was formerly the Boulevard, is marveled at by laymen, but is sufficiently accounted for by the development of the trolley service, and the low plane of values on which years of neglect have left the Boulevard lots. Boulevard sites are proportionately cheaper than land in the side streets. At the Eno sale in February a single lot in 114th street brought $12,100, while an inside plot in the Boulevard, between 112th and 113th streets, sold at the rate of $14,000 per lot. The other notable sales of the week were of lots in upper 5th avenue and Central Park, West, the real estate movement in both of which avenues has recently been discussed in this column.

The total number of transactions reported below is 63, with considerations given in 5, and amounting to $407,000. Corresponding figures for last week were, 74, 17 and $2,189,900, respectively.

This week, viewed superficially and apart from the recent past, would hardly produce a favorable impression of the condition of the auction market. Many of the properties offered at voluntary sale were withdrawn or bid in, and in the auctions at foreclosure plaintiffs figured conspicuously among the buyers. Any unfavorable conclusions drawn from these circumstances, however, will be quickly dispelled by a closer examination of the list of offerings. It is a long time since so many holdings undesirable from an investment point of view have been put under the hammer in the Real Estate Salesroom in one week. The activity in the auction market, which is greater than it has been in years, is confined to property adapted for speculative improvement and to property in the secure possession of a reasonable rent roll. During the past three months, as will be seen from a summary published in another column, treble as much real estate, measured in money value, has been sold at voluntary auction as during the corresponding period last year. The present week, despite the uninviting character of the list as a whole, realty aggregating $1,200,000 was disposed of, chiefly residential housing and vacant lots in localities where rents or prospective profits from speculative building are good. Chas. A. Berrian sold a plot on the corner of Webster avenue and 195th street at good prices; it was only last week that the same auctioneer successfully conducted the partition sale for the Daniel Valentine estate, at which $92,950 was realized from lots in the same neighborhood. Popular interest, however, was fixed on the sale for the heirs of Maurice O'Brien by Philip A. Smyth; the dissolution sale for O'Reilly, Skelly & Fogarty, by William M. Ryan, and the auctions at foreclosure of the 12-story store and loft building at Nos. 65 to 69 Bleecker street and the Morse Building, at Nos. 138 to 142 Nassau street, by John N. Golding and Geo. R. Read, respectively. The sale of the Morse Building was adjourned to April 26, while the Bleecker street house was sold to one of the parties in interest. The structure stands upon the site of the old Bank for Savings, which several years ago moved to 4th avenue, and subsequently sold its Bleecker street property, 33.6 feet front and 100 feet deep, to the Union Loan and Investment Company, which put up the new building. The bank took back a mortgage as part of the purchase money. This week's sale was held under a judgment in favor of the bank for $321,608, preceding which there was a claim for $1,306 unpaid taxes. The property was bought at $327,000 by Charles W. Rice, representing the Perth Amboy Terra Cotta Company, which had furnished material for the building. This sale wipes out about $150,000 in subsequent liens for materials supplied. The O'Reilly, Skelly & Fogarty properties, consisting of a brewery, stables, distillery, factory and tenements and stores in 14th, 15th, 19th and 20th streets, west of 7th avenue, went to Hugh O'Reilly and his partner John Fogarty, individually. The offering for the heirs of Maurice O'Brien consisted of eleven flats, one dwelling and one lot in Harlem, besides some unimportant holdings in Bayonne, N. J. All the New York parcels, except one, were bid in. This sale merely repeats on a larger scale an issue witnessed at many smaller auctions, for Harlem flats are decidedly out of favor with the professional element, at least, in the auction room.

Richard V. Harnett & Co. announce in our business pages, for Tuesday next, 11th inst., the sale by auction of Nos. 504 and 506 West 24th street (leaseholds) and Nos. 17, 19 and 21 Watt street, 5-story tenements. Particulars will be found on another page, and maps, etc., can be had at the office of the auctioneers, Nos. 71 and 73 Liberty street.

Bryan L. Kennelly has in our business pages a miscellaneous bill of offerings for the coming and following week, to which attention is directed. The list includes vacant, dwelling, tenement, flat and business parcels variously located, and it will doubtless repay attentive perusal on the part of intending buyers. Terms of sale, dimensions, locations and descriptions of improvements are given in the auctioneer's advertisement, and he will furnish all further information desired, with maps, etc., at his office at No. 66 Liberty street.

William M. Ryan will conduct the auction sale on Wednesday next, the 12th inst., of three valuable Greenwich street business parcels, and an Amsterdam avenue apartment house, of which he gives notice in our business pages, and to which investing readers are recommended to turn. The sale is by order of the executors of the late Wm. Henry Hall, and the terms include mortgages of 75 per cent. of purchase money. The auctioneer's office, where additional information and maps may be had, is at No. 111 Broadway.

William Kennelly's auction offerings for the coming week include the two 5-story apartment houses, No. 121 East 88th street and No. 1919 Second avenue, which, as will be seen in the auctioneer's advertisement on another page, are recommended as investment parcels. They will be sold on Tuesday next, and on the same day the dwelling, No. 237 East 50th street, will also be sold. On the following day, Mr. Kennelly will offer 23 Bronx lots which are ready for improvement. For fuller information, the advertisement mentioned or the auctioneer at No. 111 Broadway should be consulted.

The Amos R. Eno estate's second offering of investment realty in Manhattan will take place Wednesday next, 12th inst, through Peter F. Meyer, auctioneer. A list of the parcels to be offered will be found in our business pages. Those who peruse this list, and no one looking for investment realty purchases will fail to do so, will see that it contains nothing that is not good from one point of view or another. The celebrated triangle at 23d street is, naturally, the one that raises most expectations, but even without that, the sale could not fail to be a notable one. Those who have not already supplied themselves with book-maps of the sale can do so by applying to the auctioneer at No. 111 Broadway.

L. J. Phillips & Co. announce in our business pages the auction sale, by order of executors, of the dwelling, No. 24 West 45th street, on Tuesday next, 11th inst. M. S. & I. S. Isaacs, attorneys, No. 27 Pine street, and the auctioneers, at No. 158 Broadway, will supply particulars.

AT THE GATEWAY OF THE BRONX.

In view of the rapid development that the Bronx is undergoing, the Lawrence Estate sale, that will be conducted by Peter F. Meyer on Tuesday next, 11th inst., is one of the most important of the season. Part of the property to be sold is the block bounded by 3d and Lincoln avenues, Southern Boulevard and the Harlem River, and is therefore at the gateway for the immense traffic between Manhattan and the Bronx. The included water front and bulkheads make this property especially valuable for receiving and shipping by water. Another important parcel included in this sale is the bicycle academy on the southwest corner of Broadway (Boulevard) and 60th street. A third parcel is the 3-story and basement dwelling with stable No. 178 East 73d street. William C. Orr, attorney for the executor, No. 51 Chambers street, and the auctioneer, No. 111 Broadway, will supply maps and particulars.

Taylor & Sons, No. 35 West 45th st, for E. J. Hancy, to Dr. W. H. Wootton, for 3 years.

Brooklyn.

Activity in farm properties has been the feature of the past week in Brooklyn realty, several farms being bought up by well-known operators for development or investment. The coming week is expected to bring the announcement of other deals in these holdings, which are now being worked up by the brokers. At the present rate it will not be many weeks before all farm properties in this borough have passed out of the control of the original farm owners.

Through McNulty & Fitzgerald contracts have been signed for the sale of the farm of the late General Slocum. This property is situated in the old town of Gravesend, and consists of some thirty-four acres. It is just north of Kings Highway, on which it has a frontage of several blocks. To the north it extends to a point midway between Avenues P and O. On the west it is bounded partly by Ocean parkway and partly by East 8th st., while on the east a portion runs as far as Coney Island av. and another part to East 4th st. The stated price was $2,500 per acre. The purchaser is a local syndicate, which will develop the property at once.

Two farms belonging to members of the Stryker family have also been disposed of through the same brokers. One of them, belonging to Cornelius Stryker, consists of 56 acres, with a frontage of 4,000 feet on the east side of Coney Island avenue, between Neck road and Coney Island Creek, running back to Sheepshead Bay. This was sold to William G. Gilmore for about $2,200 per acre. The other, belonging to Mary Stryker, has about 40 acres, and is situated just opposite the Cornelius Stryker piece, with a frontage of 4,000 feet on the west side of Coney Island avenue. The purchaser of this tract was Desmond Dunne, and the price paid was about $2,200 per acre. Both of these farms have been held in the Stryker family since the early part of the last century. They were conveyed to the original Stryker settler in 1720 by Richard Stillwell.

Robert Sprague Hall, of Boston, who figures as the purchaser in all deals by Wood, Harmon & Co., has bought the Wm. H. Kouwenhoven farm, situated in the old town of Flatlands (32d ward), consisting of about thirty acres. This tract is bounded on the west by Kouwenhoven road and on the east it extends almost to East 54th st. To the north it runs to a line about midway be-

tween Avenues G and H, while on the south it extends just beyond Avenue I. The price paid was $1,700 per acre. The same purchaser has bought the old Grant S. Kouwenhoven farm, at present owned by Lotta C. Hall, which lies just north of the Wm. H. Kouwenhoven piece. It contains about 28 acres, for which the same price, $1,700 per acre, was paid. McNulty & Fitzgerald were the brokers in both transactions.

Dean Alvord, who has lately acquired title to a considerable tract just south of Prospect Park, has just purchased from John S. Nugent about one-half the block bounded by Albemarle road and Beverly road, and lying between East 12th and East 13th sts. The price paid was $25,000. Mr. Alvord now holds the entire tract between Beverly road and Church av and East 12th st. and the Brighton Beach Railroad.

To Fulton st. property owners the sale at auction of the Rothschild plot on the northwest corner of Fulton and Jay sts., which took place on Tuesday of this week at 111 Broadway, Manhattan, was an event of interest. Although the sale was announced as a peremptory one, the property was withdrawn after the bidding reached $175,000, on the ground that a sale at such a figure would be too great a sacrifice of the property. It was stated by Mr. Rothschild to the Record and Guide reporter, that he would not again offer this corner at auction. This corner has a frontage of 109.7 on Fulton st. and 120.8 on Jay st. It was purchased by Mr. Rothschild about nine years ago for $224,000. At that time there were several store buildings on the site, which paid the owner a good rental. These buildings were torn down by Mr. Rothschild to allow the erection of the building which was recently taken down under the direction of the Building Department. At present there is only the cellar excavations for the proposed new building. It may be of interest to state that it was a Manhattan operator, Simon Bauner, who made the bid of $175,000, for this piece of Brooklyn real estate. Before the building was torn down this corner was rated on the books of the tax department at $180,000.

On Wednesday, the adjourned sale of the "Fougera" apartment house was the attraction at the Brooklyn Real Estate Exchange. Starting with a bid of $25,000 above the mortgage of $75,000, it was finally knocked down to William Nelson, of Manhattan, for $40,000 above the mortgage. The result must have been a great disappointment to the Fougeras, since at the first sale two weeks before, a bona fide outside bid of $44,500 was received. The attorney for the family bid the building in at $45,000, and it was then stated that the property would be withdrawn and again offered at the later date. It is significant that the purchaser is a Manhattan man,for it again indicates that outside capital is more and more looking to Brooklyn for investment.

The Harbor and Suburban Real Estate Company has recently purchased a plot between East 13th and East 14th sts. and Av. F and Av. G, Flatbush. The plot has a frontage of 120 feet on Av. F and 100 feet on East 14th st., with a small frontage on East 13th st. The price paid was $2,100.

Brooklyn real estate buyers are very much interested in the bill introduced by Assemblyman Collier which provides that "any judicial sale of real estate situated in the county of Kings may be made by and under the direction of a referee to be appointed for that purpose by the court, whether all parties to the action have appeared or not." Such a law is now in force in New York County, but in Kings County all sales under judicial decree must be made by the sheriff unless the consents of all parties to the action are obtained to the appointment of a referee. It is often such a difficult matter to get these consents that in the majority of cases the sheriff conducts the sales and the fees go to him. It is the plain object of this bill therefore to divert these fees from the sheriff to the members of the bar. As the office of the Sheriff of Kings County is a fee office, it may be taken for granted that the sheriff will bitterly oppose any change in the law unless he is allowed a substantial salary in place of fees.

An important sale of Park Slope property was made this week, through Leonard Moody, of Mr. Guido Pleissner's recently completed mansion to Jacob Meuser for a stated consideration of $50,000. This property is situated on the southwest corner of Lincoln place and Prospect Park plaza, directly opposite the Montauk Club House. It covers a triangular lot with a total area of about three ordinary lots, and was completed in 1894. The stated cost of the house alone was some $70,000. It is built of brick and brownstone, and contains 18 rooms. This property is considered one of the finest dwelling houses in this section of the borough, and was only on the market for two weeks. Good judges of property in this neighborhood consider $50,000 a low figure.

The Union Land & Improvement Company has awarded the contract for grading its entire property at Forest Parkway on Jamaica av. Twombly & Eldert are the contractors, and expect to begin work at once and complete the same by July 1st next. This property is situated in that section of the Borough of Queens close to the Brooklyn line, and near Forest Park, from which it takes its name. It was acquired by the company some seven years ago, but no attempt has been made to improve or market the lots until the present time. The present officers of the company are: G. W. Sanborn, President; F. W. Rowe, Secretary; Dean Alvord, Treasurer; and Claude P. Boyle, Special Representative.

The Williamsburgh Trust Company, newly organized for business in the Eastern District, expects to begin business about the 20th of this month. It will be located in the basement of the First National Bank Building, Broadway and Kent av. Its list of newly elected directors includes the names of Roswell P. Flower, Henry O. Havemeyer, Herman O. Armour, Theodore F. Jackson, and Lowell M. Palmer. It is expected that this new financial institution will meet with great success, as there is only one other trust company in this section of the borough.

The Greenpoint Board of Trade has recommended as a site for a new park the blocks bounded by North 13th st., Bedford av., North 15th st., Engert av., Lorimer st., Newton st., Union av., North 13th st., and Driggs av. This property consists of 168 lots, and is crossed by three trolley lines. As soon as the Grand Street Board takes similar action, a committee from both boards will call on the Mayor in reference to the matter.

Carroll st., No. 785, near 8th av., 3-sty brownstone dwelling; seller, Pauline E. Martin; buyer, Geo. W. Osborne; brokers, Burrill Bros. Price, $16,500.

President st, No. 632, 4-sty brick flat; seller, Geo. W. Martin; buyer, W. L. Spedick; brokers, Burrill Bros. Price, $8,750.

The expected boom in Queens County property is evidenced by the incorporation of the Far Rockaway Realty Company, of Far Rockaway, which was filed early this week in the office of the Secretary of State. This company will deal in and improve real estate in Queens County chiefly. The majority of the directors are residents of Far Rockaway.

An important lease of Fulton st. property has been made through the Leonard Moody Real Estate Company, by which Joseph H. Bouland obtains control of the property adjoining his store for a long period of years. This property is situated on the northeast corner of Fulton and Bridge streets, and is known as Nos. 497 to 501 Fulton street and 411 and 419 Bridge street. It is Mr. Bouland's intention to remodel these buildings for use in connection with his dry goods store. Ultimately, he expects to tear the present buildings down and erect a fine addition to his store. The chief importance of this announcement in the eyes of the real estate men is the fact that the necessity for enlargement of this dry goods house seems to indicate that the north side of Fulton street is beginning to boom. Values on the south side are very much greater than similarly built properties on the north side. As soon, however, as several large stores locate on the latter side there is every reason to suppose that this side will become equally valuable.

REAL ESTATE NOTES.

Philip Jeselson was the broker in the sale of the plot at the southeast corner of the Southern Boulevard and Webster av, mentioned in our last issue.

The following real estate men were admitted to membership in the Board of Brokers this week: Alfred V. Amy, No. 7 Pine street; Charles E. Schuyler, No. 967 Boulevard; Edwin Q. Bell, No. 111 Broadway; Richard Alexander, Marble Hill, Kingsbridge, and Francis E. Ward, of Holdridge & Ward, No. 4 Warren street. The board now comprises 69 members.

A delegation of property owners from upper Park avenue called on Mayor Van Wyck yesterday to complain of the inadequate lighting of the avenue, the defective pavement, and the unendurable noise made by the trains which pass over the viaduct. The Mayor said he would refer the lighting complaint to the Commis-

sioner of Lighting, the complaint about the street to the Commissioner of Streets, and the noise complaint to the Board of Health.

Columbia University, in an effort to reduce its interest-bearing debt, has given a mortgage for $3,500,000 to the United States Trust Company on several parcels of realty, securing an issue of 3% gold bonds for that amount, maturing in 1909. The property covered by the mortgage is located as follows: 5th ave., northwest corner of 49th st., 200.10x812.11; 5th ave., northwest corner of 50th st., 200.10x807.4, and the property bounded by 116th, 120th sts., Broadway and Amsterdam ave., being the University site.

Geo. F. Johnson & Sons have scored well-deserved success in the sale of the twenty new, attractive and well built two and three-story dwellings which they recently completed on East 156th and Dawson streets. They are all of brick and stone, on lots 25x100 feet each, with open space of about ten feet on one side of each house, and arranged for two and three families. The first block of sixteen built were also quickly sold and the Messrs. Johnson are about to commence the erection of forty-two others of a like character on their tract, which embraces over 1,000 lots, distant about ten minutes' walk east of the 156th street station of the "L" road.

It is reported that, in addition to the coming sale of part of the Huntington tract, by Henry Morgenthau, noted in this column last week, another important auction of vacant land will take place next month, when a plot of about 150 lots will be put up, belonging to the New York Juvenile Asylum, and situated in Amsterdam, Audubon and 11th avenues, and Kingsbridge road, between 175th and 178th streets. The site occupied by the asylum buildings and the playground will not be sold. It is also said on good authority that the big holdings of William Waldorf Astor and the William Watson estate on the Westchester turnpike, east of the Bronx, will shortly be cut up into lots and sold. The Westchester Golf Club has its links on the Watson property, and has been looking about for a new home.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

William A. Graham and James Nash Webb, forming the firm of Graham & Webb, who have conducted their business in real estate and insurance for the long period of twenty-four years at their office, No. 69 Avenue D., have opened an office at No. 1928 Lexington avenue, near 119th street, for the accommodation of those of their patrons who have moved up town. The firm makes a specialty of renting and collecting and the management of estates. Their card will be found opposite the editorial page of this issue.

Sturges & Co., No. 220 Broadway, are one of the most pushing of real estate agency and brokerage firms. They make a specialty of exchanges, the making of mortgage loans and the sale of plots with bulding loans. Their telephone call is 2294 Cortlandt. Thomas L. Sturges and George R. Purvis comprise the firm; both are active, experienced men.

Thomas & Son, real estate brokers and agents, of Amsterdam avenue and 146th street, whose well-known sign, "Follow the Star," is very much in evidence on Washington Heights, have extended the field of their efforts by opening a branch office at Boulevard, corner of 107th street, a district which is the scene of a great selling and building movement. The same close attention to business and straightforward dealing that have characterized the work of their Amsterdam avenue office will be followed by Messrs Thomas & Son in their Boulevard branch office.

Edmund G. Mills, broker for the sale of high-class city and out-of-town property, has moved to commodious and easily accessible offices at No. 45 East 42d street, opposite the Lincoln National Bank. Mr. Mills is a member of the Real Estate Board of Brokers, and his lists of out-of-town properties for sale and rent are complete and attractive.

P. F. Canavan, agent and broker, of No. 120 9th avenue, near 19th street, has opened a branch office at No. 5 7th avenue, to better serve the interests of a growing clientele.

Edward N. Weart, of E. N. Weart & Co., real estate brokers, who have been established in Chicago since 1883, with a branch office here for the past four years, has closed the New York office and returned to Chicago, where there has lately developed much activity. The firm will devote their best efforts to selling Chicago realty, and will be glad to attend to orders for New York brokers having business there.

RECOGNIZING AN ARCHITECTS COPYRIGHT.

A distinguished architect, who was equally gratified and astonished by the receipt of the following letter, and the enclosure to which it refers, sends it to us with the suggestion that it be published "for the encouragement of others." The incident to which it refers is unique in his experience, and we doubt whether it can be paralleled from that of any other member of his profession.

"* * * Park Trustees, December, 1898.

"Dear Mr. * * * .

"When the specifications for the * * * Memorial Tower were submitted to me for my approval, I did not like the arrangement of the 'louvres,' and I had them changed so that they called for slate louvres as you had specified for * * * * Church tower. The saving to the trustees by this change approximated * * * and it seemed to me that we should not avail ourselves of your ideas without rendering you a proper compensation. I therefore enclose the Treasurer's cheque for * * *. If this meets your approval, kindly sign and return the enclosed voucher.

"Faithfully yours, "——— ———."

BUILDING MATERIAL MARKET.

BRICK.—Owing partly to the low tides the arrivals of Hudson River brick have been fewer than usual. The demand has been better, and not only were the arrivals cleaned up, but the accumulation has gradually been worked out. The tone of the market is firmer, and prices have advanced to $5.75@6.00. Specials have brought $6.12.5, and in extreme cases so high as $6.25. New Jersey brick have sold quite freely at $5.50@6.00, with some going for a trifle more.

LATH.—Down East the season has been very backward, and at the present time very few mills are cutting. At this time of the year lath should be coming in much more freely than they are at present. The arrivals during the week have amounted to about 2,000,000 lath. The fair weather has greatly increased the demand, and the offerings were quickly absorbed at $2.25. The market at present is bare, with a light supply on the way. No prices are being made for lath to arrive, but the tone of the market is firm.

CEMENT.—The market for cement, both Rosendale and American, is very strong. The inquiry is heavy and supplies are scarcely coming in in sufficient quantities to satisfy it. There has been no advance in price, but Rosendale is firm at 80c. and 95c. The general run of American Portland is selling from $2.00 to $2.10. Very little Portland of the foreign makes is being imported.

LIME.—Rockland lime has sold at 80@85c. for the common and 90@95c. for the finishing. Several cargoes have been in during the week, which have gone readily at these prices. The market is devoid any new feature. State and Jointa lime are steady at 75c. and 90c. Demand is reasonably good.

LUMBER.—A week of fair weather has stimulated a market already strong. As the season progresses the scarcity of stock becomes more and more pronounced, especially in the hardwoods. Hemlock is strong, and a further advance in price is looked for by the 15th of the present month. The market for cypress shingles has been pushed for supplies, but the situation is now somewhat easier, although the demand continues strong. Yellow pine is still firm but steady at the prices which have prevailed for a week or so.

NAILS.—The market for cut nails has held steady after the advance of last week, and quotations are: Carload lots to jobbers $1.75 f. o. b. mill, Pittsburg base; less than carload lots, $1.80. To other than jobbers, carload lots, f. o. b. mill, Pittsburg base, $1.80; less than carload lots, $1.95. Special export prices to jobbers and others, and strictly for export shipments, $1.60 base, on dock, New York. Small lots out of store, $2.10. Wire nails continue to be in good demand. The market is unchanged at $2.05 for carload lots, f. o. b. mill, Pittsburg base; $2.20 on dock, New York, and $2.40 for small lots out of New York stores.

GLASS.—The situation in the window glass market remains unchanged. The manufacturers are still withholding prices, and discounts made by local jobbers are in accordance with demand and stock on hand. The market is very firm at 85 and 5% discount. Correspondence from English and Continental firms shows that the foreign market is enjoying a heavy spring demand, and indicates that the coming season abroad will be an unusually good one. On account of the heavy demand French window glass has advanced considerably abroad, and local discount is firm at 80 and 10%. Plate glass remains at 80% discount, and is having a good call.

NAVAL STORES.—The market for spirits of turpentine has weakened still further during the week, and values have declined to 42½c. for regulars and 43c. for machines. Selling in the local market has been chiefly in small lots. It is not probable that a further decline will take place. Tar was weak at former values, and closed at $1.70@1.75 for regulars and $3.20 for oil barrels. Pitch was dull, and closed at slightly less than former value, $1.65@1.70.

OIL.—Linseed oil is quoted at 47c. for 5-bbl. lots and over and 48c. for less than 5-bbl. lots, with an addition of 2c. per gallon for 5-bbl. lots and over. Competition between city and up-State crushers has been a little stronger and has stayed the advance in price temporarily. Demand is good. Calcutta seed is quoted at 58c.

LEAD.—Prices of lead, as announced by the National Lead Co., are unchanged. Demand for both white and red continues to be good.

PAINTS.—A continuance of the present weather would soon affect the market, but at present there is no change. Prices remain steady.

We will pay a liberal price for copies of The Record and Guide Nos. 1453, 1454, 1460, 1461, 1471, 1475, and 1554; also Indice to Volumes 31 and 41, delivered at our office in good condition.

The firm consists of Alexander McMillan Welch, formerly of No. 503 5th avenue; Bowen Bancroft Smith, formerly of the firm of Smith & Cromwell, No. 123 East 23d street, and George Provot, for many years associated with Mr. Welch.

The Association of Roofers and Sheet Metal Workers of Greater New York and adjacent cities held their annual meeting at the Building Trades' Club last Thursday. The following officers for the year were elected: John G. Grace, president; M. F. Westergren, 1st vice-president; Barth G. Rice, 2d vice-president; Frank P. Cumicor, treasurer; James R. McAfee, secretary. Executive committee, C. T. Galloway (chairman), Mr. Schenk, Jacob Ringle, Mr. Harrison, A. Schwoerer.

Isaac A. Hopper returned during the week from a two months' vacation at his plantation in Florida. On the evening of April 4 he was honored by the presentation to himself of a handsome portrait in oil, by the members of the Harlem Democratic Club, of which he is and has been for several years the president. A collation and vaudeville entertainment helped to make the homecoming welcome a pleasant affair. Mr. Hopper's friends, who are legion, will be gratified that he is once more home and much invigorated by his outing.

The number of permits for new buildings and alterations in Brooklyn granted in March, and the estimated cost of the same were: Brick buildings, 255; frame buildings, 249; total buildings, 504; alterations, 258; total number of permits issued, 762. Estimated cost of brick buildings, $1,694,814; estimated cost of frame buildings, $552,581; total cost of buildings, $2,247,395; estimated cost of alterations, $155,620. Total estimated cost, $2,403,025; total estimated cost on permits issued in March 1898, $1,854,318, a gain in favor of 1899 $548,707.

The following is a comparative statement of the receipts of the Department of Water Supply for Croton water for building purposes for the months named:

	1896.	1897.	1898.	1899.

Rate, 10c. per 1,000 bricks.

These figures include stone work, which is figured as brick and lumped with brick; and frame houses in 23d and 24th Wards. The Department records, therefore, do not show exact number of bricks paid for, nor do the records show the following items:

Buildings in which water is used through meter. These are paid by meter measurement in Meter Department as charges for general consumption.

Buildings in which no Croton is used; well or spring water only being used; no charge.

Alterations and extensions, using less than 10,000 bricks; not charged.

TRADE NOTES.

FIRE-RESISTING PROPERTIES OF THE AMERICAN LUXFER PRISMS.

In a recent issue of "The Insurance Press," an account appeared of a test of the American Luxfer Prisms as substitutes for fire-doors and other fire-stops. The test was made in the yard of the Cornell Iron Works, in West 26th street, this city. For more than thirty minutes the prisms were subjected to the intense heat of a pitch pine fire. It was a crucial test, and was witnessed by many leading experts of the insurance business, architectural profession and building trades. The test was remarkably severe, such as would hardly be found to prevail under the conditions incident to any ordinary fire where the prisms would be exposed. In ordinary fires, the upward tendency of heat and flame is such as to soon gain for itself free vent to the open air, thereby creating a draft which serves to carry off flame and heat. Just the opposite of these conditions existed in the test, as the heat and flames were confined within a brick structure containing the prisms, owing to the smallness of the exit areas at the top of the building, while the very large openings at the base served to furnish such a free draft as to make the interior of the test-house assume the nature of a furnace. Notwithstanding the severity of the test, the whole frame was found to be in good order, and aside from intentional breaks, doubtless would have continued to prove efficient as a fire-stop if given further test. Aside from the fire-resisting qualities of the Luxfer prisms, they demonstrated another very valuable characteristic, that is, the non-radiation of heat. Firemen will find that the prisms not only furnish them the means of seeing where a fire is located and how it is best to be fought, but will serve as a protective barrier against heat and smoke.

DYCKERHOFF PORTLAND CEMENT.

By the omission of the word "not" the first paragraph of the letter of E. Thiele, in a recent issue, was rendered somewhat mixed. The paragraph should have read: "It has repeatedly come to my notice that contractors have represented to architects that the Dyckerhoff Portland cement, which had been called for in their specifications, could not be obtained in the market, and have secured the architect's consent to employ some other brand." As will be remembered, this was followed by Mr. Thiele's announcement that Dyckerhoff Portland cement is always kept in stock by all leading dealers in building materials, and requesting architects and engineers to communicate with him, if, for any reason, they could not obtain supplies of this excellent article. Mr. Thiele's address is 78 William street, and his telephone call is 1322 John.

DECORATING AND FRESCO CLEANING.

Many owners are not aware of the astonishingly satisfactory results that may be secured in the way of cleaning and restoring to their original brightness smoky wall paper and ceilings, thus doing away with the necessity to paper anew or redecorate. The Lloyd Fresco Cleaning and Decorating Co., of No. 13 West 42d street, contract for such work, and their customers include many of the best people of New York, by whom their process is commended for cleanliness, thoroughness and low cost. Mr. A. Newbold Morris stated the other day that the new work and restoring of old decorations executed by the Lloyd Co. for himself and for the Metropolitan Club was very satisfactorily done, and Mr Russell Sage recommends the process because of the low cost and satisfactory work. Imperfections other than smoke stains, such as cracks, water stains, etc., are removed, and all work is carried on with comparatively little or no interference to business in banks, theatres, stores and places of assembly, owing to the system of bridging used and the rapidity with which the work is executed. Besides the cleaning process the company executes contracts for painting and decorating of every description, for which they have excellent facilities. It will pay to consult the Lloyd Fresco Cleaning and Decorating Co. before making contracts for work in their line. Their telephone call is 705 38th street.

FIREPROOF WOOD

BY THE

ELECTRIC FIREPROOFING COMPANY'S PROCESS, 119 West Twenty-third Street, New York City, N. Y.

OPERATED IN GREAT BRITAIN BY THE BRITISH NON-INFLAMMABLE WOOD COMPANY, LTD., LONDON, ENG.

THE ONLY PROCESS IN EXISTENCE FOR RENDERING WOOD ABSOLUTELY NON-INFLAMMABLE.
USED IN THE UNITED STATES NAVY, AND BY THE BRITISH ADMIRALTY FOR ALL BATTLESHIPS, CRUISERS, MONITORS, TORPEDO-BOATS AND TORPEDO-BOAT DESTROYERS, AND FOR ALL FURNITURE USED IN SUCH VESSELS.
ALSO USED EXTENSIVLY BY OTHER EUROPEAN POWERS.

SPECIFIED TO BE USED IN LONDON IN THE BUILDING OF THE NEW ADDITION TO THE BRITISH MUSEUM, THE CRYSTAL PALACE, THE BEDFORD GRAMMAR SCHOOL, IN MR. CHARLES WYNDHAM'S NEW THEATRE, IN MESSRS. WALLACE & CO.'S FURNITURE FACTORY, AND FOR ALL THE WOOD WORK TO BE USED IN THE NEW YACHT NOW BUILDING FOR HER MAJESTY, THE QUEEN OF ENGLAND.

THE NEW 14-STORY R. G. DUN BUILDING, CORNER READE ST. AND BROADWAY, AND SEVERAL OTHER PROMINENT OFFICE BUILDINGS IN NEW YORK CITY, HAVE BEEN CONSTRUCTED THROUGHOUT WITH WOOD TREATED BY THE "ELECTRIC FIREPROOFING PROCESS."

WHAT PRESIDENT HENRY MORTON, OF THE STEVENS INSTITUTE OF TECHNOLOGY, SAYS:

Hoboken, N. J., May 5th, 1898.

Electric Fireproofing Company, 119 and 121 West 23d St., New York.

Gentlemen—In reply to your letter of 3d, inquiring as to the permanency of protection afforded to wood by your treatment, I would reply that it is certainly permanent. The substance with which the wood is treated, and which renders it non-inflammable is fixed and non-volatile, and will remain in the wood and give it protection for all time. Very truly yours. HENRY MORTON, Pres.

ITS PERMANENCY OFFICIALLY CERTIFIED TO BY DR. JOHN ALTFIELD, F. R. S., PROFESSOR OF PRACTICAL CHEMISTRY TO THE PHARMACEUTICAL SOCIETY, GREAT BRITAIN, FROM 1892 TO 1896; AUTHOR OF THE MANUAL OF CHEMISTRY; FORMER ANALYST TO THE ASSOCIATED FIRE OFFICES, LONDON.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:
1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title, and interest of the grantor is conveyed, omitting all covenants or warranty.
2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.
3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.
4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.
